Fenster, Carolyn P. Collette, 2017 Recent research has emphasised the importance of insular French in medieval English culture alongside English and Latin for a period of some four hundred years French variously labelled the French of England Anglo Norman Anglo French and Insular French rivalled these two languages The essays here focus on linguistic adaptation and translation in this new multilingual England where John Gower wrote in Latin while his contemporary Chaucer could break new ground in English

Corpus Analysis and Variation in Linguistics Yuji Kawaguchi, Makoto Minegishi, Jacques Durand, 2009 This new edition of TUFs Studies in Linguistics we aim to showcase the various linguistics research conducted at Tokyo University of Foreign Studies In this first volume we report on the international symposium hosted by the Global Center of Excellence Program Corpus based Linguistics and Language Education CbLLE throughout 2008 The World's Major Languages Bernard Comrie, 2018-04-17 The World's Major Languages features over 50 of the world's languages and language families This revised edition includes updated bibliographies for each chapter and up to date census figures The featured languages have been chosen based on the number of speakers their role as official languages and their cultural and historical importance Each language is looked at in depth and the chapters provide information on both grammatical features and on salient features of the language's history and cultural role The World's Major Languages is an accessible and essential reference work for linguists *Language and Social Structure in Urban France* David Hornsby, 2017-07-05 The coming together of linguistics and sociology in the 1960's most notably via the work of William Labov marked a revolution in the study of language and provided a paradigm for the understanding of variation and change Labovian quantitative methods have been employed successfully in North America the UK Scandinavia and New Zealand but have had surprisingly little resonance in France a country which poses many challenges to orthodox sociolinguistic thinking Why for example does a nation with unexceptional scores on income distribution and social mobility show an exceptionally high degree of linguistic levelling that is the elimination of marked regional or local speech forms And why does French appear to abound in hyperstyle variables which show greater variation on the stylistic than on the social dimension in defiance of a well

established theory than such variables should not occur This volume brings together leading variationist sociolinguists and sociologists from both sides of the Channel to ask what makes France exceptional In addressing this question variationists have been forced to reassess the accepted interdisciplinary consensus and to ask as sociolinguistics has come of age whether concepts and definitions have been transposed in a way which meaningfully preserves their original sense and crucially takes account of recent developments in sociology Sociologists for their part have focused on the largely neglected area of language variation and its implications for social theory Their findings therefore transcend the case study of a particularly enigmatic country to raise important theoretical questions for both disciplines

Blood Royal Eric Jager, 2024-09-24 A riveting true story of royal murder and detection in 15th century Paris by the New York Times bestselling author of *The Last Duel* Jager's book skillfully proves that a well told work of history may resemble nothing so much as a detective story punctuated with footnotes David Lehman author of *The Perfect Murder* On a chilly November night in 1407 Louis of Orleans was murdered by a band of masked men The crime stunned and paralyzed France since Louis had often ruled in place of his brother King Charles VI who had gone mad As panic seized Paris an investigation began In charge was the Provost of Paris Guillaume de Tignonville the city's chief law enforcement officer and one of history's first detectives As de Tignonville began to investigate he realized that his hunt for the truth was much more dangerous than he ever could have imagined A rich portrait of a distant world *Blood Royal* is a gripping story of conspiracy crime and an increasingly desperate hunt for the truth And in *Guillaume de Tignonville* we have an unforgettable detective for the ages a classic gumshoe for a cobblestoned era Few works of fiction will grab readers attention as well as Jager's riveting story of a 1407 murder mystery that split the royal family of France An impressive combination of mystery crime story and social and political history Kirkus Reviews starred review An outstanding crime tale that also provides a good survey of both the glittering facade and the seamier aspects of medieval Paris Booklist

Franco-British Academic Partnerships Philippe Lane, Maurice Fraser, 2011-07-08 The steady increase in joint programmes and qualifications offered by UK and French universities is a cause for celebration But language constraints financial pressures and political uncertainty present real obstacles to continued expansion How are these to be overcome And how can higher education institutions on either side of the Channel help each other to realise the enormous potential of Franco British partnerships Franco British Academic Partnerships The Next Chapter is a valuable opportunity not only to take stock of intensifying bilateral cooperation in the higher education sector but also to share experience and best practice and hopefully to identify some new initiatives and areas for collaboration Boasting contributions from leading politicians and higher education managers alongside essays from distinguished international scholars the book will be required reading for academics and university leaders
