Sociological Ambition Elementary Forms Of Social And Moral Life

Chris Shilling

Sociological Ambition Elementary Forms Of Social And Moral Life:

The Sociological Ambition Chris Shilling, Philip A Mellor, 2001-10-19 The Sociological Ambition is a superb book It is beautifully written expertly edited and renders complex and original ideas entirely accessible This is a modern classic Journal of Contemporary Religion For all social scientists who are fed up with corporate style textbooks which appeal to the lowest common denominator The Sociological Ambition must come as a relief Shilling and Mellor have written an account of their discipline but they have done so with a multi purpose task in mind Irish Journal of Sociology In a comprehensive reassessment of the field Chris Shilling and Philip A Mellor examine the various attempts that have been made to reconstruct sociology over the last century arguing that classical and contemporary social theories must be studied in relation to the ambition that first shaped and established the discipline The authors begin by situating sociology in its historical philosophical and theological contexts examining how the founders of the discipline developed competing analyses of the processes elementary to social and moral life through their unique contributions The result is a landmark work in recent sociological study Accomplished and erudite this book will be required reading for students of sociology social theory religious studies and cultural studies

The Sociological Ambition Chris Shilling, Philip A Mellor, 2001-09-05 The Sociological Ambition is a superb book It is beautifully written expertly edited and renders complex and original ideas entirely accessible This is a modern classic Journal of Contemporary Religion For all social scientists who are fed up with corporate style textbooks which appeal to the lowest common denominator The Sociological Ambition must come as a relief Shilling and Mellor have written an account of their discipline but they have done so with a multi purpose task in mind Irish Journal of Sociology In a comprehensive reassessment of the field Chris Shilling and Philip A Mellor examine the various attempts that have been made to reconstruct sociology over the last century arguing that classical and contemporary social theories must be studied in relation to the ambition that first shaped and established the discipline The authors begin by situating sociology in its historical philosophical and theological contexts examining how the founders of the discipline developed competing analyses of the processes elementary to social and moral life through their unique contributions The result is a landmark work in recent sociological study Accomplished and erudite this book will be required reading for students of sociology social theory religious studies and cultural studies

Ethics, Moral Life and the Body Rhonda M. Shaw, 2016-04-29 Shaw addresses the ethical turn in contemporary sociological thinking by exploring the contribution of sociology and the social sciences to bioethical debates about morality and tissue exchange practices

The Cambridge Companion to Durkheim Jeffrey C. Alexander, Philip Smith, 2005-05-26 An authoritative and comprehensive collection of essays redefining the relevance of Durkheim to the human sciences in the twenty first century

The Body and Social Theory Chris Shilling, 2012-08-16 Great to have a new edition this is essential reading and provides a clear accessible yet original overview of social theory and the body Sarah Nettleton University of York Lucidly argued and accessibly written this

book avoids the pitfalls of either too much naturalism or too much social constructivism It is a book with something for everyone from the classics in social theory on the body to contemporary bodily phenomena like genetics body modification and cultural anxieties about death Kathy Davis Utrecht University Unrivalled in its clarity and coverage this sparkling new edition of Chris Shilling's classic text is a masterful account of the emergence and development of body matters in sociology and related disciplines A timely well reasoned response to current concerns and controversies across the globe it provides chapter by chapter coverage of the major theories approaches and studies conducted in the field Each chapter has been revised and updated with new discussions of actor network theory bodywork pragmatism the global resurgence of religious identities new genetics biological citizenship neuroscience and figurations of the living and dead Packed full of critical analysis and relevant empirical studies the book engages with the major classical and contemporary theories within body studies including the naturalistic interactionist constructionist feminist structuralist phenomenological and realist Original logical and indispensable this is a must have title for students and researchers engaged with the study of the body

