Exploring the Senses Axel Michaels, Christoph Wulf, 2017-09-19 This fascinating volume offers a transdisciplinary and transcultural approach to understanding the senses by exploring themes in anthropologies of sound, sight, smell, taste, touch, and movement, as expressed through aesthetic, perceptual, religious, and spiritual experiences. In drawing upon comparative perspectives from Indian and Western theories, the essays demonstrate the integral relation of senses with each other, as well as with allied notions of the body, emotion, and cultural memory. Stressing the continued relevance of senses as they manifest in a globalized world under the influence of new media, this work will interest scholars of anthropology, cultural studies, sociology, ritual studies, psychology, religion, philosophy, and history.

of smell Intended for grades two through five Provided by publisher *Medicine and the Five Senses* W. F.
