Social Structures and Human Lives Matilda White Riley, Bettina J. Huber, Beth B. Hess, 1988-09 Social Structures and Human Lives consists of papers from the 1986 American Sociological Association annual meeting selected to reflect the rich and diverse array of conceptual methodological and substantive reports presented there Leading academics and researchers in the field offer information about aging over the life course the relationship between aging and the changing structure of families firms state and society as a whole and implications for equality of opportunity for people of differing age gender race and socioeconomic status A final chapter links selected topics from previous chapters to established sociological concerns and clarifies the broad scope of the book's central the

Sociological Lives Matilda White Riley, 1988-08-01 *Sociological Lives* gives the reader a glimpse into the sociology of sociology by presenting autobiographical accounts dealing with varied aspects of the interplay between social structures and human lives. The contributors reveal something of how their own sociological lives have been influenced by changing social structures and how in turn their lives are variously located in the structure and history of sociology and marked by societal and intellectual trends spanning nearly a century. The introspection and retrospection give the reader rare access to the inner experiences of some of the field's leading scholars as well as their appraisal of sociological trends and their ideas of the shape of future trends.

The c **Sociological Perspectives**, 1988 **Invitation to the Life Course** Richard Settersten, 2018-02-06 *Invitation to the Life Course: Toward New Understandings of Later Life* discusses in depth the challenges of age, time, and social contexts for the study of aging and later life. Understanding aging as a process and later life as a period must be accompanied by serious attention to the life course. This brings significant challenges related to time as gerontologists must describe and explain life patterns over many decades. It also brings significant challenges related to place as gerontologists must examine how social contexts structure pathways into and through later life and how those contexts affect the nature and meaning of experiences along the way. This book is a natural extension of the editor's previous work *Lives in Time and Place: The Problems and Promises of Developmental Science* (Baywood, 1999).

The Social Context of AIDS Joan Huber, 1992 Theoretical models for understanding AIDS in relation to society and the general question of high risk sexual practice often the means of transmission of the virus are among the issues discussed in this volume. It also explores the social context of policy and programme development in fighting AIDS: organizing drug users, forced blood testing, and family support groups, for example. Versions of these articles were originally delivered as papers in thematic sessions of the 1989 American Sociological Association annual meeting. Collectively they represent the cutting edge of sociological work on the AIDS crisis.

Macro-Micro Linkages in Sociology Joan Huber, 1991-03 In this volume twenty leading sociologists consider the dichotomy between micro and macro level analysis in social research. All demonstrate the inescapable connections between the two and attempt to link them together. This topic is approached from various theoretical perspectives including the interrelationship of large scale and small scale theories, variables and concepts. It is studied more specifically in relation to institutions such as education, work, and family, gender, and demographic research.

Handbook of Research Design and Social Measurement Delbert C. Miller, 1991-07-05 Includes bibliographical references and index.

Methods of Life Course Research Janet Z. Giele, Glen H. Elder, 1998-03-10 What are the most effective methods for doing life course research? In this volume the field's founders and leaders answer this question, giving readers tips on the art and method of the appropriate research design, the collection of life history data, and the search for meaningful patterns to be found in the results.

Cross National Research in Sociology Melvin Kohn, 1989-05 The development of cross national research attempts to a much needed global perspective on sociological research. Its adherents overcome national cultural

logistic and linguistic barriers in the attempt to provide truly comparative information on the human condition This volume stemming from the plenary sessions of the 1987 American Sociological Association annual meeting and edited by past president Melvin Kohn presents the cutting edge of cross national research Its distinguished contributors from nine countries describe the theoretical possibilities and limits of this kind of endeavour consider the difficulties of its implementation and present a range of studies ranging from two nation comparisons to truly global ones that are Global Families Meg Wilkes Karraker,2012-05-08 In Global Families author Meg Karraker provides family scholars with a methodical introduction to the interdisciplinary field of globalization Global Families then examines the ways in which globalization impinges on families throughout the world in four major areas demographic transitions world wide culture international violence and transnational employment The book concludes with a discussion of supra national policies and other efforts to position families in this global landscape Books in Series, 1876-1949 R.R. Bowker Company,1982 *Integration durch Bildung* Rolf Becker,2011-08-27 In Deutschland ist Bildung ein Schlsselindikator f r Sozialintegration Dass die Bildung eine essentielle Voraussetzung f r den Zugang zu beruflicher Ausbildung und Besch ftigung ist steht au er Frage Kinder und Jugendliche mit Migrationshintergrund die gro e Nachteile beim Bildungserwerb und Zugang zum Arbeitsmarkt haben sind in Deutschland kein randst ndiges Ph nomen Trotz vielf ltiger bildungs und arbeitsmarktpolitischer Bem hungen bestehen immer noch deutliche Ungleichheiten bei Bildung Ausbildung und Besch ftigung zu Ungunsten der Migrantenkinder fort

Willis,2014-06-03 The goal of this volume is to examine development in middle age from the

perspective of baby boomers a unique cohort in the United States defined as those individuals born from 1946 to 1962 This is the largest cohort ever to enter middle age in Western society and they currently represent approximately one third of the total U S population The Baby Boomers Grow Up provides contemporary and comprehensive perspectives of development of the baby boomer cohort as they proceed through midlife Baby boomers continue to exert a powerful impact on the media fiction movies and even popular music just as they were an imposing force in society from the time of their entry into youth As these individuals enter the years normally considered to represent midlife they are redefining how we as a society regard adults in their middle and later years This volume features several unique aspects First the literature reviewed focuses specifically on research relevant to baby boomers and their development as adults rather than a global perspective on middle age Second the volume takes into account the diversity within the boomer cohort such as social class race and education In addition quantitative and qualitative developmental changes occurring from the forties to the fifties and the sixties are considered Differences in leading and trailing edge boomers are likewise addressed Ideal for researchers in adult development and graduate seminars on adult development The Baby Boomers Grow Up will also appeal to adult educators human resource personnel health professionals and service providers and clinical psychologists and counselors The British National Bibliography Arthur James Wells,1991
