Social Control Of The Welfare State:

Social Control of the Welfare State Morris Janowitz, 1976 On Social Organization and Social Control Morris Janowitz, 1991-05-28 In the four decades following the end of World War II Morris Janowitz 1919-88 published major works in macrosociology urban and political sociology race and ethnic relations and the study of armed forces and society His research was deeply rooted in the traditions of philosophical pragmatism and the Chicago school of sociology influences which led him to reject grand theories and mechanistic explanations of social life Yet he remained confident in the capacity of sociological reason to come to grips with central aspects of the human condition On the basis of his studies Janowitz came to believe that the transition from early to advanced industrial society radically altered institutional organization to make democratic social control more difficult though not impossible to achieve The task of his pragmatic sociology was to identify fundamental trends in the social organization of industrial societies to indicate their substantive implications for social control and to clarify realistic alternatives for institution building which would strengthen the prospects for maintaining liberal democratic regimes In this volume James Burk selects from Janowitz's scholarly writings to provide a comprehensive overview of his wide ranging interests Organized to demonstrate the common logic of inquiry and substantive unity of Janowitz's contribution to several subfields of sociology the collection includes analyses of the concept of social control ethnic intolerance and hostility citizenship in Western societies models for urban education and the professionalization of military elites Burk provides a richly detailed critical account of Janowitz's intellectual development placing his writings in historical context and showing their continuing relevance for sociological research Useful to both students and specialists the volume is an important source for the ideas and methods of one of sociology's leading figures **SOCIAL CONTROL OF THE WELFARE STATE. BY MORRIS JANOWITZ.** Morris Janowitz, 1976 *The Necessity of Social Control* István Mészáros, 2015 As John Bellamy Foster writes in his foreword to the present book István Mészáros is one of the greatest philosophers that the historical materialist tradition has yet produced His work stands practically alone today in the depth of its analysis of Marx's theory of alienation the structural crisis of capital the demise of Soviet style post revolutionary societies and the necessary conditions of the transition to socialism His dialectical inquiry into social structure and forms of consciousness a systematic critique of the prevailing forms of thought is unequalled in our time Mészáros is the author of magisterial works like *Beyond Capital* and *Social Structures of Forms of Consciousness* but his work can seem daunting to those unacquainted with his thought Here for the first time is a concise and accessible overview of Mészáros's ideas designed by the author himself and covering the broad scope of his work from the shortcomings of bourgeois economics to the degeneration of the capital system to the transition to socialism *Understanding Theories and Concepts in Social Policy* Ruth Lister, Ruth Patrick, Kate Brown, 2024-02-27 Demonstrating the relevance of theory to political and policy debates and practice this dynamic and fully updated second edition helps students to grasp the real life implications of social policy

theory It includes a new chapter featuring debates around disability sexuality and the environment Marxism and Social Science David Marsh, Tony Tant, 1999 Has Marxism ceased to be part of our political present and future Has its theory or doctrine anything to contribute to our understanding of the new millennium In these original commissioned essays the contributors argue that Marxism continues as a living tradition They show how it still engages with other theoretical positions how it has evolved in response to both these engagements and contemporary world changes and they assess its relevance and contribution to modern social science **Consensus and Beyond** Alan Warde, 1982 **The Routledge Handbook of Heterodox Economics** Tae-Hee Jo, Lynne Chester, Carlo D'Ippoliti, 2017-07-28 The Routledge Handbook of Heterodox Economics presents a comprehensive overview of the latest work on economic theory and policy from a pluralistic heterodox perspective Contributions throughout the Handbook explore different theoretical perspectives including Marxian radical political economics Post Keynesian Sraffian economics institutionalist evolutionary economics feminist economics social economics Regulation theory the Social Structure of Accumulation approach and ecological economics They explain the structural properties and dynamics of capitalism as well as propose economic and social policies for the benefit of the majority of the population This book aims firstly to provide realistic and coherent theoretical frameworks to understand the capitalist economy in a constructive and forward looking manner Secondly it delineates the future directions as well as the current state of heterodox economics and then provides both heat and light on controversial issues drawing out the commonalities and differences among different heterodox economic approaches The volume also envisions transformative economic and social policies for the majority of the population and explains why economics is and should be treated as a social science This Handbook will be of compelling interest to those including students who wish to learn about alternative economic theories and policies that are rarely found in conventional economics textbooks or discussed in the mainstream media and to critical economists and other social scientists who are concerned with analyzing pressing socio economic issues

Routledge Handbook of Russian Politics and Society Graeme Gill, 2022-12-23 This second edition of the highly respected Routledge Handbook of Russian Politics and Society both provides a broad overview of the area and highlights cutting edge research into the country Through balanced theoretical and empirical investigation each chapter examines both the Russian experience and the existing literature identifies and exemplifies research trends and highlights the richness of experience history and continued challenges inherent to this enduringly fascinating and shifting polity Politically economically and socially Russia has one of the most interesting development trajectories of any major country This Handbook answers questions about democratic transition the relationship between the market and democracy stability and authoritarian politics the development of civil society the role of crime and corruption the development of a market economy and Russia's likely place in the emerging new world order Providing a comprehensive resource for scholars students and policy makers alike this book is an essential contribution to the study of Russian studies politics Eastern European studies politics and

