The Development of the Spanish Textile Industry, 1750-1800 James Clayburn La Force, 1965 *The Waning of the Mediterranean, 1550-1870* Faruk Tabak, 2008-02-11 2008 Outstanding Academic Title Choice Magazine Conventional scholarship on the Mediterranean portrays the Inner Sea as a timeless entity with unchanging ecological and agrarian features But Faruk Tabak argues some of the traditional and olden characteristics that we attribute to it today are actually products of relatively recent developments Locating the shifting fortunes of Mediterranean city states and empires in patterns of long term economic and ecological change this study shows how the quintessential properties of the basin the trinity of cereals tree crops and small livestock were reestablished as the Mediterranean s importance in global commerce agriculture and politics waned Tabak narrates this history not from the vantage point of colossal empires but from that of the mercantile republics that played a pivotal role as empire building city states His unique juxtaposition of analyses of world economic developments that flowed from the decline of these city states and the ecological change associated with the Little Ice Age depicts large scale long term social change Integrating the story of the western and eastern Mediterranean from Genoa and the Habsburg empire to Venice and the Ottoman and Byzantine empires Tabak unveils the complex process of devolution and regeneration that brought about the eclipse of the Mediterranean **Spain, Europe, and the 'Spanish Miracle', 1700-1900** David R. Ringrose, 1998-11-26 A challenging re examination of Spanish history questioning orthodoxies about Spain s economy and society **The European Guilds** Sheilagh Ogilvie, 2021-06-15 Guilds ruled many crafts and trades from the Middle Ages to the Industrial Revolution and have always attracted debate and controversy They were sometimes viewed as efficient institutions that guaranteed quality and skills But they also excluded competitors manipulated markets and blocked innovations Did the benefits of guilds outweigh their costs Analyzing thousands of guilds that dominated European economies from 1000 to 1880 The European Guilds uses vivid examples and clear economic reasoning to answer that question Sheilagh Ogilvie s book features the voices of honorable guild masters underpaid journeymen exploited apprentices shady officials and outraged customers and follows the stories of the vile encroachers Women migrants Jews gypsies bastards and many others desperate to work but hunted down by the guilds as illicit competitors She investigates the benefits of guilds but also shines a light on their dark side Guilds sometimes provided important services but they also manipulated markets to profit their members They regulated quality but prevented poor consumers from buying goods cheaply They fostered work skills but denied apprenticeships to outsiders They transmitted useful techniques but blocked innovations that posed a threat Guilds existed widely not because they corrected market failures or served the common good but because they benefited two powerful groups guild members and political elites Rabat de la jaquette An Historical Geography of Europe, 1500-1840 Norman John Greville Pounds, 1979 This book seeks to examine the complex of natural and man made features that have influenced the course of history and have been influenced by it It spans the period from the

early sixteenth century to the eve of the Industrial Revolution in continental Europe approximately 1500 to 1840 *Empire of Cotton* Sven Beckert, 2015-11-10 WINNER OF THE BANCROFT PRIZE A Pulitzer Prize finalist that is as unsettling as it is enlightening a book that brilliantly weaves together the story of cotton with how the present global world came to exist Masterly An astonishing achievement The New York Times The empire of cotton was from the beginning a fulcrum of constant global struggle between slaves and planters merchants and statesmen workers and factory owners Sven Beckert makes clear how these forces ushered in the world of modern capitalism including the vast wealth and disturbing inequalities that are with us today In a remarkably brief period European entrepreneurs and powerful politicians recast the world's most significant manufacturing industry combining imperial expansion and slave labor with new machines and wage workers to make and remake global capitalism **Miners and Merchants in Bourbon Mexico 1763-1810** D. A. Brading, 1971-05-02 The aim of this study is to define that distinctive blend of enlightened despotism and entrepreneurial talent which created Bourbon Mexico The period 1763-1810 was a crucial and distinctive stage in the colonial history of Mexico Jose de Gálvez the dynamic minister of the Indies transformed the system of government and restructured the economy The ensuing golden age far from being the culmination of two hundred years of steady development sprang rather from a profound regeneration of the New World's Hispanic society The chief success of Gálvez's policy was the unprecedented mining boom which made Mexico the world's chief silver producer It was this silver boom which largely financed the revival of the political and economic power of the Spanish monarchy and in Mexico itself created a new aristocracy of merchant capitalists and silver millionaires **Maya and Spaniard in Yucatan, 1648-1812** Robert Patch, 1994-04-01 A study of the development of human society in Yucatan during the colonial period this book poses a challenge to a variety of accepted views including the notion that Yucatan was largely isolated from the main part of Spain's New World empire and thus from international markets and the world economy an isolation often cited as the principal reason for the extended survival of indigenous culture in the region In the seventeenth and eighteenth centuries Yucatan society was composed of both Maya and Spanish commonwealths each with its own economic social and political organization This book represents several new departures both for what is known about colonial Yucatan and for colonial Latin American history in general It forces the reader to rethink much of the received knowledge about acculturation the hacienda and inter regional relations *The development of the Spanish textile industry* JAMES C. LAFORCE, 1965 **Honor, Commerce, and Industry in Eighteenth-century Spain** Barry Lewis John Gordon, Herman Freudenberger, John G. Sperling, Raymond De Roover, William James Callahan, 1962
