promote the integration of disadvantaged immigrants. They have done so despite notable constraints on their political activities including limits on their lobbying and partisan electioneering, limited organizational resources and dependence on government funding. Immigrant rights advocates also operate in a national context focused on immigration enforcement rather than immigrant integration. In *Making Immigrant Rights Real*, Els de Graauw examines how immigrant serving nonprofits can make impressive policy gains despite these limitations. Drawing on three case studies of immigrant rights policies: language access, labor rights and municipal ID cards in San Francisco, de Graauw develops a tripartite model of advocacy strategies that nonprofits have used to propose, enact and implement immigrant friendly policies: administrative advocacy, cross sectoral and cross organizational collaborations and strategic issue framing. The inventive development and deployment of these strategies enabled immigrant serving nonprofits in San Francisco to secure some remarkable new immigrant rights victories and de Graauw explores how other cities can learn from their experiences. *Human Services as Complex Organizations*, Yeheskel Hasenfeld, 2010. This new edition looks at the many recent changes in the arena of Human Services Organizations. The Columbia Guide to Social Work Writing, Warren J. Green, Barbara Levy Simon, 2012. Social work practitioners write for a variety of publications and they are expected to show fluency in a number of related fields. Whether the target is a course instructor, scholarly journal, fellowship organization or general news outlet, social workers must be clear, persuasive and comprehensive in their writing, especially on provocative subjects. This first of its kind guide features top scholars and educators providing a much needed introduction to social work writing and scholarship. Foregrounding the process of social work writing, the coeditors particularly emphasize how to think about and approach one's subject in a productive manner. The guide begins with an overview of social work writing from the 1880s to the present and then follows with ideal strategies for academic paper writing, social work journal writing and social work research writing. A section on applied professional writing addresses student composition, in field education writing for and about clinical practice, the effective communication of policy information to diverse audiences, program and proposal development, advocacy and administrative writing. The concluding section focuses on specific fields of practice including writing on child and family welfare, contemporary social issues, aging and intervention in global contexts. Grounding their essays in systematic observations, induction and deduction and a wealth of real world examples, the contributors describe the conceptualization, development and presentation of social work writing in ways that better secure its power and relevance. Social Workers Affecting Social Policy, John Gal, Idit Weiss-Gal, 2014-06-04. Furthering social justice and human rights is a fundamental principle underlying the social work profession. Engaging in social policy formulation processes is a major route through which social workers can realise this goal. This type of social work activity has been termed policy practice. The aim of this book is to shed light on policy practice in social work discourse, education and practice in eight liberal democracies. This is the first effort to undertake a cross national study of social worker engagement in social policy formulation processes. The

book offers insights into questions such as what is the importance attributed to social worker involvement in policy change in the social work discourse and education in different countries and how do social workers influence social policy in various national settings These issues are relevant to social worker practitioners students educators and researchers as well as to social policy scholars who are interested in the role of professionals in social policy formulation
