Knowledge and Politics (RLE Social Theory) Volker Meja, Nico Stehr, 2014-08-13 Karl Mannheim s Ideology and Utopia has been a profoundly provocative book The debate about politics and social knowledge that was spawned by its original publication in 1929 attracted the most promising younger scholars some of whom shaped the thought of several generations The book became a focus for a debate on the methodological and epistemological problems confronting German social science More than thirty major papers were published in response to Mannheim s text Writers such as Hannah Arendt Ernst Robert Curtius Max Horkheimer Herbert Marcuse Helmuth Plessner Hans Speier and Paul Tillich were among the contributors Their positions varied from seeing in the sociology of knowledge a sophisticated reformulation of the materialist conception of history to linking its popularity to a betrayal of Marxism The English publication in 1936 defined formative issues for two generations of sociological self reflection Knowledge and Politics provides an introduction to the dispute and reproduces the leading contributions It sheds new light on one of the greatest controversies that have marked German social science in the past hundred years

Capitalism and Social Theory: Rajani K. Kanth,2015-07-17 This work examines the complex detailed relationship between the theory of wealth and the theory of power both subsumed as they are under the overarching mantle of capitalist ideology ever distorting real connections and evading critical issues It examines various theories of class state and power either explicitly or implicitly avowed in the diverse social science disciplines of politics economics and sociology In illuminating the subtle machinations of ideology it boldly reveals the realist ontology of capitalism which produces illusory theory The essays employ transcendental realism emphasizing the primacy of ontology over epistemology as a mode of critique necessarily going beyond traditional Marxian arguments in many cases Although intended only as an analytical critique the project is emancipatory of necessity for it allows ultimately for an increased purchase on reality **Developing**

Main Currents in Sociological Thought: Volume Two Raymond Aron,2025-05-06 The second volume of the landmark study examining the work of sociology s defining thinkers from the turn of the nineteenth century to the interwar period Main Currents in Sociological Thought remains a foundational synthesis in the field In this second and final volume of his classic survey Raymond Aron explores the work of three figures who profoundly shaped sociology as it entered the twentieth century Durkheim who continued Comte s quest for a science of society and a scientific validation of morality Pareto the Italian neo Machiavellian who emphasized the elitist character of all societies and Weber the German sociologist who reflected critically on the prospects for human freedom in an age of disenchantment Bringing together penetrating intellectual portraits of these great thinkers and close readings of their most consequential texts Main Currents in Sociological Thought highlights the historical and intellectual context within which each man wrote and draws out their works enduring insights and influence in the field today *From Neo-Marxism to Democratic Theory* Andrew Arato,2016-09-16 The essays in this volume trace an intellectual odyssey a search for a genuinely critical theory The book begins with the question of why the Frankfurt School as well as other neo Marxist and post Marxist analysts both in the West

and in dissident circles in the East failed to produce a critical theory of Soviet socialism or to establish a dynamic relationship with contemporary social movements As the political struggle in Eastern Europe intensified the author of this book disengaged from his own efforts to reconstruct a critical Marxism Instead he attempts a reconstruction of democratic theory based on civil society rather than class categories and with a critical relevance not only to the transition from state socialism but more generally to the universal goal of emancipation
