## **Society Against The State:**

*Society Against the State* Pierre Clastres, 2020-09-29 In this seminal founding work of political anthropology Pierre Clastres takes on some of the most abiding and essential questions of human civilization What is power What is society How among all the possible modes of political organization did we come to choose the monolithic State model and its accompanying regimes of coercion As Clastres shows other and different regimes do indeed exist and they existed long before ours regimes in which power though it manifests itself everywhere is nonetheless noncoercive In such societies political culture and cultural practices generally are not only not submissive to the State model but they actively avert it rendering impossible the very conditions in which coercive power and the State could arise How then could our own societies of the State ever have arisen from these rich and complex stateless societies and why Clastres brilliantly and imaginatively addresses these questions meditating on the peculiar shape and dynamics of so called primitive societies and especially on the discourses with which civilized i e political economic literate peoples have not ceased to reduce and contain them He refutes outright the idea that the State is the ultimate and logical density of all societies On the contrary Clastres develops a whole alternate and always affirmative political technology based on values such as leisure prestige and generosity Through individual essays he explores and deftly situates the anarchistic political and social roles of storytelling homosexuality jokes ruinous gift giving and the torturous ritual marking of the body placing them within an economy of power and desire very different from our own one whose most fundamental goal is to celebrate life while rendering the rise of despotic power impossible Though power itself is shown to be inseparable from the richest and most complex forms of social life the State is seen as a specific but grotesque aberration peculiar only to certain societies not least of which is our own Not for sale in the U K and British Commonwealth South Africa Burma Jordan and Iraq

## **The State against Society** Grzegorz

Ekiert, 1996-09-30 Classical images of state socialism developed in contemporary social sciences were founded on simple presuppositions State socialist regimes were considered to be politically stable due to their pervasive institutional and ideological control over the everyday lives of their citizens impervious to reform and change and representative of extreme political and economic dependency Despite their contrasting historical experiences they have been treated as basically identical in their institutional design social and economic structures and policies Grzegorz Ekiert challenges this notion in a comparative analysis of the major political crises in post 1945 East Central Europe Hungary 1956 63 Czechoslovakia 1968 76 and Poland 1980 89 The author maintains that the nature and consequences of these crises can better explain the distinctive experiences of East Central European countries under communist rule than can the formal characteristics of their political and economic systems or their politically dependent status He explores how political crises reshaped party state institutions redefined relations between party and state institutions altered the relationship between the state and various groups and organizations within society and modified the political practices of these regimes He shows how these events transformed

cultural categories produced collective memories and imposed long lasting constraints on mass political behavior and the policy choices of ruling elites These crises shaped the political evolution of the region produced important cross national differences among state socialist regimes and contributed to the distinctive patterns of their collapse **The Bible Society Against the Church and State** Andrew O'Callaghan,1817 **Societies Against the State** Brian C. State against Civil Society Cameron Ross,2017-10-02 Over the period December 2011 July 2013 a tidal wave of mass protests swept through the Russian capital and engulfed scores of cities and regions These demonstrations came as a great shock to the Russian political establishment After decades of passive acceptance of the status quo it appeared that civil society was at last awakening The protests came in the wake of the Arab Spring revolts which toppled authoritarian dictators in Tunisia Egypt and Libya However by the end of 2013 the number of mass protests in Russia and their size had declined precipitously President Putin on returning to office in 2012 had quickly regained the upper hand over the protestors This book examines the reasons for the rise and fall of the mass protests in the Russian Federation Internationally renowned experts in the field of Russian politics from Russia and the UK provide important new insights into the nature of the mass opposition movement the non systemic opposition its strengths and its weaknesses A key novel aspect of the study is its focus on the national and regional dimensions of the protest movement and its class and ethnic dimensions This book was published as a special issue of Europe Asia Studies Society Against the State Pierre Clastres,2007

