The Days Of Mars A Memoir 1940 1946:

The Days of Mars Bryher,1971 *H.D. (Hilda Doolittle)* Lara Vetter,2023-06-24 A concise biography of the modernist poet and avant garde woman H D Hilda Doolittle 1886 1961 best known for her imagist poetry was one of the first writers of free verse in English For over forty years H D wrote poetry about forgotten ancient goddesses and autobiographical prose about her own traumas and desires Dubbed the perfect bi by Sigmund Freud she was also a scholar of religion mythology and history a translator of ancient Greek and an avant garde filmmaker This new biography explores the fascinating life and work of this important but often overlooked modernist figure **Winter Love** Jacob Korg,2003 Ezra Pound and Hilda Doolittle who used the pseudonym H D are among the most important American modernist poets In this comparative study Jacob Korg examines their intertwined lives from an early romantic relationship when both writers were in their early twenties through the ongoing friendship and artistic dialogue that helped shape their work Drawing on unpublished letters and manuscripts as well as published works Korg offers a fresh view of two American artists and a wholly unexpected portrait of Pound examined here for the first time through the context of a female modernist **How to Live/what to Do** Adalaide Kirby Morris,2003 Adalaide Morris removes the work of the iconic writer H D from the various compartments into which it has traditionally been placed and examines what she terms the ongoingness of her writing showing her to be a playful linguistic innovator whose writings are relevant to many fields of human activity *The Text is Myself* Miriam Fuchs,2004 German Jewish novelist Grete Weil fled to Holland but her husband was arrested there and murdered by the Nazis Chilean novelist Isabel Allende fled her country after her uncle Salvador Allende was assassinated and she later lost her daughter to disease

Thinking of the Medieval Benjamin A. Saltzman,R. D. Perry,2022-10-13 The mid twentieth century gave rise to a rich array of new approaches to the study of the Middle Ages by both professional medievalists and those more well known from other pursuits many of whom continue to exert their influence over politics art and history today Attending to the work of a diverse and transnational group of intellectuals Hannah Arendt Erich Auerbach W E B Du Bois Frantz Fanon Erwin Panofsky Simone Weil among others the essays in this volume shed light on these thinkers in relation to one another and on the persistence of their legacies in our own time This interdisciplinary collection gives us a fuller and clearer sense of how these figures made some of their most enduring contributions with medieval culture in mind Thinking of the Medieval is a timely reminder of just how vital the Middle Ages have been in shaping modern thought **Reluctant Modernists** Peter Edgerly Firchow,2002 The essays collected here deal with modernist writers who on the whole felt reluctant about their modernist status because they believed that it was just as important to look backward as it was to look forward Indeed for most of them looking backward was more important because it was only through the past that one could understand one s proper place in the present and in the future That is why in Huxley s *Brave New World* it is the rejection of the past in the future and by implication in the present that makes its satire so penetrating Modernism in other words means for these writers not a

radical break with the past but a continuing search for what still connects them and us vitally with it Peter Firchow Professor of English at the University of Minnesota is the author of several books on modern and modernist literary subjects including books on Huxley Conrad and Auden The publication of some of his hitherto uncollected essays in this volume is intended to honor

Childhood and Cinema Vicky Lebeau, 2008-05-15 From *Lolita* to *The Sixth Sense* the figure of the child in cinematic works has been a contested site of symbolism and controversy *Childhood and Cinema* examines how the child in film has ultimately been used to embody the anxieties and aspirations of modern life Vicky Lebeau investigates how films use children to probe such themes as sexuality death imagination the terrors of childhood and hope The book ranges over the whole history of Western cinema from the Lumi re brothers 1895 *Feeding the Baby* to Walt Disney s animation classics to Truffaut s *L'enfant sauvage* and recent works such as *Capturing the Friedmans* and *Kids* The figure of the child in film Lebeau argues is fundamentally ambivalent always hovering on the edge between hope and despair vulnerability and violence or pleasure and trauma and it ultimately offers a unique way of thinking about the significance of cinema itself By turns engaging thought provoking and informative *Childhood and the Cinema* challenges us to reconsider the child figure as a conduit for critical reflection on what it means to be human
