Society In Question Sociological Readings For The 21st Century:

Society in Question Robert J. Brym, 2001-01 **Society in Question**, 2001 *Society in Question* is designed to supplement the main textbook in an introductory sociology course *Society in Question* Robert J. Brym, 2005

Rethinking Society in the 21st Century, Fourth Edition Kate Bezanson, Michelle Webber, 2016-09-01 *Rethinking Society in the 21st Century* is a critical collection of readings that provides students with a foundational knowledge base in sociology. The fourth edition has been thoroughly updated to include significant Canadian content with a greater focus on indigeneity, gender and sexuality and a new section dedicated to social movements, social change and emerging fields. This anthology introduces students to the fundamental elements of sociology with a balance of classical theory (Marx, Weber, Durkheim, Mills) and more contemporary approaches found in the works of Michel Foucault and Dorothy Smith. Building on this theoretical grounding, the text outlines core concepts in sociology as well as major social institutions such as families, the economy and labour, education, health care and media. Covering a wide breadth of topics including chapters on animals, the environment, crime, trans issues, class, ethnicity and race, this new edition explores critical debates in Canadian society with an emphasis on intersectional approaches to social inequalities. This volume is rich with pedagogical features that promote critical understanding, including detailed introductions that speak to the contextual history of the source material and discussion questions for each section. Uniquely designed for introductory courses, *Rethinking Society in the 21st Century* is the ideal reader for Canadian students of sociology. *Society in Question* Robert J. Brym, 1999 **Evolutionary Psychology and**

Information Systems Research Ned Kock, 2010-07-28 This book is a compilation of chapters written by leading researchers from all over the world. Those researchers' common characteristic is that they have investigated issues at the intersection of the fields of information systems (IS) and evolutionary psychology (EP). The main goal of this book is to serve as a reference for IS research building on EP concepts and theories in short IS/EP research. The book is organized in three main parts. Part I focuses on EP concepts and theories that can be used as a basis for IS/EP research. Part II provides several exemplars of IS/EP research in practice and Part III summarizes emerging issues and debate that can inform IS/EP research, including debate regarding philosophical foundations and credibility of related findings. IS/EP research is generally concerned with the use of concepts and theories from EP in the study of IS, particularly regarding the impact of modern information and communication technologies on the behavior of individuals, groups and organizations. From a practitioners' perspective, the most immediate consumers of IS/EP research are those who develop and use IS, of which a large contingent are in businesses that employ IS to support marketing, order taking, production and delivery of goods and services. In this context, IS/EP findings may be particularly useful due to the present need to design web-based interfaces that will be used by individuals from different cultures and often different countries and whose common denominator is their human nature. **Power, Politics, and Society** Betty A. Dobratz, 2015-10-14 *Power Politics Society: An Introduction to Political Sociology* discusses how sociologists

have organized the study of politics into conceptual frameworks and how each of these frameworks foster a sociological perspective on power and politics in society This includes discussing how these frameworks can be applied to understanding current issues and other real life aspects of politics The authors connect with students by engaging them in activities where they complete their own applications of theory hypothesis testing and forms of inquiry
