The National Mall Nathan Glazer,Cynthia R. Field,2008-07-30 The National Mall in Washington D C has held an important place in the American psyche since the early nineteenth century Home to monuments and museums dedicated to the ideals upon which the United States rests the Mall serves as a gathering place for public protest and celebration But as the nation ages and the population diversifies demands for additional structures and uses have sparked debates over the Mall s future and the necessity of preserving its legacy and the vision of its designers The National Mall addresses these issues with a novel and compelling collection of essays the work of leading design professionals historians and social scientists Supplemented by eye catching illustrations and photographs this cross disciplinary examination follows the discussion over the Mall s design and use from its conceptual origins as part of Pierre

Charles L. Enfant's vision for the capital to the 1902 McMillan Plan to the present day and beyond. It assesses how architectural, societal, and political changes have altered the park-like space between the Capitol and the Lincoln Memorial and explores the influence that disparate interest groups and creeping corporatism have already had on and are likely to exert upon America's public square. The National Mall presents an overarching account of how a democratic society plans, creates, and expands a national ceremonial space, opening the way for a broadly based inquiry into the Mall as it was, is, and will become. Urban planners, architectural and design historians, and engaged citizens will be challenged and well served by the thoughtful essays collected by Nathan Glazer and Cynthia R. Field.

A Richer Heritage Robert E. Stipe, 2003. Museums and Social Activism Kylie Message, 2013-11-07. *Museums and Social Activism* is the first study to bring together historical accounts of the African American and later American Indian civil rights-related social and reform movements that took place on the Smithsonian Mall through the 1960s and 1970s in Washington, DC, with the significant but unknown story about museological transformation and curatorial activism that occurred in the Division of Political and Reform History at the National Museum of American History at this time. Based on interdisciplinary, field-based research that has brought together cross-cultural and international perspectives from the fields of Museum Studies, Public History, Political Science, and Social Movement Studies, with empirical investigation, the book explores and analyses museums, specifically curators' relationships with political stakeholders, past and present. By understanding the transformations of an earlier period, *Museums and Social Activism* offers provocative perspectives on the cultural and political significance of contemporary museums. It highlights the relevance of past practice and events for museums today and improved ways of understanding the challenges and opportunities that result from the ongoing process of renewal that museums continue to exemplify.

Food and Museums Nina Levent, Irina D. Mihalache, 2016-11-03. Museums of all kinds, art, history, culture, science centers, and heritage sites are actively engaging with food through exhibitions, collections, and stories about food production, consumption, history, taste, and aesthetics. Food also plays a central role in their food courts, restaurants, cafes, gardens, and gift shops. *Food and Museums* is the first book to explore the diverse, complex relationship between museums and food. This edited collection features theoretical analysis from cultural historians, anthropologists, neuroscientists, and food studies scholars; interviews with museum professionals, artists, and chefs; and critical case studies from a wide range of cultural institutions and museums to establish an interdisciplinary framework for the analysis of the role of food in museums. Exploring the richness and complexity of sensory, cultural, social, and political significance of food today as well as in the past, the book demonstrates how food is changing the current museological landscape. A fascinating look at contemporary museums through the lens of food, this is an essential read for students and researchers in museum studies, food studies, cultural studies, and sensory studies.

well as museum and food professionals **American Aloha** Heather A. Diamond, 2008-06-03 At the 1989 Smithsonian Folklife Festival throngs of visitors gathered on the National Mall to celebrate Hawai i s multicultural heritage through its traditional arts The entertainment spectacle revealed a richly complex Hawai i few tourists ever see and one never before or since replicated in a national space The program was restaged a year later in Honolulu for a local audience and subsequently inspired several spin offs in Hawai i In both Washington D C and Honolulu the program instigated a new paradigm for cultural representation Based on archival research and extensive interviews with festival organizers and participants this innovative cross disciplinary study uncovers the behind the scenes negotiations and processes that inform the national spectacle of the Smithsonian Folklife Festival Intersecting the fields of museum studies folklore studies Hawaiian studies performance studies cultural studies and American studies *American Aloha* supplies a nuanced analysis of how the carefully crafted staging of Hawai i s cultural diversity was used to serve a national narrative of utopian multiculturalism one that collapsed social inequities and tensions masked colonial history and subordinated indigenous politics while empowering Hawai i s traditional artists and providing a model for cultural tourism that has had long lasting effects Heather Diamond deftly positions the 1989 program within a history of institutional intervention in the traditional arts of Hawai i s ethnic groups as well as in relation to local cultural revivals and the tourist industry By tracing the planning fieldwork site design performance and aftermath stages of the program she examines the uneven processes through which local culture is transformed into national culture and raises questions about the stakes involved in cultural tourism for both culture bearers and culture brokers *Ignorance is the Enemy, the Autobiography of Michael J.
