Pollution R M Harrison,2023-01-17 Twenty years on from the first edition of Pollution and the topic remains high in the public awareness Environmental pollution is now a major area of research consultancy and technological development and is a priority for the political agendas of both the developed and developing worlds The fifth edition of this book is fully updated and includes an entirely new chapter on Climate Change presenting an authoritative view on this topic Chapters in fast moving areas have been completely revised and several newcomers have joined the original set of authors This popular book has proved invaluable as a teaching resource for two decades and is frequently used as a reference by practitioners in the field Readers of earlier editions will benefit from updates on technologies such as nanoscience and the legislative changes that have occurred since the fourth edition in 2001

Proceedings of the 2025 5th International Conference on Enterprise Management and Economic Development (ICEMED 2025) Prasad Siba Borah,Norhayati Zakuan,Nazimah Hussin,Azlina Binti Md Yassin,2025-08-14 This is an open access book 2025 5th International Conference on Enterprise Management and Economic Development ICEMED 2025 will be held in Dali China from May 30 to June 1 2025 Enterprise management is the general term for a series of functions such as organizing planning commanding supervising and regulating the production and operation activities of enterprises Relative to economic growth economic development is the core concept of development economics Economic development refers to the high quality development of the economy including quality and quantity rather than merely the growth of quantity Enterprise management covers economics management business management financial management human resource management and other aspects and is a comprehensive interdisciplinary science that spans natural science engineering science technical science and humanities and social science Enterprise management comes into being with the development of modern socialized mass production The use of modern management means and methods to manage enterprises ensure the survival and development of enterprises and play a positive role in promoting economic development ICEMED 2025 will bring together experts and scholars from relevant fields to discuss the relationship between enterprise management and economic development Reasonable enterprise management is an important way to promote the economic development of enterprises

Scientific and reasonable use of industrial and commercial enterprise management knowledge can reasonably carry out effective macro control on the enterprise economy and ensure the stable progress and development of the enterprise economy

Democracy and Media in Europe Nico Carpentier, Jeffrey Wimmer, 2024-12-06 Democracy and Media in Europe A Discursive Material Approach is a theoretical reflection on the intersection of democracy and media through a constructionist lens This focus allows us to understand current political struggles over democracy and over media s democratic roles with the latter ranging from the traditional support for an informed citizenry and the watchdog role to the organization of agonistic debate and generating fair and dignified representations of society and its many sub groups to the facilitation of maximalist participation in institutionalized politics and media Moreover the book s reconciliation of democratic theory and media theory brings out a detailed theoretical analysis of the core characteristics of the assemblages of democracy and media their conditions of possibility and the threats to both democracy and media s democratic roles This short book provides in depth reflections on the different positions that can be taken when it comes to the performance of democracy as it intersects with the multitude of media in the 21st century As such the volume will be of interest to scholars of media and communication and related fields in the social sciences The Open Access version of this book available at <http://www.taylorfrancis.com> has been made available under a Creative Commons Attribution Non Commercial No Derivatives CC BY NC ND 4 0 license

Changing Relationships Between Higher Education and the State Mary Henkel, Brenda Little, 1999 Examining the patterns of change in relationships between higher education systems and the state throughout Europe the contributors explore the main theoretical and policy options available to policymakers and the issues they raise for governments institutions and academics The book covers the following themes the funding of higher education the impacts of quality assurance and evaluation higher education and graduate employment managing diversity in higher education systems the impact of change on the internal structures of higher education institutions Changing Relationships Between Higher Education and the State provides both descriptive models of the relationships and authoritative and incisive analysis of the politics economics and organisation of advanced learning in Europe today

Perspectives on Digital Humanism Hannes Werthner, Erich Prem, Edward A. Lee, Carlo Ghezzi, 2021-11-23 This open access book aims to set an agenda for research and action in the field of Digital Humanism through short essays written by selected thinkers from a variety of disciplines including computer science philosophy education law economics history anthropology political science and sociology This initiative emerged from the Vienna Manifesto on Digital Humanism and the associated lecture series Digital Humanism deals with the complex relationships between people and machines in digital times It acknowledges the potential of information technology At the same time it points to societal threats such as privacy violations and ethical concerns around artificial intelligence automation and loss of jobs ongoing monopolization on the Web and sovereignty Digital Humanism aims to address these topics with a sense of urgency but with a constructive mindset The book argues for a Digital Humanism that

analyses and most importantly influences the complex interplay of technology and humankind toward a better society and life while fully respecting universal human rights It is a call to shaping technologies in accordance with human values and needs

Ceramics and Society Valentine Roux, 2019-02-14 Pottery is the most ubiquitous find in most historical archaeological excavations and serves as the basis for much research in the discipline But it is not only its frequency that makes it a prime dataset for such research it is also that pottery embeds many dimensions of the human experience ranging from the purely technical to the eminently symbolic The aim of this book is to provide a cutting edge theoretical and methodological framework as well as a practical guide for archaeologists students and researchers to study ceramic assemblages As opposed to the conventional typological approach which focuses on vessel shape and assumed function with the main goal of establishing a chronological sequence the proposed framework is based on the technological approach Such an approach utilizes the concept of chaîne opératoire which is geared to an anthropological interpretation of archaeological objects The author offers a sound theoretical background accompanied by an original research strategy whose presentation is at the heart of this book This research strategy is presented in successive chapters that are geared to explain not only how to study archaeological assemblages but also why the proposed methods are essential for achieving ambitious interpretive goals In the heated debate on the equation stating that pots equal people which is a rather fuzzy reference to assumed relationships between mostly ethnic groups and pottery technology enables us to propose with conviction the equation pots equal potters In this way a well founded history of potters is able to achieve a much better cultural and anthropological understanding of ancient societies

Team Academy in Diverse Settings Berrbizne Urzelai, Elinor Vettraino, 2022-01-13 Within Entrepreneurship Education Team Academy TA is seen by some as an innovative pedagogical model that enhances social connectivity as well as experiential student centred and team based learning It also creates spaces for transformative learning to occur This fourth book of the Routledge Focus on Team Academy book series the TA model is examined outside of the traditional TA based settings industry schools communities of practice etc in different countries Brazil Japan UK Finland Argentina Tanzania Spain etc The legacy that this has left in learners and practitioners who have engaged with the model is also explored This book is aimed at academics practitioners and learners engaged in the Team Academy methodology pedagogy and model as well as those interested in the area of entrepreneurial team learning Readers will be inspired to innovate in their delivery methodologies and to explore learning by doing approaches to creating value The book also aims to challenge the discourse around entrepreneurship and entrepreneurial activities offering insights research stories and experiences from those learning and working in the Team Academy approach
