Gildas's De Excidio Britonum and the Early British Church Dr. Karen George, 2009

A study of a contemporary witness to the transformation of post Roman Britain into Anglo Saxon England Gildas's De excidio Britonum is a rare surviving contemporary source for the period which saw the beginning of the transformation of post Roman Britain into Anglo Saxon England However although the De excidio has received much scholarly attention over the last forty years the value of the text as a primary source for this fascinating if obscure period of British history has been limited by our lack of knowledge concerning its historical and cultural context In this new study the author challenges the assumption that the British Church was isolated from its Continental counterpart by Germanic settlement in Britain and seeks to establish a theological context for the De excidio within the framework of doctrinal controversy in the early Continental Church The vexed question of the place of Pelagianism in the early British Church is re investigated and a case is put forward for a radical new interpretation of Gildas's own theological stance In addition this study presents a detailed investigation of the literary structure of the De excidio and Gildas's use of verbal patterns and argues that his use of the Bible as a literary model is at least as significant as his well documented use of the literary techniques of Classical Latin Dr KAREN GEORGE is currently a tutor at the Cambridge Institute of Continuing Education

The Origin Legends of Early Medieval Britain and Ireland Lindy Brady, 2022-08-04 The inhabitants of early medieval Britain and Ireland shared the knowledge that the region held four peoples and the awareness that they must have originally come from elsewhere The Origin Legends of Early Medieval Britain and Ireland studies these peoples origin stories an important genre that has shaped national identity and collective history from the early medieval period to the present day These multilingual texts share many common features that repay their study as a genre but have previously been isolated as four disparate traditions and used to argue for the long roots of current nationalisms Yet they were not written or read in isolation during the medieval period Individual narratives were in constant development written and rewritten to respond to other texts This book argues that insular origin legends developed together to flesh out the history of the insular region as a whole

Historic Figures of the Arthurian Era Frank D. Reno, 2015-07-11 The author has determined in an earlier McFarland book The Historic King Arthur 1996 paperback 2007 that there was not a historic King Arthur during the sixth century However as listed in The Historia Brittonum there was a great king of all the kings of Britain named Ambrosius Aurelianus who was conflated with a heroic Arthur of the second century and hence with the legendary King Arthur To further authenticate the Celtic Romano King Arthur that is Ambrosius the author here examines seven major historical figures of the period A D 383 500 based upon the Genealogical Preface of The Anglo Saxon Chronicle and the emendation of dates in that chronicle Those seven allies and adversaries are Vortigern Vortimer Vitalinus Cunedda Cerdic Octha and Mordred Through an extensive analysis of Arthur's 12 battles listed in the

Historia Brittonum this work explores both the influences of the High King's allies and the shifting allegiances of his enemies. A battle list provides possible geographic locations for each of the battles including a new site for Arthur's fateful battle at Camlann. Age of Tyrants Christopher A. Snyder, 2010-11-01 By the waning of Roman rule Britain was called a province fertile with tyrants. Christopher Snyder's history of Britain during the two centuries after Rome's withdrawal reveals a hybrid society of Celtic Roman and Christian elements and documents the transition from magisterial to monarchical power. An appendix explores the Arthur and Merlin myths. 30 illustrations. Armies and Politics in the Early Medieval West Bernard S. Bachrach, 2024-10-28 In these articles Professor Bachrach starts by looking at aspects of the barbarian occupation of the land of the Roman Empire from Britain to the Alan settlements in southern Gaul. His particular interest however is in the political and above all in the military structures that grew out of the Early Middle Ages. He has sought to demonstrate that there was a fundamental continuity in military organisation and tactics from the Merovingian through the Carolingian period. As he shows there is no reason to connect the origins of feudalism with Charles Martel's wish to create a force of cavalry and it is a fallacy that he grasped the potential of the stirrup for enabling mounted shock combat. On the contrary its use in the West progressed only slowly and it had nothing to do with the origins or growth of feudalism. Le professeur Bachrach d'abute par l'analyse de certains aspects de l'occupation barbare des terres de l'empire romain de la Grande Bretagne aux campements alains en Gaule méridionale. Il s'attache ensuite aux structures politiques et surtout militaires qui furent issues du Haut Moyen Âge. Selon lui et il tente d'en faire ici la démonstration l'organisation et les tactiques militaires ont fait preuve d'une continuité fondamentale de l'époque mérovingienne celle des Carolingiens. Comme il le démontre il n'y a pas lieu d'établir de liens entre l'origine du féodalisme et le d'sir qu'avait Charles Martel de créer une cavalerie. Il est galemment tout fait erroné de dire que ce dernier s'était rendu compte du potentiel de l'arrier en tant que facteur de mener des combats cheval de choc. Bien contraire l'utilisation de l'arrier l'Ouest ne fit que progresser lentement et aucun rapport n'existe entre cet instrument et l'origine ou la croissance de la féodalité. Bulletin bibliographique de la Société internationale arthurienne International Arthurian Society, 1975. Emperor, Prefects & Kings P. S. Barnwell, 1992 P. S. Barnwell examines the development of imperial and royal government in the western part of the Roman Empire and in the early barbarian kingdoms that were established within its frontiers: the Visigothic, Burgundian, Frankish and Vandal nations. Covering the fifth century the period from the death of the Emperor Theodosius to the death of the Emperor Justinian, Barnwell's book demonstrates the extent to which barbarian government was influenced by its Roman predecessor. Earlier studies have argued implicitly that the fifth century witnessed the disintegration of an ordered Roman governmental system and its replacement by a series of disorganized Germanic administrations. Barnwell by contrast examines Roman government of the fifth century western Empire on its own terms and then analyzes the administrations of individual Barbarian kingdoms in relation to this fifth century Roman background. He shows that the law and government of the Barbarian kingdoms were more deeply indebted to

Roman institutions than most previous historians have realized **The Alphabet of Galen** Nicholas Everett, 2012-01-01 The Alphabet of Galen is a critical edition and English translation of a text describing in alphabetical order nearly three hundred natural products including metals aromatics animal materials and herbs and their medicinal uses A Latin translation of earlier Greek writings on pharmacy that have not survived it circulated among collections of authorities on medicine including Hippocrates Galen of Pergamun Soranus and Ps Apuleius This work presents interesting linguistic features including otherwise unattested Greek and Latin technical terms and unique pharmacological descriptions Nicholas Everett provides a window onto the medieval translation of ancient science and medieval conceptions of pharmacy With a comprehensive scholarly apparatus and a contextual introduction The Alphabet of Galen is a major resource for understanding the richness and diversity of medical history
