Geoffrey Jukes

The Defense Of Moscow:

Battle For Moscow Albert Seaton, 1993-10-21 A German capture of Moscow in 1941 would have knocked Russia out of the war a riveting narrative of this crucial battle by a British officer with a deep knowledge of the East European sources

The Battle of Moscow 1941-1942 Soviet General Staff, 2015-06-19 The Battle of Moscow 1941-1942 The Red Army's Defensive Operations and Counteroffensive Along the Moscow Strategic Direction is a detailed examination of one of the major turning points of World War II as seen from the Soviet side The Battle of Moscow marked the climax of Hitler's Operation Barbarossa which sought to destroy the Soviet Union in a single campaign and ensure German hegemony in Europe The failure to do so condemned Germany to a prolonged war it could not win This work originally appeared in 1943 under the title Razgrom Nemetskikh Voisk pod Moskvoy The Rout of the German Forces Around Moscow The work was produced by the Red Army General Staff's military historical section which was charged with collecting and analyzing the war's experience and disseminating it to the army's higher echelons This was a collective effort featuring many different contributors with Marshal Boris Mikhailovich Shaposhnikov former chief of the Red Army General Staff and then head of the General Staff Academy serving as general editor The book is divided into three parts each dealing with a specific phase of the battle The first traces the Western Front's defensive operations along the Moscow direction during Army Group Center's final push toward the capital in November-December 1941 The study pays particular attention to the Red Army's resistance to the Germans' attempts to outflank Moscow from the north Equally important were the defensive operations to the south of Moscow where the Germans sought to push forward their other encircling flank The second part deals with the first phase of the Red Army's counteroffensive which was aimed at pushing back the German pincers and removing the immediate threat to Moscow Here the Soviets were able to throw the Germans back and flatten both salients particularly in the south where they were able to make deep inroads into the enemy front to the west and northwest The final section examines the further development of the counteroffensive until the end of January 1942 This section highlights the Soviet advance all along the front and their determined but unsuccessful attempts to cut off the Germans Rzhev Vyazma salient It is from this point that the front essentially stabilized after which events shifted to the south This new translation into English makes available to a wider readership this valuable study

Defense of Moscow 1941 Jack Radey, Charles Sharp, 2014-01-01 A must read by historian and layman alike Col David M Glantz author of Kursk An important book that will surely become the definitive account John Prados author of Normandy Crucible Nazi Germany's best chance of winning World War II on the Eastern Front came in October 1941 Most of the Red Army's forces around Moscow had been smashed or encircled and no reserves were available for the capital's defense All that stood in Germany's way was a handful of Soviet rifle divisions tank brigades and militia When their attack ground to a halt the Germans blamed the mud but close examination reveals that it was the scraped together and poorly coordinated resistance of the Red Army that stopped the Germans Radey and Sharp tell the dramatic

story in this study of a pivotal battle in the struggle for supremacy in the East Compelling study of how the Soviets inflicted a stunning defeat on the Germans during the early years of World War II Relies on archival records from both sides to shatter old myths about this battle The Defence of Moscow Geoffrey Jukes,1970 In this precise and cold account of the defense of Moscow and English historian has combined his own accomplished talents with those of Marshal Zhukov to produce something not to be found anywhere else This book must rank as the outstanding authority on one of the greatest and most terrible campaigns of this or any other century Back cover **The Defense of Moscow** ,1943 *The Battle for Moscow, 1941-1942* Albert Seaton,1971 *The Battle of Moscow 1941-1942* Richard Harrison,Soviet Staff,2025-11-30 The Battle of Moscow 1941 1942 The Red Army s Defensive Operations and Counteroffensive Along the Moscow Strategic Direction is a detailed examination of one of the major turning points of World War II as seen from the Soviet side The Battle of Moscow marked the climax of Hitler s Operation Barbarossa which sought to destroy the Soviet Union in a single campaign and ensure German hegemony in Europe The failure to do so condemned Germany to a prolonged war it could not win This work originally appeared in 1943 under the title Razgrom Nemetskikh Voisk pod Moskvoy The Rout of the German Forces Around Moscow The work was produced by the Red Army General Staff s military historical section which was charged with collecting and analyzing the war s experience and disseminating it to the army s higher echelons This was a collective effort featuring many different contributors with Marshal Boris Mikhailovich Shaposhnikov former chief of the Red Army General Staff and then head of the General Staff Academy serving as general editor The book is divided into three parts each dealing with a specific phase of the battle The first traces the Western Front s defensive operations along the Moscow direction during Army Group Center s final push toward the capital in November December 1941 The study pays particular attention to the Red Army s resistance to the Germans attempts to outflank Moscow from the north Equally important were the defensive operations to the south of Moscow where the Germans sought to push forward their other encircling flank The second part deals with the first phase of the Red Army s counteroffensive which was aimed at pushing back the German pincers and removing the immediate threat to Moscow Here the Soviets were able to throw the Germans back and flatten both salients particularly in the south where they were able to make deep inroads into the enemy front to the west and northwest The final section examines the further development of the counteroffensive until the end of January 1942 This section highlights the Soviet advance all along the front and their determined but unsuccessful attempts to cut off the Germans Rzhev Vyaz ma salient It is from this point that the front essentially stabilized after which events shifted to the south This new translation into English makes available to a wider readership this valuable study *The Battle for Moscow* David Stahel,2015-01-22 A major new account of Germany s drive on Moscow in November 1941 one of the key battles of World War II **The Defense of Moscow** Jack Radey,Charles C. Sharp,Charles Sharp,2012 There was only one point in the Second World War when Nazi Germany had a chance of winning October 1941 But the resistance of the Red Army and bad

arrogant planning halted the Wehrmacht Using archival records from both sides this book reveals how the Soviets inflicted defeat on a German plan to encircle six Soviet armies The Greatest Battle Andrew Nagorski, 2008 A new and beautifully researched account of what had been a poorly understood part of the war New York Review of Books A fine diplomatic and military history but its real triumph is in the voices of the survivors of the Battle of Moscow Washington Post The Battle for Moscow which took place from September 1941 to April 1942 was the biggest battle of World War II indeed the biggest battle of all time Seven million troops were involved The combined losses of both sides amounted to 2.5 million men 2 million on the Russian side Even Stalingrad immortalised in Antony Beevor's classic work involved half as many troops and less than half as many losses But most of all this battle turned the course of the whole war Hitler had declared war on the Soviet Union and hoped for a swift victory Had Moscow fallen Hitler might have won the war but in the bitter winter the Soviet army held the Germans back But Stalin committed huge strategic blunders initially refusing to arm his troops after Hitler sent his troops east without winter clothing and his reign of terror caused mass looting in Moscow and the flight of half its citizens As a result the Soviets suppressed the full story of the battle and only now have the secret archives been declassified for Andrew Nagorski to tell the full story Anyone gripped and astounded by Stalingrad will find this an amazing account of privation and attrition on an unimaginable scale Andrew Nagorski is a senior editor at Newsweek International He served two tours as Moscow bureau chief and won awards for his foreign reporting He lives in New York
