Early Americans have long been considered A People of the Book. Because the nickname was coined primarily to invoke close associations between Americans and the Bible, it is easy to overlook the central fact that it was a book, not a geographic location, a monarch or even a shared language that has served as a cornerstone in countless investigations into the formation and fragmentation of early American culture. Few books can lay claim to such powers of civilization altering influence. Among those which can are sacred books, and for Americans, principal among such books stands the Bible. This Handbook is designed to address a noticeable void in resources focused on analyzing the Bible in America in various historical moments and in relationship to specific institutions and cultural expressions. It takes seriously the fact that the Bible is both a physical object that has exercised considerable totemic power as well as a text with a powerful intellectual design that has inspired everything from national religious and educational practices to a wide spectrum of artistic endeavors to our nation's politics and foreign policy. This Handbook brings together a number of established scholars as well as younger scholars on the rise to provide a scholarly overview rich with bibliographic resources to those interested in the Bible's role in American cultural formation. **Challenging Colonial Discourse** Christian Wiese, 2005-01-01. On the basis of postcolonial theory, this study shows how Jewish scholars in the controversies about the essence of Judaism and Christianity at the beginning of the 20th century challenged the intellectual hegemony of Liberal Protestantism in Germany. By carefully examining the impact of the political circumstances, the loss of relevance of political liberalism, the spreading of antisemitism and the crisis of Jewish identity in an age of contested emancipation and assimilation on the theological discourse, it provides a critical analysis of anti-Jewish implications of Protestant theology in the 19th and 20th centuries and discusses the function of Jewish polemics against Protestant distortions of Jewish history, religion and culture. Furthermore, it develops important guidelines for a contemporary interdisciplinary relationship between Jewish Studies and Christian theology. *The Methodist Review*, 1914. **Methodist Magazine and Quarterly Review**, 1914. [Humanities Index](#), 1987. *World Christianity* Graham Joseph Hill, 2024-10-08. *World Christianity: An Introduction* provides an accessible introduction to the discipline, methodology and field of world Christianity. In this book, Graham Joseph Hill engages with more than one hundred high profile Majority World and First Nations Christian leaders to learn what they can teach the West about mission, leadership, hospitality, creation care, education, worship and more. Hill challenges the Western church to move away from a Eurocentric and Americentric view of church and mission and he calls for the church to engage with crucial paradigm shifts in world Christianity. The future of the global church, including the churches in the West, exists in these global exchanges.

World Christianity is an indispensable guide for the church as it navigates the unique global experiences of the twenty first century     The Deep Things of God Jon Paulien,2004 This practical handbook for studying the book of Revelation brings a fresh look and helpful insights to a sometimes perplexing book     Christian Witness Between Continuity and New Beginnings Martin Tamcke,Michael Marten,2006 Missions to from and within the Middle East have shaped the region in multitudinous ways since the 19th century This collection of essays from a range of international scholars explores this immensely significant subject using a range of disciplines including theology history and geography This interdisciplinary approach helps to provide a thorough overview of the often complex and multi layered topic of missions and the Middle East in contemporary research and will be of interest to all who seek to improve their understanding of the role of religion in the Middle East     **Paperbound Books in Print** ,1992     God in Deep Silence Pramodkumar Athirakam,2015-12-21 We have been destroying our mother earth for quite long years We dangerously forget that our planet is not only predestined as a dwelling place for human beings but for all living creatures also Here each generation is trying to make its own impact and foot print on this earth but unknowingly disturbing the very basic tranquility and rhythm of nature Over the centuries especially in the present we have begun to upset the sanctity and balance of nature We are greedily eating out our own life saving mechanism through all means Burning rain forests for industrial reasons re directing rivers killing birds and animals indiscriminately injecting hormones into meat and fruits polluting air and water over fishing earth quakes volcano flare up excess use of chemicals and pesticides thereby making death of soil forever and blazing oil fields are few ways to make this planet as the most unfit place to live Earth also starts retaliate through many ways and means Excess rainfall snow fall flood draught wide spread unknown diseases crack in the ozone layer resulting in dramatic increase of cancer etc are warning signals Now it is high time to wake up and save our planet or perish forever
