Six Days:

Six Days Ken Ham, 2013-11-01 Discover how many evangelical leaders willingly or unwittingly are undermining the authority of God's Word by compromising the Bible in Genesis Learn how allowing for an old universe of billions of years unlocks a door of compromise Heed the wake up call to the Church to return to the authority of God's Word beginning in Genesis Today most Bible colleges seminaries K 12 Christian schools and now even parts of the homeschool movement do not accept the first eleven chapters of Genesis as literal history They try to fit the supposed billions of years into Genesis and some teach evolution as fact Our churches are largely following suit Ken Ham international speaker and author on biblical authority examines how compromise starting in Genesis particularly in regard to the six days of creation and the earth's age have filtered down from the Bible colleges and seminaries to pastors and finally to parents and their children This erosive legacy is seen in generations of young people leaving the Church 2 3 of them Get the facts discover God's truth and help bring a new reformation to the Church by helping to call it back to the authority of God's Word *The Six Days of Creation* Daniel Negron, 2005-07 **The Six Days of Destruction** Elie Wiesel, Albert H Friedlander, Cardinal B. Hume, Bishop R. Harries, Lord Jakobovits, 2014-06-28 If you do not take up this text to pray take it as a book to be studied Once you have read these stories they will not leave you for they are part of human history From the Introduction by Albert Friedlander The Six Days of Destruction is a religious text for use in both Jewish and interfaith services for Yom Ha Shoah it also stands on its own as a work of great poignancy The six stories were written by Nobel Peace Prize Winner Elie Wiesel with liturgies by Rabbi Albert Friedlander The book opens with prefaces by Cardinal Basil Hume Bishop Richard Harries and Lord Jakobovits and is illustrated with a collection of drawings by inmates of the Nazi concentration camps introduced by Elisabeth Maxwell and Roman Halter On the Six Days of Creation Robert Grosseteste, Christopher F. J. Martin, 1996 This is a new translation of Grosseteste's masterful commentary on the Biblical account of the Creation Presenting a rich look at the unity of the medieval outlook the Hexaemeron combines the learning of East and West in a distinctively English way **Lessons for the young on the six days of Creation** François Samuel R. Louis Gaussen, 1860 **On the Six Days of Creation**, 2021-05-07 The first volume of our new series Fathers of the Church Shorter Works will be available in the summer of 2021 This series to be printed only in paperback format will offer English translations of treatises homilies poems and letters of the Church Fathers in slim easily affordable volumes In this way a multitude of important writings will become accessible to scholars and students as well as the reading public This is the first complete English translation of St Gregory of Nyssa's treatise On the Six Days of Creation In Hexaemeron It was probably written in 380 381 and is designed as both a defense and a critique of his recently deceased brother St Basil's better known homilies on the creation story as set out in the first chapter of Genesis At the same time it incorporates Gregory's own observations on the Genesis text which reflect his desire to show the consistency between Scripture and the philosophy and natural science of his day A notable feature is Gregory's presentation

of God's creation of the world as what has been called a substantification of God's own will creatio ex Deo rather than creatio ex nihilo. Other ideas of his seem interestingly to foreshadow those of modern science notably his challenge to the idea that matter is a primary ontological category and his theory that the world as we know it developed through a process of sequence akolouthia from an originally simultaneous creation of everything. Gregory differs from Basil in maintaining that the waters above the firmament in Genesis 1 are spiritual rather than physical in nature. He uses a modified form of Aristotle's theory of elements together with some interesting observations on geography and meteorology to construct a detailed and ingenious account of the water cycle. This description enables him to refute Basil's notion that there needs to be an extra supply of physical water above the firmament so that the water lost from earthly seas and rivers through evaporation can be topped up.
