Skepticism Modernity And Critical Theory Critical Theory In Philosophical Context:

Skepticism, Modernity and Critical Theory P. Walsh, 2005-04-05 This book examines the issue of philosophical skepticism in the light of its relevance for the critique of modernity associated with the Frankfurt School It situates the problem of skepticism in the context of the history of philosophy and explores its significance for the modern crisis of reason manifested in post Kantian philosophy which presaged the critical turn toward social theory

Empathy in the Context of Philosophy L. Agosta, 2010-04-29 Integrating continental and Anglo American traditions the author exposes empathy as the foundation of the being with one another of human beings The interpretation of empathy is applied to story telling literature and self psychology rescuing empathy from the margins and revealing its role in the understanding of the other and human community

The Ethics of Care Alan Blum, Stuart Murray, 2016-07-28 Beginning with a focus on the ethical foundations of caregiving in health and expanding towards problems of ethics and justice implicated in a range of issues this book develops and expands the notion of care itself and its connection to practice Organised around the themes of culture as a restraint on caregiving in different social contexts and situations innovative methods in healthcare and the way in which culture works to position care as part of a rhetorical approach to dependency responsibility and justice The Ethics of Care presents case studies examining institutional responses to end of life issues the notion of informed consent biomedicine indigenous rights and postcolonialism in care and theoretical approaches to the concept of care Offering discussions from a variety of disciplinary approaches including sociology communication and social theory as well as hermeneutics phenomenology and deconstruction this book will appeal to scholars across the social sciences with interests in healthcare medicine justice and the question of how we think about care

as a notion and social form and how this is related to practice On Hegel Karin de Boer,2010-07-07 Focusing on the Science of Logic this wide ranging and innovative reading exposes the force as well as the limit of Hegel s philosophy Drawing on Hegel s early account of tragic conflicts De Boer brings into play a form of negativity that challenges the optimism inherent in modernity and Hegelian dialectics alike Critique and Disclosure Nikolas Kompridis,2011-08-19 A provocatively argued call for shifting the emphasis of critical theory from Habermasian critique restricted to normative clarification to disclosure a possibility enhancing approach that draws on and reinterprets ideas of Heidegger In Critique and Disclosure Nikolas Kompridis argues provocatively for a richer and more time responsive critical theory He calls for a shift in the normative and critical emphasis of critical theory from the narrow concern with rules and procedures of J rgen Habermas s model to a change enabling disclosure of possibility and the enlargement of meaning Kompridis contrasts two visions of critical theory s role and purpose in the world one that restricts itself to the normative clarification of the procedures by which moral and political questions should be settled and an alternative rendering that conceives of itself as a possibility disclosing practice At the center of this resituation of critical theory is a normatively reformulated interpretation of Martin Heidegger s idea of disclosure or world disclosure In this regard Kompridis reconnects critical theory to its normative and conceptual sources in the German philosophical tradition and sets it within a romantic tradition of philosophical critique Drawing not only on his sustained critical engagement with the thought of Habermas and Heidegger but also on the work of other philosophers including Wittgenstein Cavell Gadamer and Benjamin Kompridis argues that critical theory must in light of modernity s time consciousness understand itself as fully situated in its time in an ever shifting and open ended horizon of possibilities to which it must respond by disclosing alternative ways of thinking and acting His innovative and original argument will serve to move the debate over the future of critical studies forward beyond simple antinomies to a consideration of as he puts it what critical theory should be if it is to have a future worthy of its past Critical Theory and the Thought of Andrew Feenberg Darrell P. Arnold,Andreas Michel,2017-11-01 This volume explores Andrew Feenberg s work in critical theory Feenberg is considered one of the key second generation critical theorists with a keen interest in philosophy of technology He has made a vital contribution to critical theory in ways that remain of interest given the pressing technological issues of our time The authors of this book highlight not only the ways that Feenberg has begun to make good on what is often characterized as the broken promise of critical theory to address issues of technology but also the continued importance of critical theory more generally and of Feenberg s contributions to understanding this tradition **Philosophy and Temporality from Kant to Critical Theory** Espen Hammer,2011-03-31 This book is a critical analysis of how key philosophers in the European tradition have responded to the emergence of a modern conception of temporality Espen Hammer suggests that it is a feature of Western modernity that time has been forcibly separated from the natural cycles and processes with which it used to be associated In a discussion that ranges over Kant Hegel Schopenhauer Nietzsche

Heidegger and Adorno he examines the forms of dissatisfaction which result from this together with narrative modes of configuring time the relationship between agency and temporality and possible challenges to the modern world's linear and homogenous experience of time His study is a rich exploration of an enduring philosophical theme the role of temporality in shaping and reshaping modern human affairs *Poststructuralism and Critical Theory's Second Generation* Alan D.

Schrift, 2014-09-11 *Poststructuralism and Critical Theory's Second Generation* analyses the major themes and developments in a period that brought continental philosophy to the forefront of scholarship in a variety of humanities and social science disciplines and that set the agenda for philosophical thought on the continent and elsewhere from the 1960s to the present Focusing on the years 1960-1984 the volume examines the major figures associated with poststructuralism and the second generation of critical theory the two dominant movements that emerged in the 1960s Althusser Foucault Deleuze Derrida Lyotard Irigaray and Habermas Influential thinkers such as Serres Bourdieu and Rorty who are not easily placed in standard histories of the period are also covered Beyond this thematic essays engage with issues as diverse as the Nietzschean legacy the linguistic turn in continental thinking the phenomenological inheritance of Gadamer and Ricoeur the influence of psychoanalysis the emergence of feminist thought and a philosophy of sexual difference the renewal of the critical theory tradition and the importation of continental philosophy into literary theory
