The Dawning Points Of God:

The Dawning Points of God George W. Adams,1987 The Logic of the Apocalypse Stephen Beebe,2013-11 Is there logic in the Book of the Apocalypse The Apocalypse is perhaps the most controversial book of the entire Bible and its meaning is debated by clerics and academics As conflicts and crises deepen around the world Christians ponder its relevance for the twenty first century Is there any way to understand it rationally The Logic of the Apocalypse presents a novel approach that will satisfy your curiosity and will lead you to new conclusions about its message *Quddús: The First in Rank* Boris Handal,2024-09-01 The book presents the fascinating real life story of Qudd s the son of a poor Persian rice farmer who rose to become the most illustrious disciple of the B b Thoroughly researched and broad in scope it is a story of the rugged journey filled with pathos and exhilarating triumph at every turn during the five short eventful years he spent in absolute servitude to the B b We experience the vivid details of a life which left no room for settling down as he valiantly approached the centre of an intense ever increasing maelstrom at the very inception and birth of a new world religion fraught with opposition and intrigue yet filled with spiritual confirmations culminating in an unprecedented climax This work also features new translations of select Tablets by Bah u ll h and the B b as well as previously unpublished writings of Qudd s The book spans 605 pages and includes 87 illustrations **The Five Points of Calvinism** Edwin H. Palmer,2010-04 Using the well known TULIP acronym this primer on the five points of Calvinism is perfect for students and laypeople alike

Spiritual Turning Points of North American History Luigi Morelli,2010-10 This introduction to modern Indian thought establishes the historical context in which Indian thinkers of the past century developed their ideas showing how those ideas comprise a coherent vision that is both Indian and contemporary The Spirit of Modern India offers a full treatment of these ideas in an intelligible and concise approach and format Despite a growing interest in Indian thought and life the best writings of major twentieth century thinkers have not been well presented within their cultural framework This is the first single volume to offer such a wide representation of India s experience and scholarship through traditional and contemporary strains as articulated by her greatest modern thinkers The period designated modern refers to the remarkable century between the mid 1800s and the mid 1900s The Spirit of Modern India includes writings by Sri Ramakrishna Vivekananda Tagore Gandhi Nehru Radhakrisnan and Sri Aurobindo These writings are arranged according to each era of Indian thought and culture philosophy religion ethics education esthetics and national vision Each is introduced to illuminate the material and put the selections into their historical and cultural context A chronology lists important dates and works of major authors and dates related to Indian and Western intellectual history A glossary of important names and terms makes the more technical selections readily accessible The bibliography will guide the reader to further reading The Spirit of Modern India provides a valuable service to those who wish to better understand India and its modern roots The Dwelling Places of God C. F. Smith,2018-06-26 In this book C F Smith asks the question Where does God live As the subtitle indicates the author has

carefully surveyed the scriptures to identify and examine the places God has chosen to dwell live or reside on the earth throughout history He first takes the reader on an imaginary biblical journey as an eyewitness to Gods dwelling places And then he carefully documents what the Bible says about those dwelling places From Genesis to Revelation the book is an examination of Gods residences from creation to the new heavens and the new earth The author states in his introduction It is with robust intentionality that I present my case with the Bible says **Solving the World's Titanic Struggles Vol 1** Rodney Richards,2018-06-30 We re beset by problems difficulties and obstacles throughout the world created by man Millions suffer millions cry for relief Some are human made some natural They strike in a moment with catastrophic devastation or are subtle and build up The ones caused by men and women of all kinds however stem from immaturity greed hunger for power or authority egotism criminal intent lack of empathy even soullessness So it seems when we lose all jobs livelihood investments friends family to circumstances unfair and unwise selfish or unkind Nations invade other nations despots jail and torture their own citizens there seems we ll never fix this planet But there are good people the vast majority of us who only want freedom to speak love work and build a secure society for all To cooperate and share and to eliminate threats like nuclear weapons holding death over all our heads But 100 essays herein give hope and paths to genuine cooperation and peace practical solutions love for all colors races creeds and religions The Bahá'í World ,1928 **At the Dawn of a New Consciousness** Bernard Nesfield-Cookson,2010 The Italian Renaissance is considered by many to mark the beginning of the modern age The name itself literally rebirth accurately expresses the innovation that took place during that period Renaissance thinkers took a vital interest in history literature and the arts focusing on the human world as much as if not more than that of God The rapid development of the arts and sciences reflected their study of the visible physical world in all its three dimensional glory The source of these new impulses says the author can be found in what Rudolf Steiner calls the birth of the consciousness soul the faculty for objective self awareness Instead of a primarily inward looking consciousness people began looking outward with greater intensity observing the world around them in detail With greater conscious of their separate being people of the Renaissance began to study the phenomena of the world of nature from an individual personal perspective In this enlightening book illustrated with sixteen pages of color plates the author illuminates the concept of the consciousness soul showing how it is reflected in fifteenth century Florentine painting sculpture and architecture as well as in the impulses issuing from Plato s Academy of Athens **The Dawn** ,1861
