Dalit Women's Education in Modern India Shailaja Paik, 2014-07-11 Inspired by egalitarian doctrines the Dalit communities in India have been fighting for basic human and civic rights since the middle of the nineteenth century In this book Shailaja Paik focuses on the struggle of Dalit women in one arena the realm of formal education and examines a range of interconnected social cultural and political questions What did education mean to women How did changes in women s education affect their views of themselves and their domestic work public employment marriage sexuality and childbearing and rearing What does the dissonance between the rhetoric and practice of secular education tell us about the deeper historical entanglement with modernity as experienced by Dalit communities Dalit Women s Education in Modern India is a social and cultural history that challenges the triumphant narrative of modern secular education to analyse the constellation of social economic political and historical circumstances that both opened and closed opportunities to many Dalits By focusing on marginalised Dalit women in modern Maharashtra who have rarely been at the centre of systematic historical enquiry Paik breathes life into their ideas expectations potentials fears and frustrations Addressing two major blind spots in the historiography of India and of the women s movement she historicises Dalit women s experiences and constructs them as historical agents The book combines archival research with historical fieldwork and centres on themes including slum life urban middle classes social and sexual labour and family marriage and children to provide a penetrating portrait of the actions and lives of Dalit women Elegantly conceived and convincingly argued Dalit Women s Education in Modern India will be invaluable to students of History Caste Politics Women and Gender Studies Education Studies Urban Studies and Asian studies

Dominance and State Power in Modern India, 1989 In these two volumes scholars of political science sociology and history adopt a common set of concepts to analyse patterns of change in the ideological and structural foundations of dominance in India from the colonial period to the mid

1980s Departing from modernist theories these scholars set out an interactional framework of society state relations where caste class ethnicity and dominance are treated as structures and processes interacting with each other and with increasingly powerful state institutions These comparative studies provide an explanation of how state policies undermine the religious legitimacy of the hierarchical social order and at the same time facilitate the manipulation of linguistic communal caste and ethnic loyalties to diffuse class polarization The analyses show that subordinate low caste cum class groups are mounting increasingly militant challenges to the hold of the upper castes and classes over state institutions which have provided the most important avenue of social mobility in modern India Provided by publisher Towards Sustainable Consumption and Life Styles Suresh Misra,Sapna Chadah,2018-01-01 Consumption is the reason why anything gets produced However the present consumption and production patterns together are reason for all man made stress on natural environment Consumerism may be the single greatest threat to environmental and social stability on the planet If global society is to address the many environmental and other sustainability challenges that confront us in the twenty first century such as climate change and water resources it will be necessary to make significant changes in our patterns of consumption production and distribution Sustainable consumption is not necessarily about consuming less it is about consuming better i e more efficiently with less risk to our health and environment Changing our course and finding alternative pathways though not easy but is the only way to protect our planet There is a growing realization that while changes in production and distribution are formidable the proposed solutions may not succeed unless it is possible to persuade individuals and households to change their patterns of consumption to make them more sustainable We need a renewed and positive focus on the connection between lifestyles consumption and aspirations cultures and social norms Then we ll have the potential to mobilize and unlock people s consumption and lifestyles as real drivers for change and sustainable development The present volume consists of papers contributed by well known experts that seek to explain the perspectives on sustainable consumption highlight various issues underpinning sustainable consumption and provides solutions to atleast some of the problems if not all The book will not only be useful to policy makers but also to academicians practitioners students and all those who are interested in consumer welfare National Union Catalog ,1983 Includes entries for maps and atlases *Social Life in Maharashtra Under the Peshwas* Sudha Vishwanath Desai,1980 **Mindful leadership for sustainable peace** Thich Duc Thien,Thich Nhat Tu,2019-04-16 EDITORS INTRODUCTION BACKGROUND We are experiencing an unprecedented period where wide ranging and disruptive major global change is taking place around us In this context the theme of Mindful Leadership and Sustainable Development provides a point of reference and pathway for understanding the contemporary chaotic situations These disruptive changes challenge our understanding and meaning of humanity and truly question whether or not we are able to live in a society where justice equality peace and prosperity abound In the Buddhist light a focus is placed on understanding the Buddhist teachings to develop solutions for dealing with

these wide ranging problems Both the scope of change and the response from a Buddhist approach are core to the content of this volume It is of paramount importance that any investigation and development of solutions for the changes taking place require guidance from the Buddhist philosophy As a starting point for discussion an initial focus is placed on providing a thorough and critical understanding of the character and context of change In doing so we also seek to clarify and outline the nature of a Buddhist approach In completing this review it is productive to see that given the complex issues being dealt with the papers do generate different frameworks and viewpoints within the broad term of approach The frameworks based on the Buddha s teachings are not fully fixed and agreed upon by all Therefore our term approach refers to a set of arrangements and viewpoints that act to inspire further discussion and development Given the above context this volume is a collection of conference papers presented and published for the panel on the first sub theme of UNDV 2019 on Mindful Leadership for Sustainable Peace on 13 May 2019 at the Tam Chuc International Convention Center Ha Nam Vietnam The panel commemorates the occasion of the 16th United Nations Day of Vesak Celebrations 2019 Through the contributions of participants and their papers at this workshop this volume provides a diverse and rich range of thinking and wisdom rather than more traditional mainstream thinking or conventional wisdom Treating the Buddha s teachings as a basic theoretical reconstruction we examine the relationships between societies and Buddhism We combine the analyses of the conflicts trends and dynamics affecting future global development with focused studies on a range of policy areas for improving societies In the Buddhist light our two most crucial aims in this period of disruption are to greatly increase the influence and impact of Buddhism as our foremost duty and that the Buddhist responsibility contributes to creating a new foundation for Mindful Leadership and Sustainable Development