The Body and Social Theory Chris Shilling, 2003 Praise for the First Edition Essential to any collection of work on the body health and illness or social theory Choice Sophisticated and acutely perceptive of the importance of the complex dialectic between social institutions culture and biological conditions Times Higher Education Supplement Chris Shilling has done us all a splendid service in bringing together and illustrating the tremendous diversity and richness of sociological thinking on the topic of human embodiment and its implications Sociological Review This updated edition of the bestselling text retains all the strengths of the first edition Chris Shilling provides a critical survey of the field demonstrates how developments in diet sexuality reproductive technology genetic engineering and sports science have made the body a site for social alternatives and individual choices and elucidates the practical uses of theory in striking and accessible ways In addition new original material explores the latest feminist phenomenological and action oriented approaches to the body examines the latest work on body projects and the relationship between the body and self identity and outlines a compelling theoretical framework that provides a radical basis for the consolidation of body studies

The New Blackwell Companion to the Sociology of Religion Bryan S. Turner, 2016-10-03 THE NEW BLACKWELL COMPANION TO THE Sociology of Religion I enjoyed reading this book for its in depth examination of the complexities of the social forces that are shaping and are being shaped by religious groups around the world I certainly see this being of theoretical value for researchers engaging the new religious realities of our world Sociology of Religion A Quarterly Review The new companion is a timely and valuable work validly updating the original companion and a good addition to the reference shelves of any academic or specialist library Reference Reviews Reflecting recent developments in the field this companion provides a comprehensive introduction to the sociology of religion with a clear emphasis on comparative and historical approaches Covering all the areas relevant to undergraduate courses in this area the Companion begins by laying down the anthropological and sociological foundations of the study of

religion and their contemporary developments It continues with an analysis of both traditional and contemporary forms of organization such as church sect typologies as well as megachurches and modern forms of spirituality The secularization and post secular society debates are considered in depth along with the globalization process fundamentalism charismatic movements and revivalism It also discusses the sociology of Buddhism Christianity Hinduism Islam Judaism and religions of China as well as the areas of American exceptionalism from de Tocqueville onwards religious nationalism women and piety movements and the spirituality of Native American communities Considering new developments in social theory and religion the collection concludes with a discussion of recent work that attempts to understand the future of religion blending the sociology of modern societies anthropological ethnography and philosophical inquiry

Post-Philosophical Sociology

Richard Kilminster,2023-07-31 In a hyper individualistic age and in the face of the narrowly focused policy oriented research ubiquitous in the social sciences this book revisits the humanistic world view that is integral to Norbert Elias s pre eminent figurational process sociology with the aim of increasing the fund of sociological knowledge that has the human condition as its horizon Clarifying the contentious post philosophical aspects in order to supplement standard histories of sociology with new insights it offers incisive evaluations of some of the bewildered attempts by prominent sociologists to diagnose the malaise of contemporary globalised society It also challenges the orthodox limitation of the empirical scope of sociology to modernity With its ominous warnings of the destructive prevalence of overcritique in the discipline and lack of in depth sociological psychology Post Philosophical Sociology will appeal to scholars of sociology psychoanalysis social philosophy cultural theory and social and political theory with interests in developmental and dynamic thinking and the history of the discipline

Social Identities Between the Sacred and the Secular Abby Day,Giselle Vincett,Christopher R.

Cotter,2016-04-01 Focusing on the important relationship between the sacred and the secular this book demonstrates that it is not paradoxical to think in terms of both secular and sacred or neither in different times and places International experts from a range of disciplinary perspectives draw on local national and international contexts to provide a fresh analytical approach to understanding these two contested poles Exploring such phenomena at an individual institutional or theoretical level each chapter contributes to the central message of the book that the in between is real embodied and experienced every day and informs and is informed by intersecting social identities Social Identities between the Sacred and the Secular provides an essential resource for continued research into these concepts challenging us to re think where the boundaries of sacred and secular lie and what may lie between

The SAGE Handbook of the Sociology of Religion James A Beckford,Jay Demerath,2007-10-29 In their introduction to this Handbook the editors affirm Many sociologists have come to realise that it makes no sense now to omit religion from the repertoire of social scientific explanations of social life I wholeheartedly agree I also suggest that this wide ranging set of essays should become a starting point for such enquiries Each chapter is clear comprehensive and well structured making the Handbook a real asset for all those engaged in the field Grace Davie

