Democratic Education for Social Studies Anna S. Ochoa-Becker,2006-12-01 In the first edition of this book published in 1988 Shirley Engle and I offered a broader and more democratic curriculum as an alternative to the persistent back to the basics rhetoric of the 70s and 80s This curriculum urged attention to democratic practices and curricula in the school if we wanted to improve the quality of citizen participation and strengthen this democracy School practices during that period reflected a much lower priority for social studies Fewer social studies offerings fewer credits required for graduation and in many cases the job descriptions of social studies curriculum coordinators were transformed by changing their roles to general curriculum consultants The mentality that prevailed in the nation s schools was back to the basics and the basics never included or even considered the importance of heightening the education of citizens We certainly agree that citizens must be able to read write and calculate but these abilities are not sufficient for effective citizenship in a democracy This version of the original work appears at a time when young citizens teachers and schools find themselves deluged by a proliferation of curriculum standards and concomitant mandatory testing In the 90s virtually all subject areas including United States history geography economic and civics developed curriculum standards many funded by the federal government Subsequently the National Council for the Social Studies issued the Social Studies Curriculum Standards that received no federal support Accountability captured in the No Child Left Behind Act passed by Congress has become a powerful political imperative that has a substantial and disturbing influence on the curriculum teaching and learning in the first decade of the 21st century

Preserving History Scott Monroe Waring,2011-06-01 What and how to teach in the K 16 classroom history has been a perennial and at times heated debate Beginning as early as 1892 the question of what knowledge is of the most worth and what should be the central function of the history curriculum became a focus of many interested in education It was felt that the teachers needed to move away from traditional methods of teaching history such as rote memorization and the dry and lifeless system of instruction by textbook and find new and engaging ways to broaden and cultivate the mind Unfortunately these recommendations faced many critics and did not take hold in K 16 classrooms at this time or frankly at any point since then Even though we tend to have a nostalgic memory of earlier time periods and in

turn the educational capabilities of the children from various times in our nation's past the results from multiple studies examining the historical knowledge base of America's youth has remained fairly discouraging Much of the lack of knowledge present stems from the manner in which history is traditionally taught Ineffective instructional methods greatly impact the interest levels or more frequently the distaste generated for learning about historical content and thus the public's corresponding perception of the importance of history within K-16 curricula This book makes an effort at overcoming the persistent boredom and lack of historical knowledge present in our students by focusing on ways in which history instruction can be improved

Exemplary Elementary Social Studies Sherry L. Field, Jeff Passe, Andrea S. Libresco, Janet Alleman, 2014-04-01 In many elementary classrooms social studies has taken a back seat to English Language Arts and Mathematics in the wake of No Child Left Behind and Race to the Top This volume is not another hand wringing lament On the contrary the elementary educators who have contributed to this volume have a positive set of stories to tell about how social studies can play a central role in the elementary classroom how teachers can integrate social studies knowledge and skills throughout the school day and how this learning can carry over into children's homes and communities The seven case studies in this book one at each elementary grade level highlight exemplary teachers in whose classrooms social studies is alive and well in this age of accountability At the end of each case study each teacher provides advice for elementary teachers of social studies Our hope is that elementary teachers and prospective teachers elementary principals social studies supervisors staff developers and professors of elementary social studies methods who study the stories that we tell can be empowered to return social studies to its rightful place in the curriculum
