The Deified Life:

Deified Person Nicholas Bamford, 2011-11-26 *Deified Person A Study of Deification in Relation to Person and Christian Becoming* focuses on a theological exploration of person through the notion of deification and is placed within a Christian Orthodox Byzantine context. The book offers new interpretations of person in relation to Christian becoming while at the same time exploring some of the difficult avenues of Christian theological developments. Nicholas Bamford encourages theological inquiry and the book will appeal to those who wish to challenge ideas and push the boundaries forward.

Deified Vision: Towards an Anagogical Catholicism Philip Krill, 2017-09-29 *DEIFIED VISION TOWARDS AN ANAGOGICAL CATHOLICISM* is an attempt at activating an anagogical imagination. It requires of us that we pray for a share in God's own contemplation of the world that we allow our imaginations to get lifted up into His own that we desire to receive through the illumination of His Holy Spirit a participation in His own love and desire for all He has created. One author has called this process acquiring an epistemic participation in the Mind of Christ. **The Deified Life** Evelyn Underhill, 2005-12 This scarce antiquarian book is a facsimile reprint of the original. Due to its age it may contain imperfections such as marks, notations, marginalia and flawed pages. Because we believe this work is culturally important, we have made it available as part of our commitment for protecting, preserving and promoting the world's literature in affordable, high quality modern editions that are true to the original work. **The One Christ** David Vincent Meconi, 2013 By treating Augustine's passages on deification both chronologically and constructively, Meconi situates Augustine in a long chorus of Christian pastors and theologians who understand the essence of Christianity as the human person's total and transformative union with God.

Being Deified David Russell Mosley, 2016-12-01 *Being Deified* examines the importance of deification to Christian theology and the place of human creativity in deification. Deification is an explanatory force for the major categories of Christian theology: creation, fall, incarnation, theological anthropology, as well as the sacraments. Deification explains in part the why of creation and the what of humanity. God created in order to deify; humanity is created to be deified; the what of the Fall, the desire for divinity outside of God's gifts, one of the purposes for the Incarnation to deify and what end the sacraments aid deification. Essential to deification is human creativity for humans are created in the image of God, the Creator. In order to explore this dimension of deification, this essay focuses on works of poetry and fantasy in many ways, the pinnacle of human creativity, since both genres cause the making strange of things familiar, language and creation itself in part to make them better known, particularly as creations of the Creator. *With All the Fullness of God* Jared Ortiz, 2021-01-12 Christians confess that Christ came to save us from sin and death. But what did he save us for? One beautiful and compelling answer to this question is that God saved us for union with him so that we might become partakers of the divine nature. 1 Pet 2:4 what the Christian tradition has called deification. This term refers to a particular vision of salvation which claims that God wants to share his own divine life with us, uniting us to himself and transforming us into his likeness. While often thought to be

either a heretical notion or the provenance of Eastern Orthodoxy this book shows that deification is an integral part of Catholicism Orthodoxy and many Protestant denominations Drawing on the resources of their own Christian heritages eleven scholars share the riches of their respective traditions on the doctrine of deification In this book scholars and pastor scholars from diverse Christian expressions write for both a scholarly and lay audience about what God created us to be adopted children of God who are called even now to be filled with all the fullness of God Eph 3 19

Life in the Trinity: A Catholic Vision of Communion and Deification Philip Krill, 2017-08-28 Inspired by the ressourcement theology of Henri de Lubac Hans Urs von Balthasar and Pope Benedict XVI LIFE IN THE TRINITY is a modest attempt to advance a neo patristic synthesis crucial to the renewal of the Catholic Faith in our times Drawing on the early Church Fathers as well as the personalism of Pope John Paul II LIFE IN THE TRINITY presents Father Son and Holy Spirit as the source goal and archetype of human love and the wellspring of liturgical worship It furnishes us with a Catholic vision of communion and deification inspiring hope for the 21st century

The Oxford Handbook of Deification Paul L. Gavrilyuk, Andrew P. Hofer, Matthew Levering, 2024-07-19 Modern theological engagements on deification have undergone two major paradigm shifts First the study of deification shifted from the periphery of theological discourse to its center For Adolf von Harnack deification was a pagan import that fatally corrupted and distorted the Gospel message of salvation In response the positive retrieval of the concept of deification belongs to the early years of the twentieth century By the 1910s in Russian religious thought and by the 1930s in much Roman Catholic theology deification had become a magnet concept attracting attention from many different viewpoints The second important shift relates to how deification is characterized Recent studies question the exclusively Eastern character of deification and draw attention to the engagements of this theme in Latin patristic and later Western Christian sources Reassessing the evidence for these two major shifts The Oxford Handbook of Deification comprehensively explores the points of convergence and difference on the constitutive elements of deification in different traditions and offers a foundation for ecumenical and interreligious dialogues The Handbook s first part analyzes the cultural and scriptural roots of deification the second part explores the most significant historical contributions to the understanding of deification in the early medieval and modern periods the third part develops systematic connections Readers will discover a surprising breadth depth and diversity of theologies of deification in Christian traditions Throughout the Handbook leading scholars in the field of Deification Studies propose vital new insights from a variety of perspectives for this central mystery at the heart of the Christian faith

Private and Public Lies Andrew J. Turner, K. O. Chong-Gossard, Frederik Juliaan Vervaeke, 2010 Graeco Roman literary works historiography and even the reporting of rumours were couched as if they came in response to an insatiable desire by ordinary citizens to know everything about the lives of their leaders and to hold them to account at some level for their abuse of constitutional powers for personal ends Ancient writers were equally fascinated with how these same individuals used deceit as a powerful tool to disguise private and public reality The chapters in this collection

examine the themes of despotism and deceit from both historical and literary perspectives over a range of historical periods including classical Athens the Hellenistic kingdoms late republican and early imperial Rome late antiquity and Byzantium
