S. F. Pickering, Massimo Rosati, 2012 Until recently the subject of suffering and evil was neglected in the sociological world and was almost absent in Durkheimian studies as well This book aims to fill the gap with particular reference to the Durkheimian tradition by exploring the different meanings that the concepts of evil and suffering have in Durkheim's works together with the general role they play in his sociology It also examines the meanings and roles of these concepts in relation to suffering and evil in the work of other authors within the group of the *Ann e sociologique* up until the beginning of World War II Finally the Durkheimian legacy in its wider aspects is assessed with particular reference to the importance of the Durkheimian categories in understanding and conceptualizing contemporary forms of evil and suffering

Religion, Theology and the Human Sciences Richard H. Roberts, 2002 *Religion Theology and the Human Sciences* explores the religious consequences of the so called end of history and triumph of capitalism as they have impinged upon key institutions of social reproduction in recent times The book explores the imposition of managerial modernity upon successive sectors of society and shows why many people today feel themselves to be oppressed by systems of management that seem to leave them no option but to conform Richard Roberts seeks to challenge and outflank such seamless oppressive modernity through reconfiguration of the religious and spiritual field **Theology in a Social Context** Professor Robin

Gill, 2013-06-28 Over the last 30 years a number of theologians have been using aspects of sociology alongside the more traditional resources of philosophy In turn sociologists with an interest in theology have also contributed to an interaction between theology and sociology The time is right to revisit the dialogue between theologians and sociologists In his new trilogy on Sociological Theology Robin Gill makes a renewed contribution to the mapping of three abiding ways of relating theology and sociology with the three volumes covering *Theology in a Social Context* *Theology Shaped by Society* *Society Shaped by Theology* *Theology in a Social Context* argues that a sociological perspective properly understood can make an important contribution to theology Part I looks carefully at various objections raised by both theologians and sociologists maintaining instead that a proper understanding of social context is a prerequisite for effective theology Part II suggests that a sociological perspective offers crucial insights into resurgent forms of fundamentalism Part III offers a fresh account of social context in the modern world once thought by sociologists and theologians alike to consist simply of increasing

Powell,2015-10-30 Irenaeus Joseph Smith and God Making Heresy seeks both to demonstrate the salience of heresy as a tool for analyzing instances of religious conflict far beyond the borders of traditional historical theology and to illuminate the apparent affinity for deification exhibited by some persecuted religious movements To these ends the book argues for a sociologically informed redefinition of heresy as religiously motivated opposition and applies the resulting concept to the historical cases of second century Christians and nineteenth century Mormons Ultimately Irenaeus Joseph Smith and God Making Heresy is a careful application of the comparative method to two new religious movements highlighting the social processes at work in their early doctrinal developments **In Gods We Trust** Thomas Robbins,2017-07-12 Much has changed since publication of the first edition of this established text in the sociology of religion Revised and expanded this edition emphasizes new patterns of religious change and conflict emerging in the United States in the latter part of the twentieth century Leading scholars describe and analyze developments in five main areas The fundamentalist and evangelical revival challenge and renewal in mainline churches spiritual innovation and the so called New Age women s movements and issues and their impact and politics and civil religion Chapters include an examination of religious movements responses to AIDS Christian schools quasi religions healing rites and goddess worship recruitment of women to charismatic and Hassidic groups televangelists and the

The Genesis of Doctrine Alister E. McGrath, 1997-05 Alister E McGrath begins his book by critically engaging the views of George Lindbeck on doctrine before moving on to present a fresh understanding of the nature and function of Christian doctrine within the church Particular attention is paid to the way in which doctrine acts as a demarcator between communities of faith providing important insights into contemporary ecumenical debates McGrath also explores the crucial issue of the authority of the past in Christian theology focusing especially on how doctrine serves to maintain continuity within the Christian tradition The Genesis of Doctrine represents an exploration of a middle way in relation to the significance of Christian doctrine rejecting both those approaches that insist on the uncritical repetition of the doctrinal heritage of the past and those that disallow the authority of past doctrinal formulations The book concludes by considering whether doctrine has a future within the church answering this question in the affirmative on the basis of a number of important theological and cultural considerations

Product Description Explores the crucial issue of the authority of the past in Christian theology focusing especially on how doctrine serves to maintain continuity within the Christian tradition

Women Towards Priesthood Jacqueline Field-Bibb, 1991-02-22 This book charts the aspirations of women towards priesthood and the resistance that they have encountered It brings together a record of official documents and debates on the issue that takes place over the last two hundred years in the English Methodist Church the Church of England and the Roman Catholic Church These debates are interpreted at a number of levels and the author draws on sociology history biblical studies theology and psychoanalysis in the course of her presentation In the author's view it is the patriarchalisation of ecclesiastical structures and the subsequent theological and christological justification given over to this which emerges as a recurring pattern in the debate Dr Field Bibb offers a feminist analysis of such resistance to the ordination of women in an attempt to break down what she sees as the false consciousness engendered by the propagation of subversive symbols

Health Care and Christian Ethics Robin Gill, 2006-02-16 How can Christian ethics make a significant contribution to health care ethics in today's Western pluralistic society Robin Gill examines the moral gaps in secular accounts of health care ethics and the tensions within specifically theological accounts He explores the healing stories in the Synoptic Gospels identifying four core virtues present within them compassion care faith and humility that might bring greater depth to a purely secular interpretation of health care ethics Each of these virtues is examined in turn using a range of topical issues including health care rationing genetics HIV AIDS withholding withdrawing nutrition from PVS patients and the empirical evidence which suggests a connection between religion and health Professor Gill also argues that these four virtues are shared by other major religious and humanistic traditions and that together with secular principles they can enrich health care ethics even in a pluralistic society
