Social Identity in Question Parisa Dashtipour, 2012-07-26

Social identity theory is one of the most influential approaches to identity group processes, intergroup relations and social change. This book draws on Lacanian psychoanalysis and Lacanian social theorists to investigate and rework the predominant concepts in the social identity framework. *Social Identity in Question* begins by reviewing the ways in which the social identity tradition has previously been critiqued by social psychologists who view human relations as conditioned by historical context, culture and language. The author offers an alternative perspective based upon psychoanalytic notions of subjectivity. The chapters go on to develop these discussions and they cover topics such as self-categorisation theory, group attachment and conformity, the minimal group paradigm, intergroup conflict, social change and resistance. Each chapter seeks to disrupt the image of the subject as rational and unitary and to question whether human relations are predictable. It is a book which will be of great interest to lecturers, researchers and students in critical psychology, social psychology, social sciences and cultural studies.

Social Identity Processes Dora Capozza, Rupert Brown, 2000-03-13

This landmark work offers a tour of the latest developments in Social Identity Theory from the leading scholars in the field. First proposed by Tajfel and Turner in 1979, Social Identity Theory has proved enormously influential in stimulating new theory and research and in its application to social problems. The field is developing apace and important new lines of work have opened up in the past few years. The three sections of the book cover theoretical contributions to the field, recent empirical assessments of key elements of the theory and applications of Social Identity Theory to bring about changes in problematic intergroup relationships.

Social Identity Richard Jenkins, 2008

Developing the argument that identity is both individual and collective, the author explores the work of major social theorists such as Mead, Goffman and Barth to explain the experience of identity in everyday life.
