**The Socialist Register 1993** Ralph Miliband,1993 With the recent collapse of so much that formed socialist expectations in the twentieth century and yet at the same time with a global capitalist order which is full of severe massive and urgent problems we live in a period of great political confusion In such a period it is inevitable that nostrums are advanced both on the Right and on the Left which are incapable of tackling seriously the problems they are supposed to resolve We conceived this volume as addressing a broad range of dead end or morbid symptom responses to various aspects of the current global disorder offering analyses of why they arise as well as a critique and corrective to them We deliberately cast our net widely the essays in this volume highlight important aspects of our theme in relation to environmentalism feminism social democracy and revolutionary socialism and they also address real problems and false solutions as they pertain to postmodernism nationalism constitutionalism and immigration

Intellectual Radicalism after 1989 Sebastian Berg,2017-03-15 Left wing intellectuals in Britain and the US had long repudiated the Soviet regime Why was the collapse of the Eastern Bloc experienced as a shock that destabilised their identities and political allegiances then What happened to a collective project that had started out to formulate a socialist vision different from both really existing socialism and social democracy This study endeavours to answer both questions focusing on generational networks rather than individuals and investigating political academic journals after 1989 to paint the picture of a Left deeply troubled by the triumph of a capitalism unfettered by any counter force

Political Theory Rajeev Bhargava,2008 Karl Marx Kevin B. Anderson,2017-05-15 Marx s approach to analyzing society and especially his critique of capitalist society continues to influence the work of a large number of scholars world wide Unfortunately there are relatively few clear accounts of what

this approach is and how to put it to use And despite the many attempts to use Marx s method to study a variety of subjects there are relatively few that can serve as useful models In the present volume the internationally renowned Marxist scholar Bertell Ollman and the social theorist Kevin B Anderson have brought together a sampling of the best writings of the past hundred years that illustrate and critique Marx s method as well as explain what it is and how to put it to work Anyone wishing to understand better Marx s dialectical method along of course with the theories created with its help or to revise this method or to criticize it or to use it in their own work will find this collection invaluable

**South Africa Pushed to the Limit** Hein Marais,2013-07-04 Since 1994 the democratic government in South Africa has worked hard at improving the lives of the black majority yet close to half the population lives in poverty jobs are scarce and the country is more unequal than ever For millions the colour of people s skin still decides their destiny In his wide ranging incisive and provocative analysis Hein Marais shows that although the legacies of apartheid and colonialism weigh heavy many of the strategic choices made since the early 1990s have compounded those handicaps Marais explains why those choices were made where they went awry and why South Africa s vaunted formations of the left old and new have failed to prevent or alter them From the real reasons behind President Jacob Zuma s rise and the purging of his predecessor Thabo Mbeki to a devastating critique of the country s continuing AIDS crisis its economic path and its approach to the rights and entitlements of citizens South Africa Pushed to the Limit presents a riveting benchmark analysis of the incomplete journey beyond apartheid

*Information Society and Civil Society* Slavko Splichal,Andrew Calabrese,Colin Sparks,1994 A number of authors including several contributors to this collection argue that on the eve of the 21st century civil society is beginning to disintegrate everywhere In this volume fifteen scholars from ten different countries address that argument by problematizing the relation between the older concept civil society and the newer one information society and offering perspectives on future directions

Political Theory and Power Sarah Joseph,2004 This book draws attention to certain significant changes in the way in which power has been defined and it also examines some of the critical responses which those changes have evoked The objective is not to try and evolve a universally acceptable and comprehensive definition of power and of related terms like authority and influence The argument of the book is that that would be an impossible project since social and political theories themselves constitute an intervention into political discourse of a society and they may implicitly or explicitly embody a political perspective

**The Wages of Relief** Eric Strikwerda,2013 The Wages of Relief examines the Depression experiences of three municipal governments Edmonton Saskatoon and Winnipeg and the individuals and families who relied on them for unemployment relief through the 1930s

*Critical International Political Economy* Stuart Shields, Ian Bruff, Huw Macartney, 2011-02-01 Amidst the continued debate surrounding the foundations of IPE coupled with recent methodological and theoretical divides this book argues that an attempt should be made to re visit the notion of the critical The challenge posed by contributors to this volume is to assess the development of so called critical IPE and interrogate whether the theoretical foundations it was built upon have reached their potential The essays in this volume take up this challenge in a number of different ways but all share a common concern to re assess the purpose of critical approaches reflect on why certain social theorists have been favoured as a point of departure yet others have largely been ignored In light of recent debates on the notion of a trans Atlantic divide within IPE the collection the contributors aim demonstrates how the distinction between the critical and the orthodox or empirical is only significant if the critical is geared towards a larger more substantial body of critical social enquiry and engages with what it means to conduct such enquiry **Global Political Economy** Bill Dunn, 2008-11-20 This is an ambitious survey of the history and state of the world economy covering the major upheavals of the capitalist system over the last 100 years Bill Dunn provides an original and enlightening explanation of the state of the world economy He covers all the main aspects of global political economy explaining the theories behind production trade finance and relations between rich and poor countries He also tackles the question of the origin of capitalism a debate that always proves popular among students and

**South Africa: Limits To Change** Hein Marais, 2001-09-08 Drawing on the rich structural and political understandings of radical South African intellectuals this book explains why the South African government has been unable to breach the boundaries of change erected by the privileged classes It reveals why it has adopted conservative economic policies and why the country's popular movement has failed to press home more radical opinions Hein Marais compellingly probes the hidden dynamics of South Africa's transition arguing that the democratic breakthrough was much less open ended than generally believed
