Prisons beyond the New Penology: The Shifting Moral Foundations of Prison Management

Alison Lieblich and Ben Crewe

The present state of our prisons, blighted by age, severe overcrowding, insanitary conditions and painfully slow progress in modernization makes it necessary to consider urgent new ways of dealing with these problems which at present seem almost insoluble.

(Home Affairs Committee, 1987: 1)

INTRODUCTION

The sociological study of prisons began with the prisoner community (Clemmer, 1940; Sykes, 1958), has unevenly included the study of prison officers (see, Toch, 1978; Lieblich and Price, 2001; Crawley, 2004) but has rarely included senior managers (for the best exceptions, see Jacobs, 1977; also Riveland, 1999, on prison management trends in the USA).¹ In some respects, it is understandable that there has been so little close empirical study of prison managers – access

is difficult, and as power-holders, senior managers appeal less to critical scholars than prisoners do. But it is unfortunate that we know so little about the professional orientations of senior prison practitioners. As translators and transmitters of penal policy, they shape what goes on in prison. They are also indicative of wider shifts in the terms of prison governance. Important transformations have taken place in the organization, management and purpose of prisons in the last few decades, and in the social and philosophical orientations of prison managers. These transformations can be detected in the experience of the prisoner and the prison officer.²

The version of managerialism seen to emerge in criminal justice during the late 1980s and onwards was described by Feeley and Simon (1992) as ‘the new penology’: an emerging strategy of corrections having negative ideological effects on practitioners via new

Prison Movies Kevin Kehrwald,2017-02-14 *Prison Movies* Cinema Behind Bars traces the public fascination with incarceration from the silent era to the present Often considered an offshoot of the gangster film the prison film precedes the gangster film and is in many ways its opposite Rather than focusing on tragic figures heading for a fall the prison film focuses on fallen characters seeking redemption The gangster s perverse pursuit of the American dream is irrelevant to the prisoner for whom that dream has already failed At their core prison films are about self preservation at the hands of oppressive authority Like history itself prison films display long stretches of idleness punctuated by eruptions of violence dangerous moments that signify liberation and the potential for change The enclosed world of the prison is a highly effective microcosm one that forces characters and audiences alike to confront vexing issues of race class gender and sexuality These portrayals of men and women behind bars have thrived because they deal with such fundamental human themes as freedom individuality power justice and mercy Films examined include *The Big House* 1930 *I Want to Live* 1958 *The Defiant Ones* 1958 *Cool Hand Luke* 1967 *Midnight Express* 1978 *Escape from Alcatraz* 1979 *The Shawshank Redemption* 1994 and *Starred Up* 2013 *Society and Prisons* Thomas Mott Osborne,2017-11-16 Excerpt from *Society and Prisons Some Suggestions for a New Penology* Feeling as I have long felt that citizenship has no responsibility greater or more pressing than the state prison I gladly accepted the distinguished honor conferred upon me by the President and Fellows of Yale I have a double gratification in doing so First because I knew personally and highly esteemed Mr Dodge hav ing sat by his side as a delegate

to the Sound Money Conferences at Indianapolis in 1897 8 and secondly because the honor is not altogether a personal one but is bestowed through the lecturer upon Yale s great sister University I should hardly be human if I did not indulge in a considerable measure of pride in being the first graduate of Harvard to be accorded the very great privilege of giving the Dodge Lectures About the Publisher Forgotten Books publishes hundreds of thousands of rare and classic books Find more at www.forgottenbooks.com This book is a reproduction of an important historical work Forgotten Books uses state of the art technology to digitally reconstruct the work preserving the original format whilst repairing imperfections present in the aged copy In rare cases an imperfection in the original such as a blemish or missing page may be replicated in our edition We do however repair the vast majority of imperfections successfully any imperfections that remain are intentionally left to preserve the state of such historical works
