

A complex collage representing social problems. The background features a city skyline with smoke rising from it, suggesting industrial pollution. In the center, a large blue whale is depicted, possibly representing environmental issues. To the left, a crowd of people is shown, with one person holding a sign that says "CENTRE". In the foreground, a young child is looking up, and several people are wearing blue headscarves. East Asian Social Movements Jeffrey Broadbent, Vicky Brockman, 2011-01-07 In the study of civil society and social movements most cases are based in Western Europe and North America. These two areas of the world have similar histories and political ideals and structures in common which in turn affect the structure of its civil society. In studying civil society in Asia a different understanding of history, politics and society is needed. The region's long traditions of centralized authoritarian states buttressed by Confucian and in some cases Communist ideologies may render this concept irrelevant. The chapters in this international volume cover most of the areas and countries traditionally defined as belonging to East Asia: Japan, Taiwan, South Korea, Hong Kong, Singapore and China. The case studies included in this volume confront the utility of using the Western concept of civil society represented in its most active form: social movements to think about East Asia's popular politics. Along with providing an array of important case studies of social movements in East Asia, the introduction, chapters and conclusion in the book take up three major theoretical questions: the effect of the East Asian cultural, social and institutional context upon the mobilization activities and outcomes of social movements in that region; the role of social movements in larger transformative processes; utility of Western social movement concepts in explaining social movements in East Asia. This book will be of interest to two major groups of readers: those who study East Asia and those who pursue social movements and civil society as well as politics more generally.
