Social Science Concepts In The Social Sciences:

Social Science Concepts Gary Goertz, 2006 To develop theories and research designs requires concepts Gary Goertz provides advice on the construction and use of social science concepts and their use in case selection and theories He also cites examples from political science and sociology to illustrate the theoretical and practical issues of concept construction and use

Social Science Concepts Giovanni Sartori, 1984 Scepticism about the science of social science is as widespread now as it has ever been Sartori and his colleagues attribute this lack of progress to the neglect of concept analysis Using the analytic procedure established by Sartori in the opening chapters the distinguished contributors to this book attempt to build a common consistent and communicable set of social scientific concepts

Social Science Delanty, Gerard, 2005-06-01 What is social science Does social scientific knowledge differ from other kinds of knowledge such as the natural sciences and common sense What is the relation between method and knowledge This concise and accessible book provides a critical discussion and comprehensive overview of the major philosophical debates on the methodological foundations of the social sciences From its origins in the sixteenth century when a new system of knowledge was created around the idea of modernity the author shows how the philosophy of social science developed as a reflection on some of the central questions in modernity Visions of modernity have been reflected in the self understanding of the social sciences From the positivist dispute on explanation vs understanding to controversies about standpoint to debates about constructivism and realism Delanty outlines the major shifts in the philosophy of social science He argues that social science is an intellectual framework for the transformation of the social world The new edition is updated and expanded throughout with the latest developments in the field including a new chapter on feminist standpoint epistemology and additional material on neo positivism pragmatism and reflexivity This is one of the most ambitious and wide ranging texts in recent years on debates on method and the contemporary situation of social science It is of interest to undergraduate students and postgraduates as well as to professional researchers with an interest in the philosophy of the social sciences and social theory

Social Science Concepts and Measurement Gary Goertz, 2020-09-29 A fully revised edition of the classic reference on concepts and their role in social science research Social Science Concepts and Measurement offers an updated look at the theory and methodology of concepts for the social sciences Emphasizing that most concepts are multilevel and multidimensional this revised edition continues to bring the qualitative and quantitative closer together with new chapters devoted to scaling aggregation and the methodological links between the semantics of concepts and numeric measures In addition it stresses that concepts are used for description and causal inference and contain normative judgments Initial chapters focus on conceptualization followed by chapters on issues of measurement The textbook examines concepts in the international arena such as the global performance indicators used by international organizations like the UN and the World Bank as well as classic paired concepts such as poverty and wealth democracy and authoritarianism and war and peace Additionally it

explores such topics as typologies hybrid concepts and how complex concepts constitute complex theories The volume serves as a guide to the methodology of concepts in the classroom and is accompanied by more than two hundred exercises **Social Science Concepts and Measurement** is an indispensable resource for graduate students and scholars **Elucidating Social Science Concepts** Frederic Charles Schaffer, 2015-07-24 Concepts have always been foundational to the social science enterprise This book is a guide to working with them Against the positivist project of concept reconstruction the formulation of a technical purportedly neutral vocabulary for measuring comparing and generalizing Schaffer adopts an interpretivist approach that he calls elucidation Elucidation includes both a reflexive examination of social science technical language and an investigation into the language of daily life It is intended to produce a clear view of both types of language the relationship between them and the practices of life and power that they evoke and sustain After an initial chapter explaining what elucidation is and how it differs from reconstruction the book lays out practical elucidative strategies grounding locating and exposing that help situate concepts in particular language games times and tongues and structures of power It also explores the uses to which elucidation can be put and the moral dilemmas that attend such uses By illustrating his arguments with lively analyses of such concepts as person family and democracy Schaffer shows rather than tells making the book both highly readable and an essential guide for social science research **Research Methods in the Social Sciences**

Jean-Frédéric Morin, Christian Olsson, Ece Özlem Atikcan, 2021 **Research Methods in the Social Sciences** is a comprehensive yet compact A Z for undergraduate and postgraduate students undertaking research across the social sciences featuring 71 entries that cover a wide range of concepts methods and theories Each entry begins with an accessible introduction to a method using real world examples from a wide range of academic disciplines before discussing the benefits and limitations of the approach its current status in academic practice and finally providing tips and advice for readers on when and how to apply the method in their own research Wide ranging and interdisciplinary the text covers both well established concepts and emerging ideas such as big data and network analysis for qualitative and quantitative research methods All entries feature extensive cross referencing providing ease of navigation and pointing readers to related concepts and to help build their overall understanding of research methods Catalog of NIE Education Products, 1978 *Catalog of NIE Education*

Products National Institute of Education (U.S.), 1975 **Interpretive Social Science** Mark Bevir, Jason Blakely, 2018 This volume introduces and argues for the fundamental importance of an interpretive approach to explaining social and political reality Critical Issues in Social Studies Research for the 21st Century William B. Stanley, 2001-06-01 The authors of the nine other chapters in this book have struggled with the issues discussed above in several different ways The chapter authors represent a wide range of views and expertise within the field of social studies Some have been leading social studies scholars for three or four decades Other authors represent new voices that have begun to shape the direction social studies will take in the future The topics examined here include the debate over how to define social studies social studies and the
