The Development of the Mind Jeanne Lampl-de Groot,1966 **The Development of the Mind. Psychoanalytic Papers on Clinical and Theoretical Problems, Etc** Jeanne Lampl-de Groot,1965 **The Annual of Psychoanalysis, V. 32** Jerome A. Winer,James W. Anderson,2013-05-13 Psychoanalysis and Women Volume 32 of The Annual of Psychoanalysis is a stunning reprise on theoretical developmental and clinical issues that have engaged analysts from Freud on It begins with clinical contributions by Joyce McDougall and Lynne Layton two theorists at the forefront of clinical work with women Jessica Benjamin Julia Kristeva and Ethel Spector Person from their respective vantage points all engage the issue of passivity which Freud tended to equate with femininity Employing a self psychological framework Christine Kieffer returns to the Oedipus complex and sheds new light on the typically Pyrrhic oedipal victory of little girls Section III broadens the historical context of contemporary theorizing about women by offering the personal reminiscences of Nancy Chodorow Carol Gilligan Brenda Solomon and Malkah Notman A final section dedicated to women who shared psychoanalysis features historical essays on Ida Bauer Freud s Dora Anna Freud Dorothy Burlingham Edith Jacobson and Therese Benedek along with Linda Hopkins s revealing interview of Marion Milner Of special note is Marian Tolpin s examination of three women Bauer Helene Deutsch and Anna Freud who helped shape Freud s notion of the female castration complex and Elisabeth Young Bruehl s exploration of how two women Anna Freud and Dorothy Burlingham developed parent infant observation Psychoanalysis and Women is an extraordinary chronicle of the distance traveled since Freud characterized women s sexual life as the dark continent The contributors vitalize a half century of theory with the lessons of biography and they broaden clinical sensibilities by drawing on recent developmental gender related and socio psychological research In doing so they attest to the ongoing reconfiguration of Freud s dark continent and show the psychoanalytic psychology of women to be very much a revolution in progress **The Development of the Mind** ,1966 *The Development of the Mind* Jeanne Lampl-de Groot,1966

Freud: A Life for Our Time Peter Gay,1998-09-17 A national bestseller A magisterial contribution to the history of ideas A fresh illuminating perspective on one of the pivotal figures of our time J Anthony Lukas This remarkable biography briskly traces the story of Freud s life and education deftly weaving the familiar narrative with a style that makes it seem fresh and lively Chicago Tribune *The Biographical Dictionary of Women in Science* Marilyn Ogilvie,Joy Harvey,2003-12-16 Volume 2 of 2 **Individualizing Gender and Sexuality** Nancy Chodorow,2012 Nancy Chodorow in her groundbreaking book The Reproduction of Mothering quite simply changed the conversation in at least three areas of study psychoanalysis women s studies and sociology In her latest book Individualizing Gender and Sexuality she examines the complexity and uniqueness of each person s personal creation of sexuality and gender and the ways that these interrelate with other aspects of psychic and cultural life She brings her well known theoretical agility wide ranging interdisciplinarity and clinical experience to every chapter advocating for the clinician s openness curiosity and theoretical pluralism The book begins with reflections on Freud

s Three Essays on the Theory of Sexuality followed by considerations of Melanie Klein and Stephen Mitchell as well as on her own work and on the postmodern turn in psychoanalytic gender theory Subsequent chapters address contemporary clinical cultural issues such as women and work women and motherhood and men and violence Concluding chapters elaborate on the multiple ingredients and the personal affective conflictual and defensive constellations and processes that create sexuality and gender in each individual Ending with a chapter on homosexualities as compromise formations Chodorow deepens her account of clinical individuality and sex gender transference countertransference while bringing her readers back to Freud and to the many strands that followed as she consolidates a consistent line of interest in sexuality and gender theory and practice sustained over a lifetime The Letters of Sigmund Freud to Jeanne Lampl-de Groot, 1921-1939 Gertie

Bögels, 2022-08-24 Freud wrote 76 letters to the Dutch psychoanalyst Jeanne Lampl de Groot between 1921 and 1939 These letters are personable lively and compassionate and convey his respect and caring for Jeanne who was his patient pupil and eventually his esteemed professional colleague The letters are sociohistorical documents that contain Freud's thoughts about pertinent issues in psychoanalysis and the interwar sociopolitical situation in Vienna and Germany Jeanne Lampl de Groot was an internationally known psychoanalyst who published extensively on psychoanalytic theory and practice She regularly wrote long letters to Freud when residing outside of Vienna seeking his advice on personal and professional matters and discussing with him her evolving ideas about psychoanalysis including her disagreement with Freud about female sexual development It is unfortunate that Jeanne had her letters to Freud destroyed because it sometimes makes Freud's somewhat elliptical responses difficult to place in context For example it is quite probable that she wrote detailed descriptions of her husband's emotional issues which Freud then merely alluded to Because we don't know the specifics of what she wrote his responses remain ambiguous and therefore problematic to translate Nonetheless Freud's responses do reveal a great deal about Jeanne and her passion for psychoanalysis The book also includes several of her letters to her parents which allows the reader to get to know Jeanne's intelligent thoughtful voice her thoughts about the evolving science of psychoanalysis her experience during her psychoanalysis with Freud and her concerns about the rise of anti-Semitism in Austria and Germany This book introduces to its readers a very personable Freud and provides insight into his thoughts about the development of critical psychoanalytic concepts such as the death drive masochism lay analysis and his changing views on the length of a psychoanalysis We also hear about historical events in the 1920s and 1930s as we witness Freud and Lampl de Groot move through their personal and professional lives with dignity and perseverance *Femininities, Masculinities, Sexualities*

Nancy J. Chodorow, 2014-04-23 The author of *The Reproduction of Mothering* examines the problems with how psychoanalysis views sexuality and gender Nancy J Chodorow takes her fellow psychoanalysts to task for their monolithic and pathologizing accounts of deviant gender and sexuality Drawing from her own clinical experience the work of Freud and a close reading of psychoanalytic texts Chodorow argues that psychoanalysis has yet to disentangle male dominance from

heterosexuality Further she demonstrates the paucity of psychoanalytic understanding of heterosexuality and the problematic polarizing of normal and abnormal sexualities By returning to Freud and interpreting psychoanalysis through clinical eyes Chodorow contends that psychoanalysis must consider individual specificity and personal cultural and social factors Such a methodology entails a plurality of femininities and masculinities and enables us to understand a variety of sexualities Praise for Femininities Masculinities Sexualities Raises challenging questions but makes no easy answers Psychoanalytic Quarterly Chodorow s convincing analysis leads us to wonder whether it is any longer useful to think in terms of a normative boy and girl man and woman father and mother and heterosexual and homosexual Sally Moskowitz Chodorow helps us through the dense riches of Freud s writing signposting his scattered but significant moments of empathy with women s subjective experience even as she takes apart his objectified masculine images The Women s Review of Books A provocative reminder that these are complex issues and that humans with their capacity for individual variation are complicated subjects Kirkus Reviews
