Mintz, 2009-09-18 Shows how women can reenergize their sex lives by using a Five T s plan consisting of thoughts talk time touch and trysts **The Nobler Sex** Florence Marryat, 1892 I Loved Her in the Movies Robert Wagner, Scott Eyman, 2017-11-07 Film and television actor and New York Times bestselling author Robert Wagner s memoir of the great women movie stars he has known In a career that has spanned more than sixty years Robert Wagner has witnessed the twilight of the Golden Age of Hollywood and the rise of television becoming a beloved star in both media During that time he became acquainted both

professionally and socially with the remarkable women who were the greatest screen personalities of their day I Loved Her in the Movies is his intimate and revealing account of the charisma of these women on film why they became stars and how their specific emotional and dramatic chemistries affected the choices they made as actresses as well as the choices they made as women Among Wagner s subjects are Joan Crawford Bette Davis Marilyn Monroe Gloria Swanson Norma Shearer Loretta Young Joan Blondell Irene Dunne Rosalind Russell Dorothy Lamour Debra Paget Jean Peters Linda Darnell Betty Hutton Raquel Welch Glenn Close and the two actresses whom he ultimately married Natalie Wood and Jill St John In addition to offering perceptive commentary on these women Wagner also examines topics such as the strange alchemy of the camera how it can transform the attractive into the stunning and vice versa and how the introduction of color brought a new erotic charge to movies one that enabled these actresses to become aggressively sexual beings in a way that that black and white films had only hinted at Like Wagner s two previous bestsellers I Loved Her in the Movies is a privileged look behind the scenes at some of the most well known women in show business as well as an insightful look at the sexual and romantic attraction that created their magic

The Psychology of Sex (Vol. 1-6) Havelock Ellis,2020-12-17 This edition contains three studies which seem to me to be necessary prolegomena to that analysis of the sexual instinct which must form the chief part of an investigation into the psychology of sex The first sketches the main outlines of a complex emotional state which is of fundamental importance in sexual psychology the second by bringing together evidence from widely different regions suggests a tentative explanation of facts that are still imperfectly known the third attempts to show that even in fields where we assume our knowledge to be adequate a broader view of the phenomena teaches us to suspend judgment and to adopt a more cautious attitude So far as they go these studies are complete in themselves their special use as an introduction to a more comprehensive analysis of sexual phenomena is that they bring before us under varying aspects a characteristic which though often ignored is of the first importance in obtaining a clear understanding of the facts the tendency of the sexual impulse to appear in a spontaneous and to some extent periodic manner affecting women differently from men This is a tendency which later I hope to make still more apparent for it has practical and social as well as psychological implications Here and more especially in the study of those spontaneous solitary manifestations which I call auto erotic I have attempted to clear the ground and to indicate the main lines along which the progress of our knowledge in these fields may best be attained
