

RICHARD PIPES

The Degarev AFFAIR

TERROR AND TREASON IN TSARIST RUSSIA

"An amazing story, part Dostoevsky, part Conrad. . . . Remarkable."

—Michael J. Ybarra, *Wall Street Journal*

The Degaev Affair Terror And Treason In Tsarist Russia

Richard Pipes

The Degaev Affair Terror And Treason In Tsarist Russia:

The Degaev Affair Richard Pipes, 2003-01-01 The well known historian Pipes uses previously unexplored Russian archives to draw a brilliant psychological political and sociological portrait of Degaev a committed terrorist in Russia and an admired professor in America 18 illustrations [Avoiding The Terrorist Trap: Why Respect For Human Rights Is The Key To Defeating Terrorism](#) Thomas David Parker, 2019-06-17 This book makes uncomfortable reading both in its detailed analysis of terrorism and its causes and in the critique of state responses particularly in modern times It is unusual to have such a defence of a human rights framework from a counter terrorism practitioner rather than from within the legal fraternity It is this that makes the case even more persuasive All who are involved in counter terrorism strategy should consider carefully the arguments put forward Global Policy Journal For more than 150 years nationalist populist Marxist and religious terrorists have all been remarkably consistent and explicit about their aims provoke states into over reacting to the threat they pose then take advantage of the divisions in society that result Yet state after state falls into the trap that terrorists have set for them Faced with a major terrorist threat governments seem to reach instinctively for the most coercive tools at their disposal and in doing so risk exacerbating the situation This policy response seems to be driven in equal parts by a lack of understanding in the true nature of the threat an exaggerated faith in the use of force and a lack of faith that democratic values are sufficiently flexible to allow for an effective counter terrorism response Drawing on a wealth of data from both historical and contemporary sources [Avoiding the Terrorist Trap](#) addresses common misconceptions underpinning flawed counter terrorist policies identifies the core strategies that guide terrorist operations consolidates the latest research on the underlying drivers of terrorist violence and then demonstrates why a counter terrorism strategy grounded in respect for human rights and the rule of law is the most effective approach to defeating terrorism [Virtual Politics](#) Andrew Wilson, Professor of the Archaeology of the Roman Empire Andrew Wilson, 2005-01-01 States like Russia and Ukraine may not have gone back to totalitarianism or the traditional authoritarian formula of stuffing the ballot box cowing the population and imprisoning the opposition or not obviously But a whole industry of political technology has developed instead with shadowy private firms and government fixers on lucrative contracts dedicated to the black arts of organizing electoral success This book uncovers the sophisticated techniques of the virtual political system used to legitimize post Soviet regimes entire fake parties phantom political rivals and scarecrow opponents And it exposes the paramount role of the mass media in projecting these creations and in falsifying the entire political process Wilson argues that it is not primarily economic problems that have made it so difficult to develop meaningful democracy in the former Soviet world Although the West also has its spin doctors dirty tricks and aggressive ad campaigns it is the unique post Bolshevik culture of political technology that is the main obstacle to better governance in the region to real popular participation in public affairs and to the modernization of the political economy in the longer term [The Foundations of Modern Terrorism](#) Martin A. Miller, 2013 A groundbreaking

