## **Sociology An Interactive Approach:**

**Sociology** Nik Jorgensen, 1997 A sociology textbook for the 1997 AEB A Level syllabus this text offers complete coverage of all AS and A Level topic areas for examination by the AEB board in 1998 including chapters on culture and identity and world sociology It features a carefully constructed introduction aimed at encouraging students to questions the hows and whys of studying sociology and aims to generate an appreciation of the subject's engagement with the wider social and political issues of today While each chapter comprehensively covers one topic at a time the themes of age class gender and ethnicity are not compartmentalized but interwoven within the chapters In this way students are made aware of the more complex interaction that exists between different areas of study The text includes such features as practical exercises research activities discussion ideas project suggestions and structured examination questions **Sociology** MaryKris McIlwaine, Kimberly Alexander, Nili Kirschner, Janine Schipper, 2012 A Beginner's Guide to Social Theory Shaun Best, 2003-02-24 Offering a comprehensive overview of social theory from classical sociology to the present day this text guides students through the work of Durkheim Marx and Weber feminism postmodernism and contemporary thinkers like Foucault **Introduction to Politics and Society** Shaun Best, 2002-02-15 Introduction to Politics and Society draws on examples from popular political culture in order to convey how politics operates in the contemporary world Examples illustrate the meaning of theories and show the relevance of central theoretical debates Planned and developed with an eye to the needs of students the book is an extraordinary resource for undergraduate teaching and study needs It will be required reading for undergraduate students in sociology politics and social policy Beyond Sociology's Tower of Babel Bernard S. Phillips, 2001 To look outside the discipline of sociology is to find little credibility given to the field as science Bernard Phillips argues that we are learning to see ever more clearly the contradiction between scientific standards and what in fact has been achieved by sociology Instead of knowledge based on the full range of our findings we have separate pieces of knowledge located within the diverse areas of the discipline and fads and fashions in the ideas and terms we use with relatively little cumulative development This has led many to question whether any scientific method can be applied to human behavior If the arguments and alternative interpretations in this book on the problematic nature of sociology's use of scientific method prove to be credible and fruitful then the implications are profound For example the conclusions drawn for every single social science study that has ever been conducted would be open to reinterpretation because they fail to take into account systematically the enormous complexity involved within any given instance of human behavior Our present approach assumes implicitly that the pieces of the human jigsaw puzzle can at some point be put together so as to yield a coherent picture Yet as Phillips shows if each piece is itself deficient then no coherent picture emerges when we attempt to put the pieces together Refusing to take the current fragmentation of sociology as inevitable Phillips offers a clear vision through a series of heuristic web images of how sociologists might achieve the cumulative development and credibility that are the

hallmarks of any science His research draws heavily on the works of classical and contemporary theorists philosophers and historians of science as well as on postmodernist critiques and responses to postmodernism This reconstruction will be useful for courses in method in the study of the classical tradition of sociology Bernard Phillips was introduced to sociology at Columbia University by C Wright Mills A former professor of sociology at Boston University cofounder of the ASA Section on Sociological Practice and founder of the Sociological Imagination Group his publications emphasize methodology and theory

(Un)Believing in Modern Society Jörg Stolz, Judith Könnemann, Mallory Schnewly Purdie, Thomas Englberger, Michael Krüggeler, 2016-06-23 This landmark study in the sociology of religion sheds new light on the question of what has happened to religion and spirituality since the 1960s in modern societies Exposing several analytical weaknesses of today's sociology of religion Un Believing in Modern Society presents a new theory of religious secular competition and a new typology of ways of being religious secular The authors draw on a specific European society Switzerland as their test case using both quantitative and qualitative methodologies to show how the theory can be applied Identifying four ways of being religious secular in a modern society institutional alternative distanced and secular they show how and why these forms have emerged as a result of religious secular competition and describe in what ways all four forms are adapted to the current individualized society

**Contemporary Perspectives on Social Capital in Educational Contexts** RoSusan D. Bartee, Phillis George, 2019-05-01 The currency of social capital serves as an important function given the capacity to generate external access getting to and internal accountability getting through for individuals and institutions alike Pierre Bourdieu 1986 defines social capital as the aggregate of the actual or potential resources which are linked to possession of a durable network of more or less institutionalized relationships of mutual acquaintance and recognition or in other words to membership in a group p 251 Social capital contains embedded resources as a tool for manifesting opportunities and options among individuals and groups Inevitably the aforementioned opportunities and options become reflective of the depth and breadth of access and accountability experienced by the individual and institution As educational stakeholders we must consistently challenge ourselves with the question How do K 12 schools and colleges and universities accomplish shared egalitarian goals of achieving access and accountability Such goals become fundamental toward ensuring students matriculating through K 12 and higher education irrespective of background are provided the caliber of education and schooling experience to prepare them for economic mobility and social stability To that end the volume Contemporary Perspectives on Social Capital in Educational Contexts 2019 as part of the book series Contemporary Perspectives on Capital

in Educational Contexts offers a unique opportunity to explore social capital as a currency conduit for creating external access and internal accountability for K 12 and higher education The commonalities of social capital emerging within the 12 chapters of the volume include the following 1 Social Capital as Human Connectedness 2 Social Capital as Strategic Advocacy 3 Social Capital as Intentional Engagement and 4 Social Capital as Culturally Responsive Leadership Thus it becomes important for institutions of education i e secondary postsecondary continuing and individuals to assume efforts with intentionality and deliberateness to promote access and accountability

**Interactive Approaches to Water Governance in Asia** Kenji Otsuka,2019-01-12 This book applies interactive perspectives which have historically mainly been discussed in the context of Western European countries to case studies on water governance in Asia It examines how these perspectives can be used to reveal complex and dynamic interactions in water governance in Asia and how interactions between policies and practices as well as those between formal institutes and emerging informal institutes come to pass In two introductory chapters and seven case studies in Asia two from China and each one from Japan Thailand the Philippines Indonesia and India the book reveals the interactive forms currently emerging in Asia under hierarchical but often fragmented administrative systems In addition it explores emerging hybrid forms of interactive governance which bring together governmental and non governmental actors and discusses how the expected role of government and roles of non governmental actors could be changed to solve problems in a more cooperative manner In this context researchers from outside the locality could play an important role helping facilitate such forms of interactive governance The book offers extensive information on the essential features of interactive forms and on the role of such transdisciplinary approaches making it a valuable resource not only for scholars and university students but also for policymakers and grass roots practitioners directly involved in the interactive process of water governance
