The Darkness of God Theology After Hiroshima Jim Garrison, 1982

Human Survival and Consciousness Evolution

Stanislav Grof, Marjorie Livingston Valier, 1988-01-01 In addition to the apocalyptic prospect of global nuclear destruction there are other dismal scenarios involving resource and environmental issues that are less imminent but still serious in the long term Past analyses seeking remedies have focused on symptoms rather than causes They represent extensions and expressions of the same philosophies and strategies that created these situations This book brings a fresh and optimistic perspective to the problem area It explores modern consciousness research and transpersonal psychology for practices that accelerate the development of consciousness It covers a wide range from laboratory techniques of experimental psychiatry transpersonal psychotherapies and Jungian psychology to the Oriental and Western mystical traditions The Darkness of

God James Garrison, **The Crucifixion of the Warrior God** Gregory A. Boyd, 2017-04-17 The Crucifixion of the Warrior God in an epic constructive investigation takes up the set of dramatic tensions between depictions of divinely sanctioned violence in Scripture and the message and life of peace of Jesus centering the New Testament Over two volumes author Gregory A Boyd argues that we must take seriously the full range of Scripture as inspired and the centrality of the crucified and risen Christ as the supreme revelation of God The Inner World of Trauma Donald Kalsched, 2014-02-25 Donald

Kalsched explores the interior world of dream and fantasy images encountered in therapy with people who have suffered unbearable life experiences He shows how in an ironical twist of psychical life the very images which are generated to defend the self can become malevolent and destructive resulting in further trauma for the person Why and how this happens are the questions the book sets out to answer Drawing on detailed clinical material the author gives special attention to the problems of addiction and psychosomatic disorder as well as the broad topic of dissociation and its treatment By focusing on the archaic and primitive defenses of the self he connects Jungian theory and practice with contemporary object relations theory and dissociation theory At the same time he shows how a Jungian understanding of the universal images of myth and folklore can illuminate treatment of the traumatised patient Trauma is about the rupture of those developmental transitions that make life worth living Donald Kalsched sees this as a spiritual problem as well as a psychological one and in The Inner World of Trauma he provides a compelling insight into how an inner self care system tries to save the personal spirit **Seditious**

Theology Mark Johnson, 2016-04-01 Seditious Theology explores the much analysed British punk movement of the 1970s from a theological perspective Imaginatively engaging with subjects such as subversion deconstruction confrontation and sedition this book highlights the stark contrasts between the punk genre and the ministry of Jesus while revealing surprising similarities and in so doing demonstrates how we may look at both subjects in fresh and unusual ways Johnson looks at both punk and Jesus and their challenges to symbols gestures of revolt constructive use of conflict and the shattering of relational norms He then points to the seditious pattern in Jesus life and the way it can be discerned in some recent trends in theology

The imaginative images that he creates provide a challenging image of Jesus and of those who have relooked radically in recent years at what being a seditious follower of Christ means for the church. Introducing both a new partner for theological conversation and a fresh way of how to go about the task, this book presents a powerful approach to exploring the life of Christ and a new way of engaging with both recent theological trends and the more challenging expressions of popular culture.

God and Religion in the Postmodern World David Ray Griffin, 1989-01-01. Addressed to readers who have found liberal theology empty or who believe that one cannot be religious and fully rational and empirical at the same time.

Satan in America W. Scott Poole, 2009-11-16. Satan in America tells the story of America's complicated relationship with the devil. New light evangelists of the eighteenth century enslaved African Americans; demagogic politicians and modern American film makers have used the devil to damn their enemies, explain the nature of evil and injustice, mount social crusades, construct a national identity and express anxiety about matters as diverse as the threat of war to the dangers of deviant sexuality. The idea of the monstrous and the bizarre, providing cultural metaphors that interact with historical change, is not new. Poole takes a new tack by examining this idea in conjunction with the concerns of American religious history. The book shows that both the range and the scope of American religiousness made theological evil an especially potent symbol. Satan appears repeatedly on the political, religious and cultural landscape of the United States, a shadow self to the sunny image of American progress and idealism.

The Living Church, 1983

Broken Hallelujah Darren J. N. Middleton, 2007-01-01. Marking the fiftieth anniversary of Kazantzakis's death, author Darren J. N. Middleton looks back on Kazantzakis's life and literary art to suggest that, contrary to popular belief, Kazantzakis and his views actually comport with the ideals of Christianity.