history of the roots of modern terrorism ranging from early modern Europe to the contemporary Middle East The Routledge History of Terrorism Randall D. Law, 2015-03-27 Though the history of terrorism stretches back to the ancient world today it is often understood as a recent development Comprehensive enough to serve as a survey for students or newcomers to the field yet with enough depth to engage the specialist The Routledge History of Terrorism is the first single volume authoritative reference text to place terrorism firmly into its historical context Terrorism is a transnational phenomenon with a convoluted history that defies easy periodization and narrative treatment Over the course of 32 chapters experts in the field analyze its historical significance and explore how and why terrorism emerged as a set of distinct strategies tactics and mindsets across time and space Chapters address not only familiar topics such as the Northern Irish Troubles the Palestine Liberation Organization international terrorism and the rise of al Qaeda but also lesser explored issues such as American racial terrorism state terror and terrorism in the Middle Ages tyrannicide from Ancient Greece and Rome to the seventeenth century the roots of Islamist violence the urban guerrilla terrorism and state terror in Latin America literary treatments of terrorism With an introduction by the editor explaining the book's rationale and organization as well as a guide to the definition of terrorism an historiographical chapter analysing the historical approach to terrorism studies and an eight chapter section that explores critical themes in the history of terrorism this book is essential reading for all those interested in the past present and future of terrorism Enemies of Humanity I. Land, 2008-05-26 This collection of essays offers a fresh perspective on the definition and origins of terrorism broadening the field to include slave revolts and urban tensions and considering how the war on terrorism had already matured by 1870 as a way to justify often bloody campaigns against labor unions nationalist freedom fighters and reformers **The Russian Revolution of 1905** Anthony J. Heywood, Jonathan D. Smele, 2013-04-03 2005 marks the centenary of Russia's first revolution an unplanned spontaneous rejection of Tsarist rule that was a response to the Bloody Sunday massacre of 9th January 1905 A wave of strikes urban uprisings peasant revolts national revolutions and mutinies swept across the Russian Empire and it proved a crucial turning point in the demise of the autocracy and the rise of a revolutionary socialism that would shape Russia Europe and the international system for the rest of the twentieth century The centenary of the Revolution has prompted scholars to review and reassess our understanding of what happened in 1905 Recent opportunities to access archives throughout the former Soviet Union are yielding new provincial perspectives as well as fresh insights into the roles of national and religious minorities and the parts played by individuals social groups political parties and institutions This text brings together some of the best of this new research and reassessment and includes thirteen chapters written by leading historians from around the world together with an introduction from Abraham Ascher The Russian Revolution of 1905 Jon Smele, Anthony Heywood, 2005 This book presents new perspectives and fresh insight into the roles of national and religious minorities and the parts played by individuals social groups political parties and institutions in the 1905 Russian revolution **Terrorism**

Juan Romero,2022-03-03 This book adopts an innovative historical approach to Terrorism focusing on the weaknesses of terrorist states and organizations as reflected in the ideologies methodologies and propaganda of Russian populist National Socialist and Islamic Terrorism Drawing upon multilingual primary sources the book challenges the oft repeated claim that the Nazi regime and Islamic State produced propaganda of superior quality instead arguing that the manipulation of information is the Achilles heel of terrorist organizations It offers a critical examination of the fears of terrorists themselves as opposed to the traditional focus on the fear instilled by terrorist organizations in governments and citizens Taking a multidisciplinary approach and long term history perspective the book provides a method for exploring the minds of terrorists and the inner workings of their organizations and traces the evolution of terrorist thought and methodology across time and place This is the ideal volume for researchers of Terrorism within the fields of History Politics Security Studies Religious Studies and Legal Studies

Death Orders Anna Geifman,2010-05-20 This fascinating study shows how terrorism as developed and practiced in Romanov Russia has over the past century manifested itself as the template for modern and postmodern terrorism as a universal sociocultural psychological and existential experience irrespective of particular political causes ethnic distinctions and ideological boundaries Arguing that Russia is the birthplace of modern terrorism *Death Orders The Vanguard of Modern Terrorism in Revolutionary Russia* uses the nation as a case study of psycho historical patterns of worldwide terrorist activity during the past century Key features of early 20th century Russian political extremism serve as models for terrorist experiences in other periods and regions as author Anna Geifman builds a typology of a universal phenomenon The book shows how in Russia and elsewhere terrorists objectives have degenerated from punishment of individual adversaries and attempts to intimidate political elites to indiscriminate acts of political violence It shifts attention from ideology to practices that had been previously hidden ignored or rationalized demonstrating that what terrorists say about their motives may not be what actually drives them to brutality By looking closely at Russian precedents for the general experience of modern political violence the book helps illuminate many obscure aspects of terrorism today

Decoding **The Degaev Affair Terror And Treason In Tsarist Russia**: Revealing the Captivating Potential of Verbal Expression

In an era characterized by interconnectedness and an insatiable thirst for knowledge, the captivating potential of verbal expression has emerged as a formidable force.