SOCIO-ECONOMIC DEVELOPMENT OF MODERN UKRAINIAN SOCIETY AGAINST THE BACKGROUND OF EUROPEAN TRANSFORMATIONS Levchuk K., Bogatchuk S., Bogatchuk V., Belkin I., Makarov Z,2023-10-25 The collective monograph is devoted to the study of trends in the development of modern Ukrainian society The research uses an interdisciplinary approach which allows analyzing various aspects of the development of social processes in Ukraine and obtaining socially significant scientific results The subject of Kostyantyn Levchuk s scientific interests is the study of the activities of public organizations of Ukraine in the first half of the 90s of the 20th century The economic crisis contributed to the strengthening of the social vector in the activities of public organizations Legislated social guarantees were not fully implemented which prompted public organizations to use various forms and methods aimed at protecting vulnerable social strata in the context of the crisis The practical and law making activities of the most significant public organizations are analyzed the Red Cross Society of Ukraine organizations for the protection of the rights of veterans and victims of the accident at the Chernobyl nuclear power plant Svitlana Bogatchuk s scientific research covers the period of Soviet collectivization of the Ukrainian countryside in 1932 1933 which became one of the most terrible pages of our history Many scientific works are devoted to the study of this problem It was analyzed that the greatest losses during the Holodomor period of 1932 1933 were observed among the peasants of Ukraine although there were also deaths among the urban population Huge child mortality is a direct consequence of Stalin s policy of collectivization The Bolshevik authorities hushed up and denied the fact of famine in

Ukraine Ihor Belkin s scientific research is focused on the study of the process of marketing planning of entrepreneurial activity The modern global practice of managing campaigns that have achieved significant economic success shows numerous examples of the application of planning one s own economic processes On the other hand as the analysis shows when companies do not apply planning they mostly face bankruptcy problems With the development of market relations the planning of economic processes at enterprises requires more and more attention In our country the first business plans appeared at the beginning of the 90s of the last century however with the development of the market economy and the spread of international cooperation the need to develop a plan is becoming more urgent Nowadays planning is becoming a mandatory process which is necessary to improve the methods of calculating the economic efficiency of management decisions and the feasibility of investment investments In the work of Zorislav Makarov the methodological legitimation of randomness in scientific knowledge is proposed by explicating the possibilities of the activity approach to its study In particular as a result of the analysis of the relationship between rationality and randomness in the structure of general scientific methods cognitive and sociological sources of randomness in the pragmatic scientific method stochastic parameters in the post nonclassical dynamics of scientific knowledge as well as subjective and objective prerequisites for the post nonclassical emancipation of rationality and determinism were revealed At the end of the study the status of humanities and natural sciences in the perspective of post non classical integration is outlined The content of the collective monograph corresponds to the research direction of the Department of History of Ukraine and Philosophy of Vinnytsia National Agrarian University The monograph is the result of the initiative topic Research of trends in socio economic development and consolidation of Ukrainian society in the modern history of Ukraine State registration number 0122U001425 Head of subject Doctor of Science Professor K I Levchuk The monograph uses socio philosophical approach historical genetic method statistical analysis sociological and economic research methods

**KORN AND WISEMILLER v. THE MUTUAL ASSURANCE SOCIETY AGAINST FIRE ON BUILDINGS OF THE STATE OF VIRGINIA, 10 U.S. 192 (1810)** ,1810 File No 422 *Problems of Communism* ,1990 Civil Society Organizations Against Terrorism Rohan Gunaratna,Mohd Mizan Aslam,2021-03-25 With recent changes in social and political landscapes around the world the focus of preventive counter terrorism has shifted in many places from government to civil society The contributors analyze the different approaches of Civil Society Organizations in preventing and countering violent extremism in various countries in South and Southeast Asia The cases examined include Malaysia Indonesia Myanmar Sri Lanka and Bangladesh The key emphasis is on understanding the context within which each example was initiated and the factors that determined their relative success or failure The evidence from these cases suggests that much can be achieved through empowering communities to engage in aiding both the indoctrinated and those who pose the greatest risk of radicalization A valuable contribution to the literature on preventing and countering violent extremism **Civil Society and Democracy Promotion** T. Beichelt,I. Hahn,F.

Schimmelfennig, S. Worschech, 2016-01-06 With contributions from experts on democracy promotion this volume examines civil society development and external civil society promotion in post socialist Europe It focuses on countries with a failed or deficient process of democratic consolidation looking at unintended consequences of external democracy promotion on civil society development

The Role of Civil Society in Transitional Justice Selbi Durdiyeva, 2023-09-01 This book examines how civil society engages with transitional justice in Russia demonstrating a broad range of roles civil society can undertake while operating in a restrictive political context Based on sociolegal research the study focuses on three types of civil society groups dealing with the legacies of the Soviet repression in Russia a prominent organisation that works on recovering historical truth the International Memorial a parish of the Orthodox Church of Russia operating at a former mass execution and mass burial site the Church at Butovo and contentious groups that could hinder attempts at reckoning and promote state narratives built on the Stalinist and WWII victory myths This book explores an often overlooked case of Russia's transitional justice from below It provides insights into how even in authoritarian contexts civil society can adopt imaginative piecemeal and at times unconventional ways of seeking justice outside and in the absence of official and institutionalised transitional justice measures This book will appeal to scholars of transitional justice memory studies human rights and democratic and civil society theory as well as policymakers and practitioners in these fields and others with interests in Russian and post Soviet studies

