Courts Legal Process and Social Context is an introductory level text that offers a comprehensive study of the legal processes that guide criminal courts and the social contexts that introduce variations in the activities of actors inside and outside the court. Specifically, the text focuses upon Legal Processes. U.S. criminal courts are constrained by several legal processes and organizational structures that determine how the courts operate and how laws are applied. This book explores how democratic processes develop the criminal law in the United States: the documents that define law, federal and state constitutions, legal codes, administrative policies, the organizational structure of courts at the federal and state levels, the overlapping authority of the appeals process, and the effect of legal processes such as precedent, jurisdiction, and the underlying legal philosophies of various types of courts. Although most texts on criminal courts do a credible job of describing legal processes, this text looks more deeply into the origins of criminal law, historic turning points in the criminal law conditions that affect the decision making of criminal justice practitioners, and the contentious political process that affects how criminal laws are considered. Social Contexts: The criminal courts are staffed by people who represent different perspectives, occupational pressures, and organizational goals. The text includes chapters on actors in the traditional courtroom: workgroup, judges, prosecutors, and defense attorneys, as well as those outside the court who seek to influence it, including advocacy groups, media, and politicians. It is the interplay between the court's legal processes and the social actors in the courtroom that makes the application of the criminal laws so fascinating. By focusing on the tension between the law, legal processes, and the actors inside and outside the courts system, social contexts, this text demonstrates how the courts are a product of law in action and it presents the course content in a way that enables students to understand not only the how of the U.S. criminal court system but also the why. **National Union Catalog**, 1973 Includes entries for maps and atlases.
