**Social Psychophysiology** John T. Cacioppo, 1983      **Social Psychophysiology** John T. Cacioppo, Richard E. Petty,      **An Introduction to Social Psychology** James Alcock, Stan Sadava, 2014-07-21 Psychology recognises no borders The relationships between people and the groups they form are determined by similar principles no matter where in the world they come from This book has been written to introduce students from all countries and backgrounds to the exciting field of social psychology Recognising the limitations that come from studying the subject through the lens of any one culture James Alcock and Stan Sadava have crafted a truly international social psychology book for the modern era Based on classic and cutting edge scholarship from across the world An Introduction to Social Psychology encourages mastery of the basics as well as critical thinking Incorporating relevant insights from social neuroscience evolutionary theory and positive psychology it offers Chapters on crowd behaviour and applied social psychology Discussion of new means of social interaction including social media Relevant insights from social neuroscience evolutionary theory and positive psychology A companion website features extensive additional resources for students and instructors      **The Concise Corsini Encyclopedia of Psychology and Behavioral Science** W. Edward Craighead, Charles B. Nemeroff, 2004-04-19 Edited by high caliber experts and contributed to by quality researchers and practitioners in psychology and related fields Includes over 500 topical entries Each entry features suggested readings and extensive cross referencing Accessible to students and general readers Edited by two outstanding scholars and clinicians      **Connections Between Sexuality and Aggression** Dolf Zillmann, 2021-02-25 This is the only available comprehensive monograph on interrelations and interdependencies between agonistic and sexual behaviors Integrating theory and research from biology anthropology neurophysiology endocrinology psychophysiology and psychology this book focuses on the mechanisms that govern the mutual influences between sexuality and aggression in behavior sequences and especially in admixtures of aggressive sexual behaviors This book places human agonistic and sexual behaviors into an evolutionary context It offers a Weltbild of human aggressive sexual behaviors by tracing their biological and developmental origins and examines the plasticity and manipulability of connections between agonistic and sexual behaviors Strategies for the maximization of sexual pleasures are elaborated and intervention treatments aiming at the control of violent behaviors are considered Coercive sexuality is given special attention Prevalent motive ascriptions to rape are called into question and the motivation that dominates rape is reinterpreted in the context of pleasure maximization This second edition brings the coverage of pertinent research up to date It advances the exploration of aggressive sexual behaviors by further integrating the research contributions from various disciplines and by refining and unifying theory capable of explaining the behavioral phenomena under consideration COPY FOR ZILLMANN MAILER Zillmann examines issues such as sexual access through aggression the involvement of agonistic behavior within sexuality sex aggression fusion the consequences of anticipatory imagination concerning sexuality and aspects of libido loss due to excitatory habituation

This book also traces connection between sexuality and aggression in nonhuman species especially in nonhuman primates subjects human behavior to comparative and evolutionary analysis examines connectedness in neurological and endocrinological terms details both central and autonomic commonalities between sexual and aggressive behaviors outlines sexual dimorphism and chromosomal endocrine aberrations pays special attention to adrenal commonalities in sexual and aggressive behaviors and the fusion of these behaviors and examines aggressive sexual connectedness in the analysis of motivation and emotion Zillmann finally proposes new explanations for the numerous documented associations between sexuality and aggression These proposals combine biological neuroendocrine autonomic and cognitive aspects of aggressive and sexual behaviors A trichotomy of excitatory interdependencies is developed for fight flight and coition In the nomenclature of emotion this trichotomy concerns the interdependencies between aggressiveness fear and sexual impulsion A considerable amount of research evidence is aggregated in support of these interdependencies The author ultimately examines the exploitation of the existing connections between sexual and aggressive behaviors especially the exploitation that serves the enhancement of sexual pleasure In this context he arrives at novel and perhaps distressing characterizations of sexual coercion However he also explores sexual boredom and discusses remedies in the framework of his theorizing Last but not least sexual aggression and sexual and aggressive behaviors independently are placed into an evolutionary context Recognition and acknowledgment of the archaic nature of many aspects of sexual and aggressive behaviors in contrast to the comparatively vernal development of behavior guiding contemplation leads him to a unique and provocative proposal of the function of aggression in the realm of sexuality

**Drug and Alcohol Abuse Prevention** Roland R. Watson, 2012-12-06 A major national goal is to improve our health and advance our opportunities to pursue happiness Simultaneously there are increasing health care costs and increasing demands to accomplish more with less financial support Treatment costs can be reduced and health improved by preventing the toxic effects of drugs This first volume of our new series Drug and Alcohol to reduce the use and Abuse Reviews focuses on strategies abuse of common compounds known to cause major damage to health alcohol tobacco and illicit drugs such as cocaine and heroin With the number of deaths attributable to the consumption of alcohol in the US at about 100 000 per year the annual cost of addictions will be 150 billion by 1995 A variety of approaches to preventing drug abuse are being applied by governmental agencies and health care providers to reduce costs These include school based interventions driver education programs media interventions health warning labels physician guidance economic disincentives restricted availability punishments and penalties environmental protections and social support approaches With such a range of options it becomes critical to evaluate and choose the most effective systems for a given population We feel that the present collection of critical survey articles constitutes a thorough examination of the issues and strategies associated with prevention and trust that readers will find the book exceedingly helpful in understanding and planning what needs to be done
