Modernism and Colonialism Richard Begam, Michael Moses, 2007-10-15 The essays in Modernism and Colonialism offer revisionary accounts of major British and Irish literary modernists relation to colonialism , **The Decline of the West** Oswald Spengler, Arthur Helps, Charles Francis Atkinson, 1991 Spengler's work describes how we have entered into a centuries long world historical phase comparable to late antiquity and his controversial ideas spark debate over the meaning of historiography Durkheim and Postmodern Culture Stjepan Mestrovic, 2017-09-29 The present work is an elaboration of the author's previous efforts in Emile Durkheim and the Reformation of Sociology 1988 and The Coming Fin de Sicle 1991 to demonstrate Durkheim's neglected relevance to the postmodern discourse The aims include finding affinities between our fin de sicle and Durkheim's fin de sicle and connecting the contemporary themes of rebellion against Enlightenment narratives found in postmodern culture with similar concerns found in Durkheim's sociology as well as in his fin de sicle culture contributing to Durkheimian scholarship as well as to the postmodern discourse The distinctive aspects of the present study flow from the focus on culture communication and the feminine voice in culture Durkheim is approached as a fin de sicle student of culture and his insights applied to our fin de sicle culture Furthermore because Durkheim claimed that culture is comprised primarily of collective representations he was a forerunner of the current postmodern concerns with communication Because Durkheim shall be read in the context of his fin de sicle this book shall lead to the conclusion that Durkheim was a kind of psychoanalyst such that society is the patient culture comprises the symptoms and the sociologist must decipher decode and even deconstruct collective representations Yet the Durkheimian deconstruction proposed here is unlike the postmodern deconstructions which criticize and tear apart a text without substituting a better meaning or interpretation Postmodern discourse has made respectable again the synthesis of multidisciplinary insights that was fashionable in Durkheim's fin de sicle In following this postmodern strategy this book is more than a book about Durkheim It is also a book about his contemporaries among them Carl Justav Jung Thorstein Veblen Henry Adams Georg Simmel and Max Weber The author does not follow the postmodern strategy completely because he f **Environment, Space, Place - Volume 3, Issue 2 (Fall 2011)** Gary Backhaus, 2011-01-01 **Erich Auerbach and the Secular World** Jon Nixon, 2022-05-18 Auerbach was one of the foremost literary critics of the 20th century whose work has relevance within the fields of literary criticism historiography and postcolonial theory The opening chapter of this book explains how he understood the task of interpretation and his role as an interpreter The following chapter outlines the important phases in his life with reference to the writers and thinkers who influenced him in his thinking and practice The central chapters of the book focus on specific themes in his work the historical grounding of the figural imagination the relation between the secular and the sacred the emergence of tragic realism and the notion of inner history as a defining feature of early 20th century modernism The final two chapters focus on broader issues relating to the development of Auerbach's understanding of the

development of an educated readership within Europe and of his concerns regarding the emergence of what he terms a world literature

**The Dilemmas of Wonderland** Yakov Ben-Haim, 2018-09-02 Innovations create both opportunities and dilemmas They provide new and supposedly better opportunities but because of their newness they are often more uncertain and potentially worse than existing options Recent inventions and discoveries include new drugs new energy sources new foods new manufacturing technologies new toys and new pedagogical methods new weapon systems new home appliances and many other discoveries and inventions Is it better to use or not to use a new and promising but unfamiliar and hence uncertain innovation That dilemma faces just about everybody The paradigm of the innovation dilemma characterizes many situations even when a new technology is not actually involved The dilemma arises from new attitudes like individual responsibility for the global environment or new social conceptions like global allegiance and self identity transcending nation states These dilemmas have far reaching implications for individuals organizations and society at large as they make decisions in the age of innovation The uncritical belief in outcome optimization more is better so most is best pervades decision making in all domains but is often irresponsible when facing the uncertainties of innovation There is a great need for practical conceptual tools for understanding and managing the dilemmas of innovation This book offers a new direction for a wide audience It discusses examples from many fields including e reading bipolar disorder and pregnancy disruptive technology in industry stock markets agricultural productivity and world hunger military hardware military intelligence biological conservation on line learning and more

*Social Science Quotations* Robert Merton, 2018-04-27 Social Science Quotations has been prepared to meet an evident unmet need in the literature of the social sciences Writings on the lives and theories of individual social scientists abound but there has been no fully documented collection of memorable quotations from the social sciences as a whole The frequent use of quotations in scientific as well as literary writings that are mere summaries or paraphrases typically fail to capture the full force of formulations that have made quotations memorable This book of quotations invites the further reading or rereading of the original texts beyond the quotations themselves Sills and Merton draw extensively upon the writings that constitute the historical core of the social sciences and social thought those works with staying power often described as the classical texts Many quotations have been drawn from these classical texts because the quotations contain memorable ideas memorably expressed Both consequential and memorable these words have been quoted over the generations entering into the collective memory of social scientists everywhere and at times diffusing into popular thought and into the vernacular as well This book is useful to social scientists anthropologists economists historians political scientists psychiatrists psychologists sociologists and statisticians and for all who want to learn or verify memorable formulations and phrases concerning social thought and social theories It is particularly useful for graduate students taking courses that examine the history of their discipline
