Creating Gender-Fair Schools & Classrooms Lynn Raphael Reed, Tina Rae, 2007-03-18 Includes CD Rom. For many teachers gender issues related to role models image and expectations have an effect upon the behaviour and achievement of both boys and girls often to their disadvantage. This innovative and practical resource for teachers of students aged 5-13 provides a programme to promote gender equality and inclusivity in schools and colleges a rationale for the programme based on social justice a practical set of classroom activities to implement the programme. The book combines the talents and commitment of two leading authors to provide an action inquiry methodology engaging students and staff in the processes of investigating what is currently happening and planning implementing and reviewing improvements. This contributes to the development of the school as a self-evaluating organisation which listens to the voice of the child. The programme supports teachers and other school staff in developing as reflective practitioners and children and young people in developing as reflective learners. It can also be used to engage schools and colleges in joining the UNICEF Rights Respecting programme which is demonstrating positive results. A real strength of the resource is the inclusion of practical activities that have been carefully designed for pupils. These are excellent and lend themselves for use in a variety of ways. This is a thoroughly recommended resource. SENCO Update

Early Childhood Education and Care Margaret M Clark, Tim Waller, 2007-05-14 A much needed book that uniquely brings together policy and practice in early childhood education and care across the United Kingdom and the Republic of Ireland It offers a wealth of information and useful websites and addresses so that importantly readers can keep abreast of the rapidly changing external environment in these countries An essential read for those wishing to understand the background to policy and practice in early childhood education and care Linda Miller The Open University This book is long overdue it provides effective cameos of developments in each country highlighting key legislation the underlying philosophy the formation of policies and their implementation in state voluntary and private provision The International Journal of Early Childhood This unique resource will be invaluable in helping students and others trying to understand the context of current early years provision The case studies bring the book to life and ground it in the stories of real children and their families They highlight how the similarities and differences in support for children and their families are more dependent on where they live than what they need Lesley Staggs Early childhood education and care policy has an impact on the daily lives of early years practitioners and the families and children they work with and practising and trainee early childhood professionals need to have an understanding of current policy as well as the contexts for policy making and implementation Currently the majority of textbooks for early years education and early childhood students in the UK focus on the situation in England As a result readers may have a skewed perspective on policy and practice and not be aware of the varying and different contexts in Northern Ireland Scotland and Wales Also those working in settings not in England have to work hard to apply texts to their own contexts In contrast this book gives the reader easy access to information on the policies and practices in ECEC across each of the countries in the UK and the Republic of Ireland Each chapter covers o background information o policy and practice in early childhood education and care o transition o schooling and curriculum o

quality assurance examination and inspection of professional development and training of future and imminent changes of case studies of children's lives. In addition to describing the legislative, political and practical situation in each country, the book enables comparisons to be drawn and helps readers interpret the data critically. It will be essential reading for modules on comparative education and international perspectives but will also form a foundation for all modules involving policy and provision on Early Years Education, Early Childhood or Childhood Studies courses.