University of Exeter Serious social scientists who care about making sense of the world can no longer ignore the fact that religious beliefs and practices are an important part of this world This Handbook is a valuable resource for specialists and amateurs alike The editors have done an exceptionally fine job of incorporating topics that illuminate the range and diversity of religion and its continuing significance throughout the world Robert Wuthnow Princeton University At a time when religions are increasingly affecting and affected by life beyond the narrowly sacred sphere religion everywhere seems to be caught up in change and conflict In the midst of this contention and confusion the sociology of religion provides a rich source of understanding and explanation This Handbook presents an unprecedentedly comprehensive assessment of the field both where it has been and where it is headed Like its many distinguished contributors its topics and their coverage are truly global in their reach The Handbook s 35 chapters are organized into eight sections basic theories and debates methods of studying religion social forms and experiences of religion issues of power and control in religious organizations religion and politics individual religious behaviour in social context religion self identity and the life course and case studies of China Eastern Europe Israel Japan and Mexico Each chapter establishes benchmarks for the state of sociological thinking about religion in the 21st century and provides a rich bibliography for pursuing its subject further Overall the Handbook stretches the field conceptually methodologically comparatively and historically An indispensable source of guidance and insight for both students and scholars Choice Outstanding Academic Title 2009 *The Body in Culture, Technology and Society* Chris Shilling, 2005 Once in a while a manuscript stops you in your tracks What we are offered here is no recovering of old ground but a step change in perspectives on body matters that is both innovative and of fundamental importance to anyone working on this sociological terrain This text is groundbreaking and simply has to be read Acta Sociologica This is Shilling at his creative best these are seminal observations of the classical theories drawn together as never before Moreover as a framework this monograph provides a genuinely new and fertile way of reconsidering not just classical sociology but contemporary forms as well Sport Education Society This is a comprehensive theoretically sophisticated and ambitious treatise on the body that draws from and applies both classical and contemporary sociological theory in a manner that is innovative and thought provoking This book is engaging and thought provoking but Shilling s greatest achievement is his ability to illustrate the importance and continued relevance of classical and contemporary sociological theory to real world concerns It is a book worthy of widespread attention It reinvigorated my interest in the sociological classics and contained countless nuggets of interesting information that led me to conclude that it would be a worthy book to recommend to a broad sociological audience Teaching Sociology Shilling s book like his earlier *The Body and Social Theory* is crucial reading a further valuable contribution in a field where he has provided so much Theory Psychology This is an impressive book by one of the leading social theorists working in the field of body studies It provides a critical summation of theoretical and substantive work in the field to date while also presenting a powerful argument for a corporeal realism in which the body is

both generative of the emergent properties of social structure and a location of their effects Its scope and originality make it a key point of reference for students and academics in body studies and in the social and cultural sciences more generally Ian Burkitt Reader in Social Science University of Bradford Chris Shilling is as always a lucid guide through the dense thickets of the sociology of the body and his chapters on the fields of work sport eating music and technology brilliantly show how abstract theoretical debates relate to the real world of people s lives Professor Stephen Mennell University College Dublin What I find very useful and without any doubt valuable not only in Shilling s *The Body in Culture Technology and Society* but in his work in general is the breadth and profoundness of his discussion about the body the style Shilling maintains is crucial for further development of the sociology of the body as a discipline for it provides us with a rich intellectual environment about the body Sociology For any colleague wanting to have a clear idea of how studies of the body can be empirically grounded as well as theoretically rich Chris Shilling s *The Body in Culture Technology and Society* is the book to read To my mind it offers the best account thus far of not only how social action is embodied and must be recognised as such but also of how social structures condition and shape embodied subjects in a variety of social arenas This is wonderful insightful stuff the ideas and intricate thoughts of a scholar such as Shilling who has been immersed in thinking about the complexities of the body in society as well as sociology for a number of years Sociology of Health and Illness This is a milestone in the sociology of the body The book offers the most comprehensive overview of the field to date and an innovative framework for the analysis of embodiment It is founded on a revised view of the relation of classical works to the body It argues that the body should be read as a multi dimensional medium for the constitution of society Upon this foundation the author constructs a series of analyses of the body and the economy culture sociality work sport music food and technology

