The Decline Of The Sacred In Industrial Society:

The Decline of the Sacred in Industrial Society Sabino S. Acquaviva, 1979 **Varieties of Secularism in a Secular Age** Michael Warner, Jonathan VanAntwerpen, Craig J. Calhoun, 2010-03-15 What does it mean to say that we live in a secular age This apparently simple question opens into the massive provocative and complex A Secular Age where Charles Taylor positions secularism as a defining feature of the modern world not the mere absence of religion and casts light on the experience of transcendence that scientific explanations of the world tend to neglect In Varieties of Secularism in a Secular Age a prominent and varied group of scholars chart the conversations in which A Secular Age intervenes and address wider questions of secularism and secularity The distinguished contributors include Robert Bellah Jos Casanova Nil fer G le William E Connolly Wendy Brown Simon During Colin Jager Jon Butler Jonathan Sheehan Akeel Bilgrami John Milbank and Saba Mahmood Varieties of Secularism in a Secular Age succeeds in conveying to readers the complexity of secularism while serving as an invaluable guide to a landmark book The Decline of Christendom in Western Europe, 1750-2000 Hugh McLeod, Werner Ustorf, 2003-07-17 Christendom lasted for over a thousand years in Western Europe and we are still living in its shadow For over two centuries this social and religious order has been in decline Enforced religious unity has given way to increasing pluralism and since 1960 this process has spectacularly accelerated In this 2003 book historians sociologists and theologians from six countries answer two central questions what is the religious condition of Western Europe at the start of the twenty first century and how and why did Christendom decline Beginning by overviewing the more recent situation the authors then go back into the past tracing the course of events in England Ireland France Germany and the Netherlands and showing how the fate of Christendom is reflected in changing attitudes to death and to technology and in the evolution of religious language They reveal a pattern more complex and ambiguous than many of the conventional narratives will admit Morphogenesis and the Crisis of Normativity Margaret S. Archer, 2016-05-24 This volume explores the development and consequences of morphogenesis on normative regulation It starts out by describing the great normative transformations from morphostasis as the precondition of a harmonious relationship between legal validity and normative consensus in society to morphogenesis which tends to strongly undermine existing laws norms rules rights and obligations because of the new variety it introduces Next it studies the decline of normative consensus resulting from the changes in the social contexts that made previous forms of normativity based upon habits habitus and routine action unhelpfully misleading because they no longer constituted relevant guidelines to action It shows how this led to the Reflexive Imperative with subjects having to work out their own purposeful actions in relation to their objective social circumstances and their personal concerns if they were to be active rather than passive agents Finally the book analyses what makes for chance in normativity and what will underwrite future social regulation It discusses whether it is possible to establish a new corpus of laws norms and rules given that intense morphogenesis denies the durability of any new stable context **A Church Drawing Near**

Paul Avis,2004-01-01 The book begins by defining the core tasks or mission of the Church in biblical and theological terms and then asks how these tasks can best be carried out in the conditions of modernity and post modernity Paul Avis describes and evaluates contemporary expressions of spirituality drawing on many empirical studies the functions of the Church s occasional offices or rites of passage the ways in which the Church and its ministers can engage constructively with the community and with civil society the pastoral method in mission and its practical policy consequences Throughout the book Avis urges the imperative for the Church and its ministers to break out from the privatization of Christian values into full participation in contemporary social issues and public life This book is an authoritative and interdisciplinary study of theology and practice a much needed applied theology of mission and ministry for today New Approaches to the Study of Religion Peter Antes,Armin W. Geertz,Randi Ruth Warne,2004 **Mission Implausible** Duncan MacLaren,2012-07-18 It is commonly agreed that the churches of Europe are in crisis but why How can we explain their dramatic decline over the past four decades In particular why do contemporary people struggle to believe And how might the churches address this crisis of credibility Are there already signs of hope And what can tenacious forms of religion teach the churches as they go about their task of mission Mission Implausible tackles these questions using the tools of sociological analysis It argues that much of the blame for church decline is misplaced and that a broader explanation is required which sets the current crisis within a historical and sociological perspective Written for church leaders theologians students of theology and sociology and all those concerned with Christian mission Mission Implausible explores a range of strategies aimed at rebuilding a social climate favorable to Christian belief **A Secular Age Beyond the West** Mirjam Künkler,John Madeley,Shylashri Shankar,2018-07-05 This book compares secularity in societies not shaped by Western Christianity particularly in Asia the Middle East and North Africa **A Need for Religion: Insecurity and Religiosity in the Contemporary World** Francesco Molteni,2020-12-07 In A Need for Religion Insecurity and Religiosity in the Contemporary World Francesco Molteni tries to answer one of the broadest questions for scholars of religion why is religiosity declining in developed countries He does so by inspecting all the different nuances of the insecurity theory which links the feeling of security typical of modern societies with the diminished need for religion as source of reassurance support and predictability In this respect he notes that much of the evidence is far less clear than expected and that secularization processes are at an advanced stage only in a rather small group of worldwide countries The Evangelical Counter-Enlightenment William R. Everdell,2021-05-21 This contribution to the global history of ideas uses biographical profiles of 18th century contemporaries to find what Salafist and Sufi Islam Evangelical Protestant and Jansenist Catholic Christianity and Hasidic Judaism have in common Such figures include Mu ammad Ibn abd al Wa hab Count Nikolaus Zinzendorf Jonathan Edwards John Wesley Jean Jacques Rousseau and Israel Ba al Shem Tov The book is a unique and comprehensive study of the conflicted relationship between the evangelical movements in all three Abrahamic religions and the ideas of the Enlightenment and Counter

Enlightenment Centered on the 18th century the book reaches back to the third century for precedents and context and forward to the 21st for the legacy of these movements This text appeals to students and researchers in many fields including Philosophy and Religion their histories and World History while also appealing to the interested lay reader
