D Keegan

The Devil Perceptions Of Evil From Antiquity To Primitive Christianity Cornell Paperbacks:

The Devil Jeffrey Burton Russell, 1987 This lively and learned book traces the history of the concept of evil and its personification as the Devil from ancient times to the period of the New Testament and across cultures and civilizations

The Devil Jeffrey Burton Russell, 1977 *The Devil* Jeffrey Burton Russell, 1993 *The Devil, Perception of Evil* Jeffrey Burton Russell, 1982 **Understanding Spiritual Power** Marguerite G. Kraft, 2003-08-18 While secularized cultures of the West have a great deal of difficulty dealing with the spiritual as a real non imaginary dimension of life most of the world's peoples do not. Having worked and studied among peoples of several non Western societies Marguerite Kraft is convinced that coming to terms with spiritual power presents one of the greatest challenges for all those who work among non Westerners in pastoral or mission situations. *Understanding Spiritual Power* addresses the dynamics of the felt need for spiritual power in relation to a people's assumptions, values and commitments in order to provide a foundation for meaningful Christian witness in power oriented societies. The Western Church Kraft argues under pressure from modern rationalism has largely lost awareness of God's power and position vis a vis the spiritual realm so important in other societies. Indeed this loss of power could be one reason for the interest in Eastern and New Age philosophies on the part of Westerners disillusioned with the modern worldview. Having worked among the Kamwe in Nigeria, the Thai in Asia and the Navajo in North America Kraft focuses on specific ways in which people in these three societies view reality and suggests how the gospel can be articulated in forms they can understand. *Understanding Spiritual Power* offers a theological as well as a practical perspective on spiritual power. By exploring living societies, providing examples and case studies and offering specific strategies this book makes a powerful case for rethinking and recasting traditional missiological methods. At the same time it helps Western Christians with ears to hear question whether they might not learn as much from those with whom they work as they seek to teach. *The Blackwell Companion to the Study of Religion* Robert A. Segal, 2009-02-04 This prestigious Companion offers the most comprehensive survey to date of the study of religion. Featuring a team of international contributors and edited by one of the most widely respected scholars in the field, *The Blackwell Companion to the Study of Religion* provides an interdisciplinary and authoritative guide to the subject. Examines the main approaches to the study of religion: anthropology, the comparative method, economics, literature, philosophy, psychology, sociology and theology. Also covers a diverse range of topical issues such as the body, fundamentalism, magic and new religious movements. Consists of 24 essays written by an outstanding team of international scholars. Reviews within each chapter an outline of a particular subfield and traces its development up to the present day. Debates how the discipline may look in the future. Represents all the major issues, methods and positions in the field. **Satanism** Per Faxälv, Johan Nilsson, 2023 Satanism is a current of thought that generates intense feelings. It remains understudied by academics. This selection of key source texts from the period 1841 to 2017 attempts to remedy that gap. Ranging from the esoteric to the anti clerical, countercultural and

political the texts span a wide variety of genres from poetry and polemical religious tracts to ritual instructions and internet FAQ s All are provided with comprehensive introductions written by specialists in the field that offer readers both critical historical context and expert scholarly interpretation Chronologically structured the book can be read as a succinct historical overview of the development of Satanism with the immediacy that only primary sources can provide It is ideal for both classroom and research use as well as a fascinating read for anyone with an interest in the occult the transgressive secularization and the fringes of the religious landscape

The Birth of Satan T. J. Wray, Gregory Mobley, 2014-12-09 Of all the demons monsters fiends and ogres to preoccupy the western imagination in literature art and film no figure has been more feared or misunderstood than Satan But how accurate are the popular images of Satan How and why did this rather minor biblical character morph into the very embodiment of evil T J Wray and Gregory Mobley guide readers on a journey to retrace Satan s biblical roots Engaging and informative The Birth of Satan is a must read for anyone who has ever wondered about the origins of the Devil

Satanic Feminism Per Faxneld, 2017-08-24 The notion of woman as the Devil s accomplice is prominent throughout Christian history and was used to legitimize the subordination of wives and daughters In the nineteenth century rebellious females performed counter readings of this misogynist tradition and Lucifer was reconceptualized as a feminist liberator Per Faxneld shows how this surprising Satanic feminism was expressed in a wide range of nineteenth century texts and artistic productions

Angels David Albert Jones, 2010-03-25 What are angels Where were they first encountered Can we distinguish angels from gods faeries ghosts and aliens And why do they remain so popular This concise introduction investigates stories and speculations about angels in religions old and new in art literature film and the popular imagination