Social Theory for Today Alex Law, 2014-12-01 This book is distinctive for extending the usual sociological reach reopening territory that has lain fallow set aside from the well ploughed fields of orthodox social theory In doing so Law not only produces fresh insight into familiar theorists but guards against collective forgetting of the sociological canon Professor Bridget Fowler University of Glasgow An excellent book it will be welcomed and read widely by advanced undergraduates postgraduates and scholars in sociology cultural studies social theory and beyond Professor Chris Shilling University of Kent *Social Theory for Today* guides students through the turns of past and present social theory as it attempts to wrestle with a recurring sense of crisis in social relations and social theory Drawing on both classical and contemporary sources Alex Law provides readers with a firm grasp of competing perspectives Too often social theories attempt to dominate the field by casting rival theorists past and present as deluded fools while the more familiar big names in social theory are subject to ever increasing commentary that runs in ever decreasing circles This survey of social theory and crisis lessens the temptation to engage in internal theoretical polemics and esoteric wordplay Social theory must become practical and specific if it is to become a means of orientation for uncertain times This is a must read for upper level undergraduate and postgraduate students

looking for a vibrant and extended understanding of social theory The Spiritual Turn Galen Watts, 2022 North Americans and Western Europeans increasingly identify as spiritual but not religious This book combines cultural sociology with intellectual history and political philosophy to examine this spiritual turn **Songs of the South African AIDS Crisis** Gavin Robert Walker, 2025-09-04 Using the concept of musical effervescence a collective state of synchronized and focused intersubjectivity through music Gavin Robert Walker reveals how and why songs have become such a ubiquitous and formidable force within the AIDS epidemic in Africa Drawn from a rich and powerful cultural history music has been used to inspire HIV AIDS activism and advocacy facilitate local psychosocial healing communicate life saving health information motivate communities towards healthy behaviors and promote acceptance of individuals living with HIV In this book Walker introduces musical effervescence a collective state of synchronized and focused intersubjectivity through music to reveal how and why songs have become such a ubiquitous and formidable force within the AIDS epidemic in South Africa He situates music at the core of human experience unpacking how collective singing embodies a shared sense of humanity This compelling analysis engages deeply with interpersonal musical encounters asking what makes these experiences both deeply personal and fundamentally social how can music be relevant to such a diverse range of outcomes and what can musical effervescence contribute to our understanding of the arts and social emotional or physical wellness Challenging conventional assumptions about the universality of music Walker explores the relational bonds it cultivates through movement perception experience and perspective to reveal music's role in shaping the South African AIDS crisis **Criminological Approaches to International Criminal Law** Ilias Bantekas, Emmanouela Mylonaki, 2014-11-06 This volume is one of the few books to explain in depth the international crimes behind the scenes of substantive or procedural law The contributors place a particular focus on what motivates participation in international crime how perpetrators witnesses and victims see their predicament and how international crimes should be investigated at local and international level with an emphasis on context The book engages these questions with a broad interdisciplinary approach that is accessible to both lawyers and non lawyers alike It discusses international crime through the lens of anthropology neuroscience psychology state crime theory and information systems theory and draws upon relevant investigative experience from experts in international and domestic law prosecutions Technologies of Religion Sam Han, 2016-02-05 Bringing together empirical cultural and media studies of religion and critical social theory Technologies of Religion Spheres of the sacred in a post secular modernity investigates powerful entanglement of religion and new media technologies taking place today taking stock of the repercussions of digital technology and culture on various aspects of religious life and contemporary culture more broadly Making the argument that religion and new media technologies come together to create spheres environments produced by an architecture of digital technologies of all sorts from projection screens to social networking sites the book suggests that prior social scientific conceptions of religious worship participation community and membership are being recast Using the case of the strain of

American Christianity called multi site an emergent and growing church model that has begun to win favor largely among Protestants in the last decade the book details and examines the way in which this new mode of religiosity bridges the realms of the technological and the physical Lastly the book situates and contextualizes these developments within the larger theoretical concerns regarding the place of religion in contemporary capitalism Technologies of Religion Spheres of the sacred in a post secular modernity offers an important contribution to the study of religion media technology and culture in a post secular world