International Relations Market in State Yongnian Zheng, Yanjie Huang, 2018-09-06 Uses the framework of market in state to argue that the Chinese economy is state centered dominated by political principles over economic principles *Gender and American History Since 1890* Barbara Melosh, 2012-08-06 These essays chart major contributions to recent historiography Carefully selected for their accessibility and accompanied by headnotes and study questions the essays offer a clear and engaging introduction for the non specialist The introduction describes the emergence of gender as a subject of historical investigation and in ten essays historians explore the meanings and significance of gender in American history since 1890 The volume shows how the interpretation of gender expands and revises our understanding of significant issues in twentieth century history such as work labour protest sexuality consumption and social welfare It offers new perspectives on visual representations and explores the politics of historical subjects and the politics of our own historical revisions

Families and the State S. Cunningham-Burley, L. Jamieson, 2003-11-25 How possible is it for the state to steer family values and relationships How do we assess claims of harm and benefit from state action and inaction What kind of engagement should we seek between the state and our personal lives The evidence presented includes state engagements with separating couples lone parents retired people black families disabled people pregnant teenagers and young people negotiating adulthood The range of perspectives data and cross nation state comparisons helps readers to come to their own conclusions New Democracy William J. Novak, 2022-03-29 The activist state of the New Deal started forming decades before the FDR administration demonstrating the deep roots of energetic government in America In the period between the Civil War and the New Deal American governance was transformed with momentous implications for social and economic life A series of legal reforms gradually brought an end to nineteenth century traditions of local self government and associative citizenship replacing them with positive statecraft governmental activism intended to change how Americans lived and worked through legislation regulation and public administration The last time American public life had been so thoroughly altered was in the late eighteenth century at the founding and in the years immediately following William J Novak shows how Americans translated new conceptions of citizenship social welfare and economic democracy into demands for law and policy that delivered public services and vindicated people's rights Over the course of decades Americans progressively discarded earlier understandings of the reach and responsibilities of government and embraced the idea that legislators and administrators in Washington could tackle economic regulation and social welfare problems As citizens witnessed the successes of an energetic interventionist state they demanded more of the same calling on politicians and civil servants to address unfair competition and labor exploitation from public utilities and reform police power Arguing against the myth that America was a weak state until the New Deal New Democracy traces a steadily aggrandizing authority well before the Roosevelt years The United States was flexing power domestically and intervening on behalf of redistributive goals for far longer than is commonly recognized putting the lie to libertarian claims that the New Deal was an aberration in American

history **Them and Us** Rob Kroes, 2000 At the dawn of the twenty first century all of us consider ourselves to be citizens of something but of what Nation states Regions Ethnic groups Corporations An accomplished set of meditations by one of Europe's leading Americanists Them and Us is a rich comparative study of European and American cultural traditions and their influence on conceptions of community In contrast with the ethnic and nationalist allegiances that historically have splintered Europe Rob Kroes identifies a complex of cultural practices that have mitigated against ethnically rooted divisions in the United States He argues that the American approach articulated by a national rhetoric emphasizing openness rather than closure diversity rather than uniformity has much to offer a Europe where the nationalist and ethnic conflicts that spawned two world wars continue to sow terror and destruction Kroes discusses European and American attitudes toward the welfare state the human rights tradition in the United States and the role of regionalism in shaping conceptions of national identity He also considers new transnational forms of cultural membership that are emerging to take the place of nation based citizenship He contends that the frame of reference Europeans now use to make sense of their collective situation draws on ingredients provided by the worldwide dissemination of American mass culture He investigates the way this emerging world culture under American auspices affects the way people in their local and national settings structure their sense of the past and conceive of their citizenship Imagining a new set of cultural relationships that could serve as the basis for global citizenship Them and Us is an insightful consideration of the types of solidarity that might weave humankind together into a meaningful community Theory of Societal Constitutionalism David Sciulli, 1992 The author argues that the existing conceptual frameworks of political and social theory restrict both theorists and empirical researchers to a narrow definition of authoritarianism that focuses on governmental structure and fails to take account of forms of social control exercised outside the governmental sphere Rather than define authoritarianism primarily by contrast to liberal democracy Sciulli argues we need to broaden our conception of authoritarianism to include social authoritarianism referring to social control imposed by private organizations and institutions such as business corporations and professional associations In this book Sciulli develops an alternative conceptual framework which he calls the theory of societal constitutionalism and he explains how the theory can be used to assess whether social order in a society whether democratic or authoritarian in political rule is characterized by some degree of social authoritarianism The book will be important reading for theorists in sociology political science and legal studies **Gender, Participation and Citizenship in the Netherlands** Jet Bussemaker, Rian Voet, 2019-01-15 Published in 1998 this is an edited volume of papers on the theme of participation and citizenship for women It focuses particularly on the necessary conditions for full participation of women as citizens within a modern liberal democracy For this question it takes the Netherlands as an interesting case study because it shows the need for a close connection between social and political participation The editors aim to draw together often separate discussions about citizenship in international literature a political theoretical discussion of democracy and a social policy discussion on

