sculpture deriving from India in Britain and the relationship of sculpture to emerging industrial markets both at home and abroad Challenging characterisations of the period as neoclassical the volume reveals British sculpture to be a much more eclectic and various field of endeavour both in service of the state and challenging it and open to sources ranging from the newly arrived Parthenon Frieze to contemporary print culture

[The Idea of the Cottage in English Architecture, 1760 - 1860](#) Daniel Maudlin,2015-07-24 The Idea of the Cottage in English Architecture is a history of the late Georgian phenomenon of the architect designed cottage and the architectural discourse that articulated it It is a study of small buildings built on country estates and not so small buildings built in picturesque rural settings resort towns and suburban developments At the heart of the English idea of the cottage is the Classical notion of retreat from the city to the countryside This idea was adopted and adapted by the Augustan infused culture of eighteenth century England where it gained popularity with writers artists architects and their wealthy patrons who from the later eighteenth century commissioned retreats gate lodges estate workers housing and seaside villas designed to appear as cottages The enthusiasm for cottages within polite society did not last By the mid nineteenth century cottage related building and book publishing had slowed and the idea of the cottage itself was eventually lost beneath the Tudor barge boards and decorative chimneystacks of the Historic Revival And yet while both designer and consumer have changed over time the idea of the cottage as the ideal rural retreat continues to resonate through English architecture and English culture

Julien-David Leroy and the Making of Architectural History Christopher Drew Armstrong,2013-04-15 This book examines the career and publications of the French architect Julien David Leroy 1724 1803 and his impact on architectural theory and pedagogy Despite not leaving any built work Leroy is a major international figure of eighteenth century architectural theory and culture Considering the place that Leroy occupied in various intellectual circles of the Enlightenment and Revolutionary period this book examines the sources for his ideas about architectural history and theory and defines his impact on subsequent architectural thought This book will be of key interest to graduate students and scholars of Enlightenment era architectural history

George III Jeremy Black,2008-10-01 The sixty year reign of George III 1760 1820 witnessed and participated in some of the most critical events of modern world history the ending of the Seven Years War with France the American War of Independence the French Revolutionary Wars the campaign against Napoleon Bonaparte and battle of Waterloo in 1815 and Union with Ireland in 1801 Despite the pathos of the last years of the mad blind and neglected monarch it is a life full of importance and interest Jeremy Black s biography deals comprehensively with the politics the wars and the domestic issues and harnesses the richest range of unpublished sources in Britain Germany and the United States But using George III s own prolific correspondence it also interrogates the man himself his strong religious faith and his powerful sense of moral duty to his family and to his nation Black considers the king s scientific cultural and intellectual interests as no other biographer has done and explores how he was viewed by his contemporaries Identifying George as the last British ruler of the Thirteen Colonies Black reveals his

strong personal engagement in the struggle for America and argues that George himself his intentions and policies were key to the conflict
