Feminism and Men Steven Schacht, Doris Ewing, 1998-10 Too often feminism has been defined as a woman only arena or in competitive terms of male versus female privilege rather than as a cooperative effort to improve the quality of life for everyone Indeed a good deal of feminist scholarship has failed to take into account the relational nature of gender preferring instead to focus on the ways in which men and women are irreconcilably opposed With a view to beginning a more constructive dialogue between women and men the contributors to *Feminism and Men* argue that the feminist movement can no longer stand to view with suspicion those men who have proved themselves sympathetic to issues of gender equity Bringing together the work of scholars across various disciplines committed to maximizing the inclusion of pro feminist men in the feminist movement the book convincingly demonstrates how and why feminist goals cannot be realized until men and women come together to eliminate the shared harm of patriarchal realities Contributors include R W Connell Riane Eisler Kay Leigh Hagan bell hooks Christine A James Robert Jensen Michael S Kimmel Gary Lemons Michael Messner Matthew Shepherd and John Stoltenberg
