Sipri Yearbook 1997 Armaments Disarmament And International Security:

SIPRI Yearbook 1997 Stockholm International Peace Research Institute,1997 This edition covers the comprehensive test ban treaty armed conflict prevention management and resolution multilateral military related export control measures and information on multilateral observers peacekeeping and electoral operations **The Evolution of Biological Disarmament** Nicholas Roger Alan Sims,2001 The evolution of the disarmament regime of the 1972 Biological and Toxin Weapons Convention BTWC is described from 1980 when the first BTWC Review Conference was held until 1998 The author analyses the results of our first four review Conferences the meetings of the Ad Hoc Group of Governmental Experts to Identify and Examine Potential Verification Measures from a Scientific and Technical Standpoint the 1994 Special Conference the current negotiations of the Ad Hoc Group to produce an additional protocol the BTWC which may include verification measures handling of the 1997 Cuban allegation of US biological warfare and the implementation of Article X of the BTWC on international transfers and cooperation for peaceful purposes The strength of the BTWC regime is assessed in the light of its evolution through the review process and its changing contents including Russia s admission that it had inherited an offensive biological weapon programme The book applies an original sector by sector approach to its analysis of the BTWC studied in a long term perspective *Evolution and Devolution* Tom Lansford,2019-07-18 This title was first published in 2000 This study bridges the gap in the otherwise rich literature on European security through its analysis of past and present efforts at military integration Previous works have concentrated on the transatlantic relationship or the intra European dimension of the effort to create autonomous defense capabilities or even on the ramifications of the changed defense market Evolution and Devolution combines these themes and subjects The work integrates these topics against the backdrop of the current scholarly debate over international relations by examining the changing nature of sovereignty and the evolution of the nation state In the end the course toward more integration and yet continued participation of the U S is shown to be the optimum course for EU member states in light of the security threats and constraints facing national governments **Realism versus Global Arms Control and Disarmament** Carmen Chas,2025-07-15 This incisive book explores the limits of international law through arms control and disarmament treaties Carmen Chas critically engages with literature on disarmament and classical realist analysis bridging the divide between international law and international relations scholarship **International Arms Transfers and the Middle East** Ian Anthony,Peter Jones,1998-11-19 The end of the Cold War and the relentless pace of technological change are altering the patterns of international arms transfers For a number of economic and technological reasons the US is becoming increasingly dominant particularly with respect to the very highest military capabilities which these technologies promise though this will not be without dislocations for the Israeli military and society Other countries such as Iran Iraq and Saudi Arabia may acquire some additional conventional capabilities but they are not likely to be decisive in relation to Israel though they could increase tensions associated with

other disputes in the region Finally in the absence of progress towards a resolution of the Arab Israeli and other regional disputes Israel s increasing technological edge will likely have the effect of further encouraging the efforts of some countries to explore asymmetric responses such as acquiring non conventional weapons or resorting to terrorism *Confidence- and Security-building Measures in the New Europe* Zdzisław Lachowski,2004 **Food Aid and Human Security** Edward Clay,Olav Schram Stokke,2013-01-11 Food aid is historically a major element of development aid to support longer term development and the primary response to help countries and peoples in crisis This examination of food aid focuses in particular on institutional questions *From Defense to Development?* Sean M. DiGiovanna,Ann Markusen,2003-09-11 This book tracks the progress of 12 countries on five continents in moving resources from defense to civilian activity in the 1990s Based on intensive research it addresses each country with an impressive standard of scholarship **Export Control Law and Regulations Handbook** Yann Aubin,Arnaud Idiart,2016-05-15 The importance of export control laws and regulations in international trade continues to grow not only because of the increase in world trade and technology dispersion but also due to concerns surrounding national and regional stability and the risk of terrorism Accordingly familiarity with export control laws and regulations around the world has become extremely important for those involved in the international trade of dual use or military goods technology and services In this preeminent handbook now in its third edition two experienced professionals have gathered contributions from expert practitioners and academics The third edition adds three new country chapters Brazil Israel and Sweden and a new separate chapter on sanctions and embargoes In addition to chapters on the international regime in general the book provides a practical overview of the export import control regimes covering defence and dual use goods and services in fourteen key jurisdictions Country reports each follow the same structure for easy comparison Issues and topics covered include the following and much more import export legal and regulatory requirements for controlled goods and services sanctions for breach of such requirements civil administrative or criminal licence application processes arms dual use and other products embargo including chemical and biological materials and technology and enforcement measures The Handbook also makes available through an online application all important standard export control related forms templates and other related documents all of which readers can use to draft their own documents The Handbook is invaluable to any professional such as lawyers compliance key players procurement logistics finance and customs practitioners working in relation to an organisation with a need to know the specific requirements to be followed for the efficient and legally compliant import or export of controlled military or dual use goods technologies or services

Nuclear Weapons and Arms Control in South Asia After the Test Ban Eric H. Arnett,1998 As the nuclear weapon states continue to reduce their nuclear arsenals and international efforts to prevent the proliferation of nuclear weapons are reinvigorated South Asia remains a unique region almost entirely unencumbered by nuclear arms control Despite the recent popularity of the notion that nuclear deterrence is stabilizing the Indo Pakistani conflict there is good reason to believe that

the risks of war and the use of nuclear weapons are not fully appreciated Nevertheless the prospects for negotiated measures to improve the situation are not good because of the domestic politics on both sides Nuclear Weapons and Arms Control in South Asia after the Test Ban sheds new light on the risks of the current stand off the hidden costs of the nuclear options and the domestic sources of the region s inertia bringing together Indian Pakistani and Chinese perspectives
