- highlight the nature of State's role in public policy process.
- throw light on the public policy experience in India; and
- discuss the importance of public policy study and its present status.

4.1 INTRODUCTION

The study of public policy is very important for the relation between the public policy and its context is very intimate and organic.

This mutual influence accounts for varied experiences in the realm of public policy in different countries. This is also the reason, why all the countries do not have the same public policies. Assuming that they have the same policies, the priorities would not be the same. Thus, the nature of policy varies from country to country depending upon the requirement of its economy, social and cultural values, availability of resources, constitutional ideals, international pressure as well as, pressures from political parties, interest groups, trade unions, cultural and religious associations, etc., for example in India, our emphasis has been on the question of growth and modernisation, removal of poverty, development of agriculture, social justice, etc. Our public policies have been formulated keeping in view, all these issues. The western or developed countries have been concentrating on environmental hazards, innovations in science and technology, etc.

Thus the priorities in each country affect the nature of its public policies. The changing nature of public policies calls for extensive study of these policies. The questions relating to how these policies are formulated? Are these made keeping the priorities in view? Are these able to make optimal utilisation of available resources? All these questions have to be properly examined. As the nature of public policy largely depends on the role of the State, this Unit will try to highlight how the public policies are generated and handled by the State. The Unit will discuss the State's role in public policy process and throw light on the urgent need for a systematic public policy study. In order to stress upon the importance of public policy study, a discussion on public policy experience in India regarding its policies to bring about structural, economic and technological changes will also be made.
