Maiorov, Roman Hautala, 2021-08-25 The Routledge Handbook of the Mongols and Central Eastern Europe offers a comprehensive overview of the Mongols military political socio economic and cultural relations with Central and Eastern European nations between the thirteenth and fifteenth centuries The Mongol Empire was the largest contiguous land empire in history and one which contributed to the establishment of political commercial and cultural contacts between all Eurasian regions The Golden Horde founded in Eastern Europe by Chinggis Khan's grandson Batu in the thirteenth century was the dominant power in the region For two hundred years all of the countries and peoples of Central and Eastern Europe had to reckon with a powerful centralized state with enormous military potential Some chose to submit to the Mongols whilst others defended their independence but none could avoid the influence of this powerful empire In this book twenty five chapters examine this crucial period in Central Eastern European history including trade confrontation and cultural and religious exchange between the Mongols and their neighbours This book will be an essential reference for scholars and students of the Mongols as well those interested in the political social and economic history of medieval Central Eastern Europe **Warfare in Eastern Europe, 1500-1800**, 2012-01-06 This volume examines continuities and new developments in the conduct of warfare in early modern Eastern Europe from the early sixteenth century when Ottoman imperial expansion reached the Danube and Crimea to the late eighteenth century when the Polish Lithuanian Commonwealth was partitioned out of existence and Russia rolled back Ottoman power from Ukraine and Moldavia Contributors include specialists in Russian Polish Ottoman Habsburg Cossack and Crimean Tatar history The essays engage military history understood in the broadest sense and treat such subjects as taxation recruitment the sociology and culture of officer corps logistics command and control and ideology as well as technology and tactics The volume aims at facilitating comparative study of Eastern European military development across Eastern Europe and its points of divergence from military practice in the West Contributors are Virginia H Aksan Brian J Boeck Peter B Brown Brian Davies Dariusz Kupisz Erik Lund Janet Martin Oleg Nozdrin Victor Ostapchuk Geza Palffy and Carol Belkin Stevens **Travellers, Intellectuals, and the World Beyond Medieval Europe** James Muldoon, 2017-05-15 As the articles reprinted in this volume demonstrate medieval men and women were curious about the world around them They wanted to hear about distant lands and the various peoples who inhabited them Travellers tales factual such as that of Marco Polo and fictional such as Chaucer's famous pilgrimage entertained audiences across Europe Colorful mappaemundi placed in churches illustrated these other lands and peoples for those who could not read Medieval travel literature was not only entertaining however it was also informative generating proto ethnological information about the world beyond Latin Christendom that provided

useful guidance for those such as merchants and missionaries who intended to travel abroad Merchants learned about safe travel routes to foreign lands about dangers to be avoided on the roads and at sea about cultural practices that might interfere with their attempts at trade and about products that would be suitable for foreign markets Churchmen read the reports of missionaries to understand the beliefs of Muslims and other non believers in order to debate with them and to learn their languages These articles illustrate how travellers reports in turn shaped the European response to the world beyond Europe and are set in context in the editor s introduction *Mongol Warrior 1200-1350* Stephen
