Social Structure And Cultural Change In The Saharia Tribe:

Social Structure and Cultural Change in the Saharia Tribe Debabrata Mandal,1998 The present book is not only the holistic study of these people but also emphasises their economic transformation in the varied ecology which ultimately brought some socio cultural changes in the life pattern of this tribe The author examined the factors responsible for their primitiveness This book is useful not only as an ethnographic documentation but it will help social scientists and social workers to understand the problems of the primitive tribe and possible prospects as well Cultural Heritage of Indian Tribes Prakash Chandra Mehta,Sonu Mehta,2007 Study conducted at eight districts of southern Orissa India

Developmental State and the Dalit Question in Madhya Pradesh: Congress Response Sudha Pai,2013-05-13 Dalit assertion has been a central feature of the states in the Hindi heartland since the mid 1980s leading to the rise of political consciousness and identity based lower caste parties The present study focuses on the different political response of the Congress party to identity assertion in Madhya Pradesh under the leadership of Digvijay Singh In Uttar Pradesh and Bihar in response to the strong wave of Dalit assertion that swept the region parties such as the Bahujan Samaj Party BSP and the Rashtriya Janata Dal RJD used strategies of political mobilisation to consolidate Dalit backward votes and capture state power In Madhya Pradesh in contrast the Congress party and Digvijay Singh at the historic Bhopal Conference held in January 2002 adopted a new model of development that attempted to mobilise Dalits and tribals and raise their standard of living by providing them economic empowerment This new Dalit Agenda constitutes an alternative strategy at gaining Dalit tribal support through of state sponsored economic upliftment as opposed to the political mobilisation strategy employed by the BSP in Uttar Pradesh The present study puts to test the limits of the model of state led development of the use of political power by an enlightened political elite to introduce change from above to address the weaker sections of society The working of the state is thus analysed in the context of the society in which it is embedded and the former s ability to insulate itself from powerful vested interests In interrogating this state led redistributive paradigm the study has generated empirical data based on extensive fieldwork and brought to the fore both the potentials and the limitations of using the model of development from above in a democracy It suggests that the absence of an upsurge from below limits the ability of an enlightened political elite that mans the developmental state to introduce social change and help the weaker sections of society Nobody's People Anastasia Piliavsky,2020-11-24 What if we could imagine hierarchy not as a social ill but as a source of social hope Taking us into a caste of thieves in northern India Nobody s People depicts hierarchy as a normative idiom through which people imagine better lives and pursue social ambitions Failing to find a place inside hierarchic relations the book s heroes are nobody s people perceived as worthless disposable and so open to being murdered with no regret or remorse Following their journey between death and hope we learn to perceive vertical non equal relations as a social good not only in rural Rajasthan but also in much of the world including settings stridently committed to equality

Challenging egalitarian normative commitments Anastasia Piliavsky asks scholars across the disciplines to recognize hierarchy as a major intellectual resource **Indian Books in Print** ,2003 *Indian National Bibliography* B. S. Kesavan,2000

generally presumed that tribals in India tend to be healthy living as they do in unpolluted surroundings away from the stresses and strains of modern living This no longer hold good as evident from the many health reports appearing with health related problems It is alarming that sufficient data regarding tribal health is not available with the government itself The plight of tribals whose health parameters are already well below the national average is worsening One of the basic factors which affect the tribal health is the physical environment from which majority of them draw their sustenance Degraded eco systems are no longer able to support tribal population many of whom have registered a higher growth rate than the national average On the contrary there are tribal communities which are actually declining and being threatened with extinction because of malnutrition which renders them more susceptible to disease The diseases which can be easily cured assume epidemic proportion among tribals because of isolation of their habitats illiteracy and lack of access to medical care The present study deals with human settlements human activities and health among tribals of Rajasthan Human settlements are territorially bounded social system or subsystems economic material culture religious political ethical educational legal social reproductive etc serving a resident population In the tradition of anthropological science the study was undertaken within total social and cultural context Although research work was carried in few villages but it did not confined only to those Village was chosen as unit of study because it is the most manageable functional unit in which a pattern of tribal culture and structure of tribal society could be studied The main purpose of the study was to obtain an integrated picture of the tribal s health and sickness nutritional status socio economic conditions settlement pattern and environ mental conditions against the background of existing medical and sanitary facilities available so as to discover the main health provision and necessary measures for bringing about improvement in the health care system
