Socialism From Below:

Socialism from Below Hal Draper, 1992 *Socialism from Below* McNally, David, International Socialists (Toronto, Ont.), 1984 **Socialism from Below** David McNally, 1984 **Socialism from Below** Renton Dave, 2013-06

Argumentative contentious and thought provoking these collected articles invite us to critically reconnect as a diaspora to the IS tradition not only of Cliff or Harman but also Hallas Kidron Sedgwick MacIntyre Harris Widgery Higgins and many others many unsung This is the extension of an invitation to reconnect not as a lifeless antiquarian exercise or arrogant exclusivism but in the spirit of the critical slogan the IS tradition is dead Long Live the IS tradition Jules Alford Preface The essays collected here were written by Socialist Workers Party SWP member Dave Renton in the midst of the biggest crisis in the history of that organisation Covering topics from anti racism and womens liberation trade union work and the history of the SWP and its dissident tradition Renton argues that the SWP requires a radical democratic overhaul if it is to prove fit for purpose as a home to revolutionary socialists and new generations of anti capitalists in the years to come **Upping the**

Anti #2 , Socialism from Below David McNally, 1980 **Radicals, Revolutionaries, and Society** R. G.

Williams, 2025-04-17 This book is a study of radicals revolutionaries and society Specifically it tries to look at the historical social and political struggles of radicals in modern politics since the emergence of modern politics after the French Revolution of 1789 While the book is a political study the main focus is that of a socialist study as a Socialist argument for the vital political role of radicals and revolutionaries in creating modern society The main focus of the book is on how radicals and revolutionaries usually change modern society for the better through their struggle for democracy freedom and socialism

Building Power from Below Carolina Bank Muñoz, 2017-09-15 A story that involves as its main players workers and Walmart does not usually have a happy ending for labor so the counternarrative offered by Building Power from Below is must reading for activists and union personnel as well as scholars In 2008 Walmart acquired a controlling share in a large supermarket chain in Santiago Chile As part of the deal Walmart had to accept the unions that were already in place Since then Chilean retail and warehouse workers have done something that has seemed impossible for labor in the United States they have organized even more successful unions and negotiated unprecedented contracts with Walmart In Building Power from Below Carolina Bank Mu oz attributes Chilean workers success in challenging the world s largest corporation to their organizations commitment to union democracy and building strategic capacity Chilean workers have spent years building grassroots organizations committed to principles of union democracy Retail workers unions have less structural power but have significant associational and symbolic power Their most notable successes have been in fighting for respect and dignity on the job Warehouse workers by contrast have substantial structural power and have achieved significant economic gains While the model in Chile cannot necessarily be reproduced in different countries we can gain insights from the Chilean workers approaches tactics and strategies The Two Souls of Socialism Hal Draper, 1960 From a Marxist Feminist

Point of View Nancy Holmstrom, 2024-07-15 This book shows the fruitfulness of approaching key philosophical and political questions from a Marxist feminist point of view The idea is that different modes of production like capitalism and feudalism have structures relations of production which shape and limit the potentials for human emancipation in general and women s freedom in particular Capitalism is then understood as a framework within which other relations of oppression operate with more or less salience in different times and places Each of the essays takes this basic approach to key philosophical questions about freedom rationality and human nature

Political Economy from Below Rob Knowles, 2017-07-05 Communitarian anarchism is a generic form of socialism that denies the need for a state or any other authority over the individual from above and which requires absolute belief that the individual cannot exist outside of a community of others This book suggests that the communitarian anarchists of the nineteenth century developed and articulated a distinct tradition of economic thought The period of this study begins with the first major writing of the French communitarian anarchist Pierre Joseph Proudhon in 1840 and ends with the temporary burial of anarchist theorizing at the beginning of the First World War in 1914 However he tradition of communitarian anarchist economic thought did not end in 1914 The economic thought explored in this book provides a fresh perception of the fragmentation evident in many societies today especially where there is a substantial informal economy