Morality, Violence, and Ritual Circumcision Na'ama Carlin, 2022-11-30 This book uses the Jewish ritual of circumcision to consider how violent acts are embedded within entrenched moral discourses and offers a new perspective for thinking about violence Intervening in contemporary debates on the Jewish ritual of circumcision it departs from both the ordinary secular defences of circumcision for medical reasons and the criticisms that consider it an unethical violation of bodies that cannot consent An examination of the intersection of violence and morality this book rejects the binary logic on which popular debates on circumcision hinge arguing that in some instances violence can be a productive experience and can thus be considered beyond good and bad Engaging with the works of Jacques Derrida the author puts forward a framework of violence of ontology which is characterised as a violence that is related to existence the violence of being which resists definition through binary oppositions In so doing the author contends that circumcision is in fact a form of generative violence that is leveraged for cultural purposes and inherent in the making of bodies As such this volume offers a compelling framework that investigates the relationship between bodies identities ethics and violence and will therefore appeal to scholars of sociology social theory and religion with interests in the sociology of the body ritual and cultural studies

The Sociology of Religion Grace Davie, 2007-05-09 Grace Davie is one of the best analysts of religion in contemporary sociology This book caps a distinguished record of studies of religion first of Britain then of Europe then globally This is a magisterial work which should be read by anyone interested in the place of religion in the modern world Peter L Berger Boston University This book offers both an expert survey of contemporary sociology of religion and the personal reflections of one of the leading scholars in the field Grace Davie is a good model for students and their teachers she is clear engaging and fair minded but unafraid to express a point of view David Voas University of Manchester Grace Davie has written a book about what is currently happening in the sociology of religion which is clear accessible devoid of jargon and authoritative Though addressed to the educated reader it also provides an ideal text for students If you want expert guidance about what is going on in the sociology of religion and to have useful indications about what is going on in religion on the global scene this book does the job extremely well

Theology Why is religion still important Can we be fully modern and fully religious The Sociology of Religion works at two levels First it sets out the agenda covering the key questions in the sociology of religion today At the same time it interrogates this agenda asking if the sociology of religion as we currently know it is fit for purpose If not what is to be done This book describes the origins of the sociology of religion demystifies secularization as a process and a theory

relates religion to modern social theory unpacks the meaning of religion in relation to modernity and globalization grasps the methodological challenges in the field provides a comparative perspective for religions in the west introduces questions of minorities and margins sets out a critical agenda for debate and research In a single volume Grace Davie captures the nature and forms of modern religion the current debates in the field and the prospects for future development

Nineteenth-Century Philosophy of Religion Graham Oppy, N. N. Trakakis, 2014-09-19 The nineteenth century was a turbulent period in the history of the philosophical scrutiny of religion Major scholars such as Hegel Fichte Schelling Newman Caird and Royce sought to construct systematic responses to the Enlightenment critiques of religion carried out by Spinoza and Hume At the same time new critiques of religion were launched by philosophers such as Schopenhauer and Nietzsche and by scholars engaged in textual criticism such as Schleiermacher and Dilthey Over the course of the century the work of Marx Freud Darwin and Durkheim brought the revolutionary perspectives of political economy psychoanalysis evolutionary theory and anthropology to bear on both religion and its study These challenges played a major role in the shaping of twentieth century philosophical thought about religion Nineteenth Century Philosophy of Religion will be of interest to scholars and students of Philosophy and Religion and will serve as an authoritative guide for all who are interested in the debates that took place in this seminal period in the history of philosophical thinking about religion *Foundations and Futures in the Sociology of Religion* Luke Doggett, Alp Arat, 2017-12-14 Since the sociology of religion became recognised as a distinct sub discipline over the last century the dominance of approaches taking their inspiration from the sociological classics has increasingly been challenged Empirical findings have brought the notion of secularisation into question and theorists have sought to deconstruct how we think of religion This collection appraises the continuing influence of the foundational approaches and places these in relation to newly emerging directions in the field The book is divided into four sections each section containing one foundational chapter written by an established academic followed by two futures chapters contributed by emerging scholars in the sub discipline These chapters complement one another by placing the overview of future directions in the context of a survey of the development of the sociology of religion over the last century Topics discussed in these chapters include lived religion sexuality ritual religion and the media Combining erudite examinations of the British Sociological Association Sociology of Religion Study Group's work so far with explorations of the future directions its research might take this book is vital reading for any scholar whose work combines religious studies and sociology