Associations and the Chinese State: Contested Spaces Jonathan Unger, 2014-12-18 What role do Chinese popular associations play in the expansion of civil society and democratization Under Mao few associations were permitted to exist while today over 200 000 associations are officially recognized Are they important foundations of civil society or vehicles for state corporatism and control In this book leading China specialists examine an interesting range of associations from business associations to trade unions to urban homeowners associations women's groups against domestic violence and rural NGOs that develop anti poverty programs The contributors find different important trends underway in different parts of China's economy and society Their findings are nuanced insightful and often not what might be expected

**Politics and Government in Hong Kong** Ming Sing, 2008-09-15 This book examines the government of Hong Kong since its handover to mainland China in 1997 focusing in particular on the anti government mass protests and mobilisations in the years since 2003 It argues that Hong Kong has been poorly governed since transferring to Chinese rule and that public frustration with governmental performance including anti subversion laws and slow democratisation has resulted in the regular and massive protests which have been rare in Hong Kong's past political development The book then assesses different explanations for Hong Kong's government problems including lack of social cohesion incomplete economic restructuring structural budgetary deficit severe social inequality intensifying cronyism and deficiencies within the political system itself It goes on to discuss the implications of poor governance for legislative

elections civil society and constitutional development and considers the prospects for the future It argues that although in the short term the Hong Kong government has managed to maintain its popular support ratings in the longer run it is unlikely to be able to maintain its legitimacy in dealing with the fundamental challenges of government unless the current system is replaced by popular election of the government with appropriate institutional capacity and political powers

The Legal Status and Perspectives of Ethnic Minorities in European States Magdalena Butrymowicz,2022-03-02 The way we exist in society defines our place in its social structures and reaffirms our belonging identity and dignity Europe is a continent characterized by many internal conflicts and ongoing struggles inside societies The battlefield is society itself where state law clashes with ethnic law over the very identity of society Exploring debates from Scandinavia to Spain about the religious and political autonomy and freedom this book explains that the violation of the rights of ethnic minorities and indigenous peoples such as the Sami and Basque peoples remains a problem in Europe In addition to these political conflicts Magdalena Butrymowicz analyzes the legal and religious culture within minority ethnic structures themselves Ultimately this book raises timely questions about the balance between state control and legal autonomy for ethnic minorities across Europe advocating for a new definition of ethnic law as the right of ethnic minorities creating their legal and ethnic identity The book will interest anyone exploring the dynamic between European states and the ethnic minorities that live in them *Society Against Itself* Howard S. Schwartz,2018-05-08 Political correctness involves much more than a restriction of speech It represents a broad cultural transformation a shift in the way people understand things and organize their lives a change in the way meaning is made The problem addressed in this book is that for reasons the author explores some ways of making meaning support the creation and maintenance of organization while others do not Organizations are cultural products and rely upon psychological roots that go very deep The basic premise of this book is that organizations are made up of the rules common understandings and obligations that the father represents and which are given meaning in the oedipal dynamic In anti oedipal psychology however they are seen as locuses of deprivation and structures of oppression Anti oedipal meaning then is geared toward the destruction of organization **The Political Economy of Civil Society and Human Rights**

Gary B. Madison,2002-09-10 Madison uses the concept of civil society and his distinctive version of communicative rationality to provide a closely argued and robust defence of the neo liberal political and economic tradition Writing with considerable elegance and humour the author draws on the hermeneutical and neo pragmatist traditions and on a diverse range of evidence and discussion mainly concerning transitional economies and societies in Eastern Europe and around the world Providing a systematic analysis of the multi faceted notion of civil society this book shows in detail how the three main orders of civil society the moral cultural the political and the economic constitute spheres of autonomy At the same time it illustrates how these different orders are closely interrelated and interact in a synergetic manner A unique feature of this study is the

way in which the author demonstrates how the logic of the various orders of civil society is in a way appropriate to the distinct nature of each order a logic of communicative rationality The work concludes by arguing that the only sure way of achieving international justice is by the construction of civil society world wide
