penalty cases for students and practitioners The book integrates research with best practice recommendations yielding a solid foundation of information related to capital punishment death penalty litigation and more **Prisoner Voices from**

Death Row Reena Mary George,2016-03-03 Death penalty has produced endless discourses not only in the context of prisons prisoners and punishment but also in various legal aspects concerning the validity of death penalty the right to life and torture Death penalty is embedded in Indian law however very little is known about the people who are on death row barring a few media reports on them The main objective of this book is to enquire whether the dignity of prisoners is upheld while they confront the criminal justice system and whilst surviving on death row Additionally it explores the lived experiences and perceptions of prisoners on death row as they create meaning out of their world With this rationale 111 prisoners on death row in India and some of their family members were interviewed The theoretical underpinnings of phenomenology and symbolic interactionism coupled with data analysis lead to an understanding of the prisoners on death row with special reference to their demographic profile and the impact of death sentence on their families George s research highlights three salient features namely poverty social exclusion and marginalisation are antecedent to death penalty death penalty is a constructed account by the state machinery and prisoners on death row situate dignity higher in the juxtaposition of death and dignity **The Death of Desire** M. Guy Thompson,2016-07-07 A stunning exploration of the relation between desire and psychopathology The Death of Desire is a unique synthesis of the work of Laing Freud Nietzsche and Heidegger that renders their often difficult concepts brilliantly accessible to and usable by psychotherapists of all persuasions In bridging a critical gap between phenomenology and psychoanalysis M Guy Thompson one of the leading existential psychoanalysts of our time firmly re situates the unconscious what Freud called the lost continent of repressed desires in phenomenology In so doing he provides us with the richest most compelling phenomenological treatment of the unconscious to date and also makes Freud s theory of the unconscious newly comprehensible In this revised and updated second edition to the original published in 1985 M Guy Thompson takes us inside his soul searching seven year apprenticeship with radical psychiatrist R D Laing and his cohorts as it unfolded in counterculture London of the 1970s This rite de passage culminates with a four year sojourn inside one of Laing s post Kingsley Hall asylums where Laing s unorthodox conception of treatment dispenses with conventional boundaries between doctor and patient In this unprecedented exploration Thompson reveals the secret to Laing s astonishing alternative to the conventional psychiatric and psychoanalytic treatment schemes Movingly written and deeply personal Thompson shows why the very concept of mental illness is a misnomer and why sanity and madness should be understood instead as inherently puzzling stratagems that we devise in order to protect ourselves from intolerable mental anguish The Death of Desire offers a provocative and challenging reappraisal of depth psychotherapy from an existential perspective that will be of interest to psychoanalysts psychotherapists philosophers social scientists and students of the human condition **The Death Penalty** Roger Hood,Carolyn Hoyle,2015-01-08 The fifth edition of this highly praised study

charts and explains the progress that continues to be made towards the goal of worldwide abolition of the death penalty The majority of nations have now abolished the death penalty and the number of executions has dropped in almost all countries where abolition has not yet taken place Emphasising the impact of international human rights principles and evidence of abuse the authors examine how this has fuelled challenges to the death penalty and they analyse and appraise the likely obstacles political and cultural to further abolition They discuss the cruel realities of the death penalty and the failure of international standards always to ensure fair trials and to avoid arbitrariness discrimination and conviction of the innocent all violations of the right to life They provide further evidence of the lack of a general deterrent effect shed new light on the influence and limits of public opinion and argue that substituting for the death penalty life imprisonment without parole raises many similar human rights concerns This edition provides a strong intellectual and evidential basis for regarding capital punishment as undeniably cruel inhuman and degrading Widely relied upon and fully updated to reflect the current state of affairs worldwide this is an invaluable resource for all those who study the death penalty and work towards its removal as an international goal
