Beyond the Good Girl Jail Sandra Felt, 2016-02-02 Contrary to common theories it is not only good to focus internally but it s actually healthy to the point of being crucial to developing a loving spiritual self Here Felt uniquely describes the process of that growth and how each step feels in vivid detail utilizing right brain language and poetry that emphasizes experiential maturation in addition to left brain comprehension Beyond the Good Girl Jail is unique in that it is written from a neutral encouraging developmental point of view rather than a mental health point of view which is sometimes interpreted as judgmental and shaming It is theoretical in the basics yet practical It is psychological yet not steeped in pathological jargon

Part of the appeal of Felt's approach is her use of case examples and illustrations of the Self Principles in various common situations. When you listen from a deeper place you hear a deeper truth. This stick to the ribs book will have readers thinking long after reading it. They will not only remember the words and stories but they will experience a shift in their language and a surprising growth in their choices. *Just faith* Stephan de Beer, 2018-12-01. The purpose of this scholarly book is to expand the body of knowledge available on urban theology. It introduces readers to the concept of planetary urbanisation with the view of deepening an understanding of urbanisation and its all pervasive impact on the planet, people and places from a theological perspective. A critical theological reading of the urban is also provided, deliberating on bridging the divide between voices from the Global South and the Global North. In doing so, this book simultaneously seeks out robust and dynamic faith constructs expressed in various forms and embodiments of justice. The methodology chosen transcended narrow disciplinary boundaries, situating reflections between and across disciplines in the interface between scholarly reflection and an activist faith, as well as between local rootedness and global connectedness. This was facilitated by the collected gathering of authors spanning all continents, various Christian faith traditions and multiple disciplines, as well as a range of methodological approaches. The book endeavours to contribute to knowledge production in a number of ways. Firstly, it suggests the inadequacy of most dominant faith expressions in the face of all pervasive forces of urbanisation and it also provides clues as to the possibility of fostering potent alternative imaginaries. Secondly, it explores a decolonial faith that is expressed in various forms of justice. It is an attempt to offer concrete embodiments of what such a faith could look like in the context of planetary urbanisation. Thirdly, the book does not focus on one specific urban challenge or mode of ministry but rather introduces the concept of planetary urbanisation and then offers critical lenses with which to interrogate its consequences and challenges. It considers concrete and liberating faith constructs in areas ranging from gender, race, economic inequality, a solidarity economics and housing to urban violence, indigeneity and urbanisation, the interface between economic and environmental sustainability and grass roots theological education. **Co-Parenting from the Inside Out** Karen L. Kristjanson, 2017-12-02. *Co Parenting from the Inside Out* shares real life stories of co parenting in diverse circumstances to show what worked, what didn't and how worthwhile the parental effort can be in helping children survive and thrive. 曹淑娟, 2003.
