Society and the Homosexual Michael George Schofield, Gordon Westwood, 1953 **Society and the Homosexual** Michael George Schofield, 1952 *Society and the Healthy Homosexual* George Weinberg, 2024-08-06 Society and the Healthy Homosexual by George Weinberg Ph D was hailed as a landmark when first published It is the book that pioneered the concept of widespread prejudice against homosexuals homophobia It explores the psychological factors underlying that prejudice and offers advice to help individuals overcome the prejudice and accept their sexuality **The Homosexual and Society** Robert B. Marks Ridinger, 1990-04-23 This bibliography pulls together a scattered literature of popular periodical articles monographs and sources from the legal press to create a picture of the treatment of the homosexual in both contemporary and past societies Subject coverage has been limited to eight areas of society in which homophobic attitudes have been frequently expressed the military child custody adoption and foster care religion censorship employment and police community relations This arrangement facilitates access to information on the desired topics Sources cited in this work are those which are most accessible Annotations expand the scope of entries and are cross referenced Both legal and alternative press sources are included for greater scope A pioneering work The Homosexual and Society opens up a subfield of research in the social sciences that has been neglected and merits wider consideration This bibliography is suitable for college and research libraries state historical associations public libraries of all sizes law libraries and specialized research facilities in the social sciences **Society and the Homosexual** Michael Schofield, Gordon (Pseud of Michael Georg Westwood, 1985-03-11 **The Homosexual Society** Richard Hauser, 1962 Anecdotal sociological study intended as a follow up to the Wolfenden Report of 1957 but attitude ranges from patronizing to homophobic Feels that societal changes will do much to lower the number of homosexuals Misha Schutt **Toward Stonewall** Nicholas C. Edsall, 2006 As recently as the 1970s gay and lesbian history was a relatively unexplored field for serious scholars The past quarter century however has seen enormous growth in gay and lesbian studies The literature is now voluminous it is also widely scattered and not always easily accessible In *Toward Stonewall* Nicholas Edsall provides a much needed synthesis drawing upon both scholarly and popular writings to chart the development of homosexual subcultures in the modern era and the uneasy place they have occupied in Western society Edsall's survey begins three hundred years ago in northwestern Europe when homosexual subcultures recognizably similar to those of our own era began to emerge and it follows their surprisingly diverse paths through the Enlightenment to the early nineteenth century The book then turns to the Victorian era tracing the development of articulate and self aware homosexual subcultures With a greater sense of identity and organization came new forms of resistance this was the age that saw the persecution of Oscar Wilde among others as well as the medical establishment's labeling of homosexuality as a sign of degeneracy The book's final section locates the foundations of present day gay subcultures in a succession of twentieth century scenes and events in pre Nazi Germany in the lesbian world of interwar Paris in

the law reforms of 1960s England culminating in the emergence of popular movements in the postwar United States Rather than examining these groups in isolation the book considers them in their social contexts and as comparable to other subordinate groups and minority movements In the process *Toward Stonewall* illuminates not only the subcultures that are its primary subject but the larger societies from which they emerged ***A Lasting Relationship*** Jeremy Seabrook,1976

assimilationists that has raged since the Stonewall era and explores how political success tipped the balance and facilitated the rise of the gay Right ***Homosexuality*** William Paul,Society for the Psychological Study of Social Issues,SPSSI Task Force on Sexual Orientation,1982-08 Over thirty essays cover every issue relating to homosexuality and the changing attitude towards it The biology of homosexuality its psychology new approaches to counselling for gays the process of coming out male and female gay relationships gay parenthood and other social political and cultural topics are addressed Its 22 authors collectively present a significant contribution to the armamenarium of all those who seek in whatever way to answer rationally the irrational prejudicial assumptions and accusations hurled at lesbian women and gay men The authors critically report on the research provide a rich source of suggestions for future research including cautions concerning methodology and suggest plans ***Homosexuality in Renaissance England*** Alan Bray,1995 First published in 1982 by Gay Men s Press Reissued in 1995 with a new afterword and updated bibliography ***A History of Homosexuality in Europe, Vol. I & II*** Florence Tamagne,2006 Just crawling out from under the Victorian blanket Europe was devastated by a

Christopher Marlowe Richard Wilson, 2014-07-15 Christopher Marlowe has provoked some of the most radical criticism of recent years There is an elective affinity it seems between this pre modern dramatist and the post modern critics whose best work has been inspired by his plays The reason suggested by this collection of essays is that Marlowe shares the post modern preoccupation with the language of power and the power of language itself As Richard Wilson shows in his introduction it is no accident that the founding essays of New Historicism were on Marlowe nor that current Queer Theorists focus so much on his images of gender and homosexuality Marlowe staged both the birth of the modern author and the origin of modern sexual desire and it is this unique conjunction that makes his drama a key to contemporary debates about the state and the self from pornography to gays in the military Gay Studies Cultural Materialism New Historicism and Reader Response Criticism are all represented in this selection which the introduction places in the light not only of theorists like Althusser Bataille and Bakhtin but also of artists and writers such as Jean Genet and Robert Mapplethorpe Many of the essays take off from Marlowe s extreme dramatisations of arson cruelty and aggression suggesting why it is that the thinker who has been most convincingly applied to his theatre is the philosopher of punishment and pain Michel Foucault Others explore the exclusiveness of this all male universe and reveal why it remains so offensive and impenetrable to feminism For what they all make disturbingly clear is Marlowe s violent untamed difference from the clichés and correctness of normative society

Public Religion and the Politics of Homosexuality in Africa Adriaan van Klinken, Ezra Chitando, 2016-04-14 Issues of same sex relationships and gay and lesbian rights are the subject of public and political controversy in many African societies today Frequently these controversies receive widespread attention both locally and globally such as with the Anti Homosexuality Bill in Uganda In the international media these cases tend to be presented as revealing a deeply rooted

homophobia in Africa fuelled by religious and cultural traditions But so far little energy is expended in understanding these controversies in all their complexity and the critical role religion plays in them This is the first book with multidisciplinary perspectives on religion and homosexuality in Africa It presents case studies from across the continent from Egypt to Zimbabwe and from Senegal to Kenya and covers religious traditions such as Islam Christianity and Rastafarianism The contributors explore the role of religion in the politicisation of homosexuality investigate local and global mobilisations of power critically examine dominant religious discourses and highlight the emergence of counter discourses Hence they reveal the crucial yet ambivalent public role of religion in matters of sexuality social justice and human rights in contemporary Africa