the welfare state The papers address issues including the labour market public goods welfare laws affirmative action programmes and future development for girls The book also develops the interrelation of social and political participation from the perspective of citizenship It relates information on the Dutch case study to international comparative research on democracy and welfare states as well as to broader international discussions on gender and citizenship Democracy and the Welfare State Alice Kessler-Harris,Maurizio Vaudagna,2017-10-31 After World War II states on both sides of the Atlantic enacted comprehensive social benefits to protect working people and constrain capitalism A widely shared consensus specifically linked social welfare to democratic citizenship upholding greater equality as the glue that held nations together Though the two Wests Europe and the United States differ in crucial respects they share a common history of social rights democratic participation and welfare capitalism But in a new age of global inequality welfare state retrenchment and economic austerity can capitalism and democracy still coexist In this book leading historians and social scientists rethink the history of social democracy and the welfare state in the United States and Europe in light of the global transformations of the economic order Separately and together they ask how changes in the distribution of wealth reshape the meaning of citizenship in a post welfare state era They explore how the harsh effects of austerity and inequality influence democratic participation In individual essays as well as interviews with Ira Katznelson and Frances Fox Piven contributors from both sides of the Atlantic explore the fortunes of the welfare state They discuss distinct national and international settings speaking to both local particularities and transnational and transatlantic exchanges Covering a range of topics the lives of migrant workers gender and the family in the design of welfare policies the fate of the European Union and the prospects of social movements *Democracy and the Welfare State* is essential reading on what remains of twentieth century social democracy amid the onslaught of neoliberalism and right wing populism and where this legacy may yet lead us *Poverty in the United States* Gwendolyn Mink,Alice M. O'Connor,2004-11-22 The first interdisciplinary reference to cover the socioeconomic and political history the movements and the changing face of poverty in the United States *Poverty in the United States* An Encyclopedia of History Politics and Policy follows the history of poverty in the United States with an emphasis on the 20th century and examines the evolution of public policy and the impact of critical movements in social welfare such as the New Deal the War on Poverty and more recently the end of welfare as we know it Encompassing the contributions of hundreds of experts including historians sociologists and political scientists this resource provides a much broader level of information than previous highly selective works With approximately 300 alphabetically organized topics it covers topics and issues ranging from affirmative action to the Bracero Program the Great Depression and living wage campaigns to domestic abuse and unemployment Other entries describe and analyze the definitions and explanations of poverty the relationship of the welfare state to poverty and the political responses by the poor middle class professionals and the policy elite Encyclopedia of Modern Political Thought (set) Gregory Claeys,2013-08-20 This groundbreaking new

work explores modern and contemporary political thought since 1750 looking at the thinkers concepts debates issues and national traditions that have shaped political thought from the Enlightenment to post modernism and post structuralism Encyclopedia of Modern Political Thought is two volume A to Z reference that provides historical context to the philosophical issues and debates that have shaped attitudes toward democracy citizenship rights property duties justice equality community law power gender race and legitimacy over the last three centuries It profiles major and minor political thinkers and the national traditions both Western and non Western which continue to shape and divide political thought More than 200 scholars from leading international research institutions and organizations have provided signed entries that offer comprehensive coverage of Thought of regions and countries including African political thought American political thought Australasian political thought Australian and New Zealand Chinese political thought Indian political thought Islamic political Thought Japanese political thought and more Thought regarding contemporary issues such as abortion affirmative action animal rights European integration feminism humanitarian intervention international law race and racism and more The ideological spectrum from Marxism to neoconservatism including anarchism conservatism Darwinism and Social Darwinism Engels fascism the Frankfurt School Lenin and Leninism socialism and more Connections of political thought to key areas of politics and other disciplines such as economics psychology law and religion Notable time periods of political thought since 1750 Concepts including class democratic theory liberalism nationalism natural and human rights and theories of the state Theorists and political intellectuals both Western and non Western including John Adams Edmund Burke Mohandas Gandhi Immanuel Kant Ayatollah Khomeini Ernst Friedrich Schumacher George Washington and Mary Wollstonecraft Identity and Participation in Culturally Diverse Societies Assaad E. Azzi,Xenia Chryssochoou,Bert Klandermans,Bernd Simon,2011-07-15 Identity and Participation in Culturally Diverse Societies presents an original discussion in an edited volume of how the links between identity political participation radicalization and integration can provide a scientific understanding of the complex issue of coexistence between groups in culturally diverse societies Offers a scientific understanding of the complex issue of coexistence between groups in culturally diverse societies Utilizes original theory which combines social psychology sociology and political science Includes an original and extensive discussion of combining the concepts of identity and diversity Innovatively and engagingly employs the latest research and state of the art theory
