The Decadent Imagination 1880 19:

The Decadent Imagination, 1880-1900 Jean Pierrot, 1981 Examines the theme of decadence in French literature art and philosophy and as a forerunner of art nouveau and surrealism **English Literature in Transition, 1880-1920**, 2004

Beyond the Glitter Rosemary C. LoDato, 1999 The influence of the plastic arts especially painting and sculpture upon the Hispanic literary movement known as Modernismo is well documented Although numerous studies have referred to gems Beyond the Glitter focuses upon the significance of gems and jewels in elaborating Modernismo's complex aesthetics The role of gems and jewelry is discussed in the poetics of three prominent Modernista writers Ruben Dario Ramon del Valle Inclin and Jose Asuncion Silva The conclusion underscores how the rich and varied symbolism associated with jewelry and precious gems enriched the poetics of Modernista writers because it enabled them to articulate their quest for ideal beauty expressive of a sublime state of mind and spirit Catholicism, Controversy and the English Literary Imagination, 1558-1660 Alison

Shell, 1999-07-08 The Catholic contribution to English literary culture has been widely neglected or misunderstood This book sets out to rehabilitate a wide range of Catholic imaginative writing while exposing the role of anti Catholicism as an imaginative stimulus to mainstream writers in Tudor and Stuart England It discusses canonical figures such as Sidney Spenser Webster and Middleton those whose presence in the canon has been more fitful and many who have escaped the attention of literary critics Among the themes to emerge are the anti Catholic imagery of revenge tragedy and the definitive contribution made by Southwell and Crashaw to the post Reformation revival of religious verse in England Alison Shell offers a fascinating exploration of the rhetorical stratagems by which Catholics sought to demonstrate simultaneous loyalties to the monarch and to their religion and of the stimulus given to the Catholic literary imagination by the persecution and exile so many of these writers suffered **Decadence and Orientalism in England and Germany, 1880-1920** Katharina

Herold-Zanker, 2024-04-05 Decadence and Orientalism in England and Germany 1880 1920 examines the Orientalist portrayal of Middle Eastern cultures in Decadent Literatures in England and Germany at the turn of the century This book argues that the role of Orientalism in literary Decadence uniquely exposes its paradoxical engagement with other cultures In bringing together two fin de si cle European literatures this comparative study makes a case for the transnational if not imperial nature of Decadence The East emerges as an indispensable mediator between various versions of European Decadence The book examines the role of the East with specific reference to selected English and German authors starting from Oscar Wilde's Victorian vision of Egypt and Arthur Symonds's and Violet Fane's image of Constantinople it moves to Paul Scheerbart's and Else Lasker-Schler's Decadent Babylon and Assyria and concludes by turning to Stefan George's exclusion of the East from his poetic practice The geographical reach of the East focuses on regions of the Eastern Mediterranean and Northern Africa The cultural translation of specifically the Middle East into different European national contexts gains new sometimes oppositional meanings avoiding a one-sided representation of both the East and the two national literatures that

absorbed it In arguing for a Decadent cosmopolitanism as a model of heterogeneous inclusivity that reaches beyond the binaries established by Edward Said's Orientalism the present book brings twenty first century theories of cosmopolitanism into dialogue with art history and literature to uncover striking synergies and interdependences between the different manifestations of Decadence in England and Germany **Neurology and Literature, 1860-1920** A. Stiles, 2007-09-28 This collection demonstrates how late Victorian and Edwardian neurology and fiction shared common philosophical concerns and rhetorical strategies Between 1860 and 1920 witnessed unprecedented interdisciplinary collaboration between scientists and artists finding common ground in the prevailing intellectual climate of biological determinism *American Moderns* Christine Stansell, 2010 In the early twentieth century a brand of men and women moved to New York City For them the city's immigrant neighborhoods provided a place where the fancies and forms of a new America could be tested This book tells the story of most famous of these neighborhoods Greenwich Village which became a symbol of social and intellectual freedom

Ravel the Decadent Michael J. Puri, 2012-03-27 Ravel the Decadent offers a bold new perspective on the music of Maurice Ravel by locating its aesthetic origins in the French Decadence and demonstrating this influence across the length of his oeuvre The notions of memory sublimation and desire are invoked to delineate the Decadent profile of this music

Literature, Technology and Magical Thinking, 1880-1920 Pamela Thurschwell, 2001-07-05 In this 2001 book Pamela Thurschwell examines the intersection of literary culture the occult and new technology at the fin de siècle Thurschwell argues that technologies began suffusing the public imagination from the mid nineteenth century on they seemed to support the claims of spiritualist mediums Talking to the dead and talking on the phone both held out the promise of previously unimaginable contact between people both seemed to involve magical thinking Thurschwell looks at the ways in which psychical research the scientific study of the occult is reflected in the writings of such authors as Henry James George du Maurier and Oscar Wilde and in the foundations of psychoanalysis This study offers provocative interpretations of fin de siècle literary and scientific culture in relation to psychoanalysis queer theory and cultural history **The Decadent Republic of Letters** Matthew Potolsky, 2012-10-15 While scholars have long associated the group of nineteenth century French and English writers and artists known as the decadents with alienation escapism and withdrawal from the social and political world Matthew Potolsky offers an alternative reading of the movement In The Decadent Republic of Letters he treats the decadents as fundamentally international defined by a radically cosmopolitan ideal of literary sociability rather than an inward turn toward private aesthetics and exotic sensation The Decadent Republic of Letters looks at the way Charles Baudelaire Théophile Gautier and Algernon Charles Swinburne used the language of classical republican political theory to define beauty as a form of civic virtue The libertines an international underground united by subversive erudition gave decadents a model of countercultural affiliation and a vocabulary for criticizing national canon formation and the increasing state control of education Decadent figures such as Joris Karl Huysmans Walter Pater Vernon Lee Aubrey Beardsley and

Oscar Wilde envisioned communities formed through the circulation of art Decadents lavishly praised their counterparts from other traditions translated and imitated their works and imagined the possibility of new associations forged through shared tastes and texts Defined by artistic values rather than language geography or ethnic identity these groups anticipated forms of attachment that are now familiar in youth countercultures and on social networking sites Bold and sophisticated The Decadent Republic of Letters unearths a pervasive decadent critique of nineteenth century notions of political community and reveals the collective effort by the major figures of the movement to find alternatives to liberalism and nationalism