The Two Souls of Socialism Hal Draper, 1963

Made in Indonesia Dan La Botz, 2001 A dynamic new labor movement emerged in Indonesia in the 1990s helping to bring down the brutal Suharto dictatorship in 1998 Through rare personal interviews with the activists who are leading the rebirth of struggle for democratic rights in the world s fourth largest country La Botz draws valuable lessons for workers in the United States seeking to build international labor solidarity

Socialism from Below in the United States Milton Fisk, 1977

Corbynism Matt Bolton, Frederick Harry Pitts, 2018-09-24 Corbynism as a political movement is now in the ascendancy and conceivably is also on the verge of power This book provides a critical overview of what Corbynism is above and beyond Jeremy Corbyn himself placing it within the context of populist left and right movements that have taken hold across the globe

Trump, the Alt-Right and Public Pedagogies of Hate and for Fascism Mike Cole, 2018-10-03 Trump the Alt Right and Public Pedagogies of Hate and for Fascism What Is To Be Done uses public pedagogy as a theoretical lens through which to view discourses of hate and for fascism in the era of Trump and to promote an anti fascist and pro socialist public pedagogy It makes the case for re igniting a rhetoric that goes beyond the undermining of neoliberal capitalism and the promotion of social justice and re aligns the left against fascism and for a socialism of the twenty first century Beginning with an examination of the history of traditional fascism in the twentieth century the book looks at the similarities and differences between the Trump regime and traditional Western post war fascism Cole goes on to consider the alt right movement the reasons for its rise and the significance of the internet being harnessed as a tool with which to promote a fascistic public pedagogy Finally the book examines the resistance against these discourses and addresses the question of what is to be done This topical book will be of great

interest to scholars to postgraduate students and to researchers as well as to advanced undergraduate students in the fields of education studies pedagogy and sociology as well as readers in general who are are interested in the phenomenon of Trumpism

Neoliberal Globalisation and Resistance from Below Jasper Abembia Ayelazuno, 2018-08-15 As bearers of their own emancipation the political agency of the subaltern classes is a vexed question a time honoured one at that Why do the subalterns endure injustices without revolting most of the time but revolt sometimes against some injustices The euphoria of globalisation from below this book argues skirts responsibility of addressing this question by presuming a groundswell of resistance across the world against neoliberal globalisation In contrast to this oeuvre Neoliberal Globalisation and Resistance from Below engages this question squarely by using the socio historical approach to explain why the subalterns resist neoliberal globalisation in Bolivia and not in Ghana The author urges scholars of critical political economy to pay greater attention to why the subalterns resist rather than how they resist or what the ideal end of their resistance should be Such refocusing of the research and political lens will yield a more realistic picture of what is politically possible in the social context of peripheral capitalism regarding an anti capitalist revolution The author further argues that this refocusing will cure many of the romantic anti capitalist claims and banal wishful thinking of a socialist revolution in peripheral capitalist regions such as Latin American The Middle East and North Africa MENA and Sub Saharan Africa Neoliberal Globalisation and Resistance from Below will be of interest to students and scholars of African politics neoliberalism globalisation political economy and subaltern politics

George Padmore and Decolonization from Below L. James, 2014-10-14 This book argues that the rising tide of anti colonialism after the 1930s should be considered a turning point not just in harnessing a new mood or feeling of unity but primarily as one that viewed empire racism and economic degradation as part of a system that fundamentally required the application of strategy to their destruction

Law and Globalization from Below Boaventura de Sousa Santos, César A. Rodríguez-Garavito, 2005-09-08 This book is an unprecedented attempt to analyze the role of the law in the global movement for social justice Case studies in the book are written by leading scholars from both the global South and the global North and combine empirical research on the ground with innovative sociolegal theory to shed new light on a wide array of topics Among the issues examined are the role of law and politics in the World Social Forum the struggle of the anti sweatshop movement for the protection of international labour rights and the challenge to neoliberal globalization and liberal human rights raised by grassroots movements in India and indigenous peoples around the world These and other cases the editors argue signal the emergence of a subaltern cosmopolitan law and politics that calls for new social and legal theories capable of capturing the potential and tensions of counter hegemonic globalization
